INTRODUCTORY SECTION

OUR MISSION is to develop world-class learners and citizens of character in a safe and inclusive learning community.

OUR VISION is to unfold the potential of every student by empowering the teacher/student relationship through:

- > Promoting the roles and responsibilities we all have in the 21st century learning process
- > Removing barriers
- > Creating an environment where character and citizenship count
- > Leveraging content knowledge to become critical thinkers and problems solvers
- > Providing multiple pathways to unlocking student potential

THE BOARD OF EDUCATION VALUES

- > Essential skills of digital-age literacy, inventive thinking, effective communication, and high productivity
- > Innovative programming options
- > Extra-curricular activities and character development
- > Building leadership capacity for all employees
- > Community engagement and multiple ways of communication
- > Being transparent, ethical, and using resources wisely

January 12, 2015

Mr. Mike Donohue, President,
Members of the Board of Education, and
Residents of the Dubuque Community School District

We are pleased to submit to you the Comprehensive Annual Financial Report for the Dubuque Community School District for the fiscal year ended June 30, 2014. This report has been prepared to conform to guidelines recommended by the Association of School Business Officials International. Responsibility for the accuracy of data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data is presented in a manner designed to fairly present the financial position and results of operations of the District, as measured by the financial activity of the various funds; that all disclosures necessary to enable the reader to gain a comprehensive understanding of the District's financial activity have been included; and the information provided is complete and accurate in all material respects.

The financial statements and schedules presented in this Comprehensive Annual Financial Report (CAFR) include all the funds of the District in accordance with standards set by the Governmental Accounting Standards Board (GASB).

The report presents the financial information of the District accurately and concisely. It is designed to be comprehensive, yet easily readable and accessible.

To facilitate the understanding of the District's financial affairs, the Comprehensive Annual Financial Report (CAFR) is presented in four sections:

Introductory Section – This section includes the District Mission Statement, this transmittal letter, the District's organizational chart, a list of principal officers, the District's consultants and advisors, and a Certificate of Excellence in Financial Reporting from the Association of School Business Officials.

Financial Section – This section includes the independent auditor's report on the financial statement and schedules, the management's discussion and analysis, the basic financial statements, notes to the financial statements, required supplementary information, and other supplementary information.

Statistical Section – This section includes selective financial, economic, and demographic information for up to a ten-year period and has been thoroughly revised in accordance with GASB Statement 44, Economic Condition Reporting: The Statistical Section.

Compliance Section – This section includes audit reports relating to the Board's single audit over internal control, federal and state awards, as well as a Schedule of Expenditures of Federal and State Awards.

This letter of transmittal is designed to complement the Management's Discussion and Analysis included within the financial section of the CAFR and should be read in conjunction with it.

The current Comprehensive Annual Financial Report will be submitted to the Association of School Business Officials International (ASBO) for review for the ASBO Certificate of Excellence.

Reporting Entity and Its Services

The Dubuque Community School District was organized in 1856. The District is supported financially by legislatively appropriated state aid, property taxes, local option sales and services tax, state and federal grants for special projects and local revenue received in the form of tuition and other miscellaneous income items. The District is governed by a seven-member board of education. Effective with the September 2009 election, school board members are elected to four-year terms and elections are held only in odd-numbered years, as opposed to annual elections under previous law. All board members are elected at large.

The District provides a full range of educational services for residents of the Dubuque Community School District appropriate to students in early childhood and grades kindergarten through twelve. These services include basic, regular and enriched academic education, special education for identified children with qualifying special needs, vocational education and many individualized programs such as specialized instruction for students at-risk and students whose primary language is not English. The official enrollment of the District as of October 2013 (the official count date) was 10,579 students. This District is the seventh largest of Iowa's 348 public school systems. The District operates two regular high schools, three middle schools, and thirteen elementary schools.

The financial statements include all funds, agencies, boards, and commissions. The District has also considered all actual and potential component units for which it is financially accountable and all other organizations where the nature of significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The criteria considered in determining financial accountability of any entity to the District include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization; and/or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The Dubuque Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

Accounting System

All funds of the District are presented in this report and have been audited by the District's independent certified public accountants, Jim Kircher & Associates, P.C.

In developing and evaluating the accounting system of the District, much consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

Accounting System, continued

All internal control evaluations occur within the above framework. We believe that the internal accounting controls of the District adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Relevant Financial Policies

The State of Iowa funding formula for Iowa school districts' General Fund is pupil driven. An increase in spending authority occurs in two different ways, either an increase in pupils or an increase in State Supplemental Aid which is set by the state legislature. Under state law, the legislature has thirty (30) days after receiving the Governor's budget recommendation to set the percentage of growth (State Supplemental Aid) for the following budget year. To illustrate, the 2013 legislature sets the FY 2015-16 percent. This percentage growth is very important to districts as this is the basis for planning purposes, budgeting purposes, and negotiating union contracts. For the past several years, the legislature has not followed their legal responsibility in setting the growth rate in thirty (30) days which makes planning, budgeting, and negotiating much harder to accomplish.

The District has three financial benchmarks that are used to measure the financial strength of the District's General Fund. These three benchmarks are Cash Balance, Solvency Ratio, and Unspent Balance (which is another term for Spending Authority). The District had the following goals for these three benchmarks:

- 1. Cash Balance Three months' worth of cash expenditures
- 2. Solvency Ratio Range of 5% to 15%
- 3. Unspent Balance One months' worth of cash expenditures

For fiscal year 2013-14, listed below are the District's benchmarks and actual amounts;

| | <u>Benchmark</u> | <u>Actual</u> |
|-----------------|------------------|---------------|
| Cash Balance | \$30,100,251 | \$30,179,926 |
| Solvency Ratio | 5% - 15% | 18.5% |
| Unspent Balance | \$ 9,987,313 | \$13,231,544 |

While the District exceeded all three of the benchmarks, there were declines in all three areas for the year ended June 30, 2014. The District is expecting declines again in the 2014-15 fiscal year and will need to begin making budget reduction plans for the 2015-16 fiscal year.

Cash Management

The District invests in only those securities allowed by the Code of Iowa, Chapter 12C.

Risk Management

The District currently covers property, liability, and workers' compensation losses with traditional insurance coverage through Employers' Mutual Insurance Company. An active safety training and monitoring program exists.

Budgeting

The District's Board of Education annually adopts and certifies a budget following a public hearing and approves the related appropriations for the general, special revenue, debt service, capital projects and enterprise funds in accordance with provisions outlined in the statutes of the State of Iowa. The budgets and financial statements for the governmental fund types are prepared on a modified accrual basis and the budget and financial statements for the enterprise funds are prepared on the accrual basis. A statement comparing the original and amended budget to actual revenues and expenditures/expenses is included as required supplementary information.

For management control, the line-item budgets are reviewed for variances. However, since a budget is a plan, overage or underage on a line-item basis is allowed if sufficient funds are available on a major program basis. Iowa law requires the formal and legal budgetary control for the certified budget to be based upon four major classes of expenditures known as functional areas, not by fund or fund type. These four functional areas are instruction, support services, non-instructional programs, and other expenditures.

Management's Discussion and Analysis

The Management's Discussion and Analysis provides a narrative overview and a detailed analysis of the changes in the District's financial position.

Major Initiatives and Achievements

In September of 2002, local voters approved a one-cent local option sales and services tax for school infrastructure. With that sales tax funding, the District was able to develop a plan for the future. Beginning in February 2003, a group of citizens made up a public planning task force. Working with the School Board, they began to develop a plan on choosing locations for a new middle school, replacement downtown elementary school and a new west-end elementary school. The next step was to design a new middle school, a replacement downtown elementary school, a west-end elementary school, as well as certain essential repairs and renovations to one of the existing high school buildings. Plans for construction were approved and bids taken for each project. Construction was completed in August 2005 on the new 206,000 square foot Eleanor Roosevelt Middle School. The new 66,000 square foot Prescott Elementary School has been completed and opened in August of 2006. The new 66,000 square foot George Washington Carver Elementary School was completed and opened in August of 2007. Also extensive remodeling and additional classrooms were done at Stephen Hempstead High School during this period. The District issued revenue bonds in October 2004, January 2005, January 2006, and January 2007 to finance the new construction, with sales tax revenues paying off the bonds. These bonds were either paid off or refinanced through three new issuances in December 2009 and February 2010 at a lower interest rate.

The State of Iowa has subsequently enacted legislation that extended the statewide sales tax to 2029. Because of this extension, the District has developed a long-term facilities plan and a long-term technology plan to strategically use these additional funds to complement the District Strategic Plan.

Last year, the District completed a large facility project and started two large facility projects. They included an approximately \$10,100,000 stadium renovation project at Senior High School that was completed in the summer of 2013 and an approximately \$33,000,000 multi-year remodel/addition project at Hempstead High School, and an approximately \$6,600,000 remodel/addition multi-year project at Kennedy Elementary School; both of these projects continued through the 2013-14 fiscal year. During the 2014-15 fiscal year, the District will conduct a study and begin architectural drawings on a major remodel/addition project at Dubuque Senior High School. All

Major Initiatives and Achievements, continued

of these projects will be funded with sales tax revenue bonds. The District issued \$10,000,000 bonds in April 2012, \$10,000,000 in April 2013, and \$13,033,000 in March 2014. The District will need to issue additional bonds in the future in order to complete the Hempstead and Kennedy projects and begin the study of the Senior project.

Economic Condition and Outlook

The City of Dubuque's location in the tri-state area of Iowa, Illinois, and Wisconsin provides the area with a regional economic importance. The city has been endorsed as an All-American City in 2007, 2012, and 2013. The regional tax base is strong; the property tax base of the Dubuque Community School District itself is below the state average. The per pupil property tax valuation ranks 219 out of 348 school districts in the state. The strong regional retail market continues to provide wealth to the community. The strong regional market is illustrated by various convention and tourism activities.

The State of Iowa's school funding formula projects a controlled budget based on October's enrollment for the current budget year multiplied by a legislatively approved cost per pupil for the subsequent budget year. The per pupil allowable cost for budget year 2013-14 was \$6,128. The allowable growth rate for FY 2014-15 has been set at 4.0%.

In light of these circumstances, the School District must continue to operate in the most efficient manner during 2014-15 to help ensure adequate funding for staff, services, and supplies.

Independent Audit

The accounting firm of Jim Kircher & Associates, P.C., was selected to perform the annual audit in accordance with Chapter 11 of the Code of Iowa. In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditor's report on the basic financial statements, combining and individual fund statements, and other schedules is included in the financial section of this report. The auditors have issued an unmodified "clean" opinion on the Dubuque Community School District's financial statements for the year ended June 30, 2014. The Independent Auditor's Report is located in the financial section of this report.

Certificate of Achievement for Excellence in Financial Reporting

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence to the District for their Comprehensive Annual Financial Report. In order to be awarded this certificate, the District must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both U.S. generally accepted accounting principles and applicable legal requirements. This certificate is valid for a period of one year only. We believe our current report conforms to these requirements and we are submitting it to ASBO International to determine its eligibility for a certificate from this organization.

Other Matters

Also included in this report is a statistical section, including additional financial data, that will give the reader a better understanding of the school system. This section has been updated in conformity with the reporting requirements of GASB 44. This section provides information categorized as follows:

Other Matters, continued

- 1. Financial trend schedules.
- 2. Revenue capacity schedules.
- 3. Debt capacity schedules.
- 4. Demographic and economic information schedules.
- 5. Operating information schedules.
- 6. Continuing disclosure information.

We wish to take this opportunity to thank the Administrative Office staff that assisted in obtaining and organizing data, the Dubuque County Auditor and Treasurer Offices and the city and county officials who provided much needed information. Without all of the above groups' efforts, the report could not have been completed.

In summary, the objective of the Comprehensive Annual Financial Report is to provide the general public and other users of the District's financial information a better understanding of the operating activities and financial condition of the District.

Very truly yours,

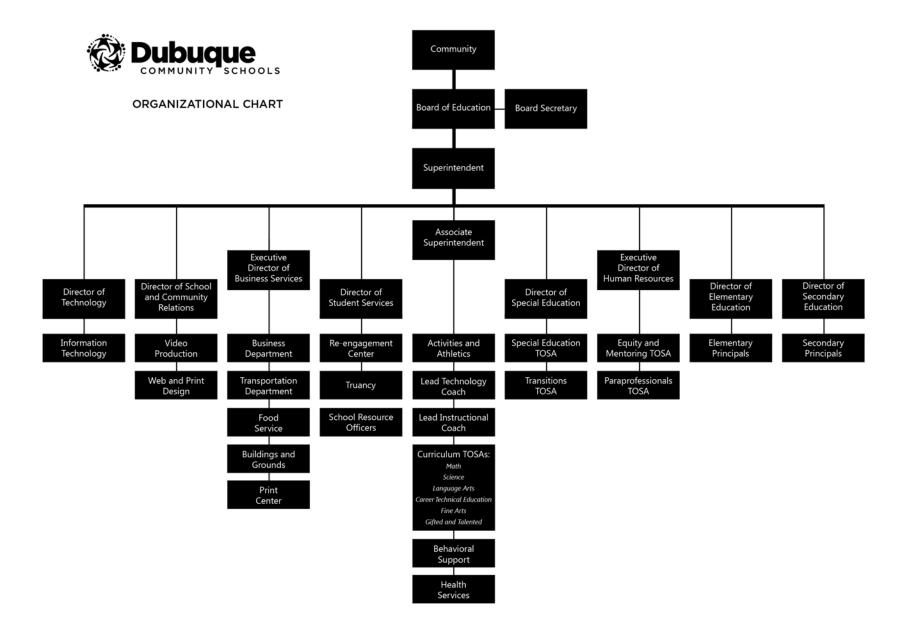

Kevin Kelleher

Independent Auditor's Report

To the Board of Education of Dubuque Community School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Dubuque Community School District, Dubuque, Iowa, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks and material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Dubuque Community School District as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 20 through 33 and 69 through 71 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Dubuque Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the ten years ended June 30, 2013 (which are not presented herein) and expressed unmodified opinions on those financial statements. The combining nonmajor fund financial statements and other schedules, listed in the table of contents as supplementary information, and the accompanying Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The accompanying introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 12, 2015 on our consideration of Dubuque Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Dubuque Community School District's internal control over financial reporting and compliance.

JIM KIRCHER & ASSOCIATES, P.C.

Dubuque, Iowa January 12, 2015

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

Dubuque Community School District (the "District") provides this Management's Discussion and Analysis of its financial statements. The narrative overview and analysis focuses on the financial activities for the fiscal year ended June 30, 2014. Please read this information in conjunction with the District's financial statements, which immediately follow this section.

2014 FINANCIAL HIGHLIGHTS

- Funding levels for Iowa K-12 school districts depend principally on two factors: first, changes in enrollment and second, changes in *per pupil district cost*. Of these two factors, changes in *per pupil district cost* normally have the larger impact on District funding. *Per pupil district cost* is an amount annually set by state government. This amount has historically been determined by applying a percentage increase to the prior year's amount. The percentage increase was 4.0% for FY 2014-15, 2.0% for FY 2013-14, 2.0% for FY 2012-13, and 0% for FY 2011-12. This percentage amount has a substantial impact on district-funding levels.
- The District's enrollment has been relatively steady in recent years. From October 2013 to 2014, there was an increase of 55 students. The last three years have seen small enrollment increases. The Iowa Department of Education projects stable enrollment over the next several years.
- General fund revenues increased by \$1.3 million (1.2%) in FY 2013-14. Major components of this change include a \$1.4 million increase in state aid, a \$1.6 million decrease from real estate taxes and a \$1.5 million increase in miscellaneous income.
- General fund expenses increased by \$8.0 million (7.1%) in this fiscal year. Salaries and benefits comprise 80.2% of general fund expenditures for FY 2013-14 as compared to 80.6% of general fund expenditures for FY 2012-13.
- General fund excess of expenses over revenues resulted in a \$6.8 million decrease in fund balance and a \$4.3 million decrease in cash/investments. Estimated unspent balance also decreased by \$2.4 million.
- The District's total net position decreased by \$3.3 million (2.5%) this fiscal year primarily due to the District lowering the property tax levy rate which reduced the amount of property tax revenue collected and an increase in salary and benefit expenditures.
- The District monitors the three primary school district financial indicators of cash/investments, solvency ratio, and unspent balance. These indicators are measured at year end and compared to prior-years' results, state standards, and other districts' results. Cash reserve levy increases do not, however, increase unspent balance.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

2014 FINANCIAL HIGHLIGHTS, continued

- The FY 2013-14 unspent balance decreased by \$2.4 million. With 4.0% allowable growth for FY 2014-15, the unspent balance is projected to decline again in the FY 2014-15 year. The District will need to begin budget reduction planning to alleviate this trend.
- The Local Option Sales Tax, now called the Secure an Advanced Vision for Education ("SAVE") fund is used to build new facilities and improve old ones. The District collected approximately \$8.9 million of sales tax revenue in FY 2013-14 most of which was used to pay bond principal, bond interest, some construction costs, and the District technology plan. The collection amount substantially exceeds revenue projections made in January 2003 when the sales tax referendum first passed.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of the District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which the District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

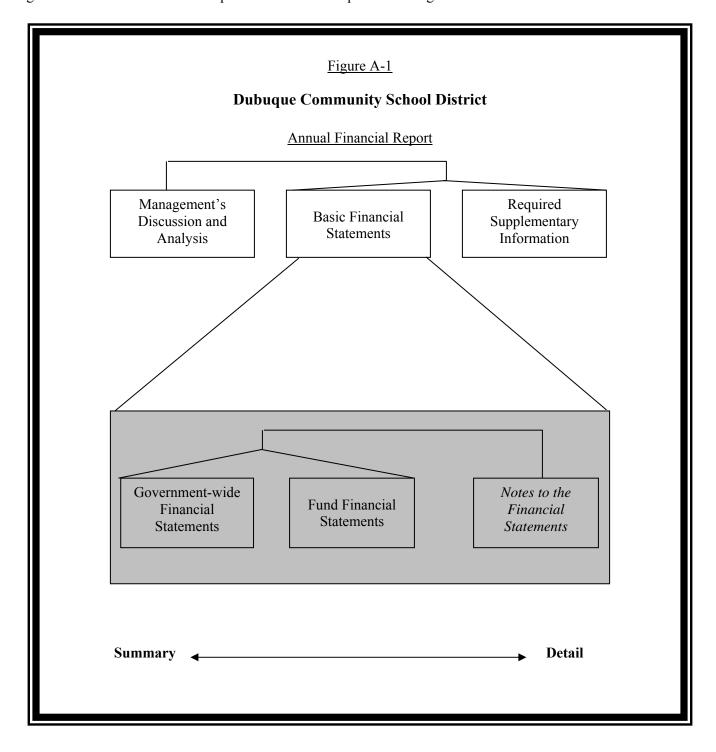

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Other Supplementary Information provides detailed information about the nonmajor governmental funds. In addition, the Schedule of Expenditures of Federal Awards provides details of various federal programs benefiting the District.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section highlights the structure and contents of each of the statements.

| 3 | | vernment-wide and Fund Fund | l Financial Statemen | |
|--|--|---|---|--|
| | Government- wide Statements | Governmental Funds | Proprietary Funds | Fiduciary Funds |
| Scope | Entire district (except fiduciary funds) | The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance. | Activities the district operates similar to private businesses: food service is included here. | Instances in which the district administers resources on behalf of someone else, such as scholarship programs. |
| Required financial statements | Statement of net position Statement of activities | Balance sheet Statement of revenues, expenditures and changes in fund balances | Statement of net position Statement of revenues, expenses, and changes in fund net position Statement of cash flows | Statement of fiduciary net position Statement of changes in fiduciary net position |
| Accounting basis and measurement focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial focus | Accrual accounting and economic resources focus | Accrual accounting and economic resources focus |
| Type of asset/liability information | All assets and liabilities, both financial and capital, short-term and long-term | Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long- term liabilities included | All assets and liabilities, both financial and capital, and short-term and long-term | All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can |
| Type of inflow/outflow information | All revenues and expenses during year, regardless of when cash is received or paid | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter. | All revenues and expenses during the year, regardless of when cash is received or paid | All additions and deductions during the year, regardless of when cash is received or paid |

Management's Discussion and Analysis

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how they have changed. Net position – the difference between assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors such as changes in the District's property-tax base and the condition of school buildings and other facilities need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- Business-type activities: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law or by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

1) Governmental funds: Most of the District's basic services are included in governmental funds which generally focus on (1) how cash, and other financial assets that can readily be converted to cash, flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more, or fewer, financial resources that can be spent in the near future to finance the District's programs.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES, continued

The District's governmental funds include the general fund, special revenue funds, debt service fund, and capital projects fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

2) Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. The District's enterprise fund, one type of proprietary fund, is the same as its business-type activities but provide more detail and additional information, such as cash flows. The District currently has one enterprise fund, the school nutrition fund.

The required financial statements for proprietary funds include a statement of net position, a statement of revenues, expenses and changes in fund net position and a statement of cash flows.

- 3) *Fiduciary funds:* The District is the trustee, or fiduciary, for assets that belong to others. These funds include private-purpose trust and agency funds.
 - Private-purpose trust fund The District accounts for outside donations for scholarships for individual students in this fund.
 - Agency funds These are funds through which the District administers and accounts for certain federal and/or state grants on behalf of other districts and certain revenue collected for employee purchases of soft drinks and related expenditures.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net position and a statement of changes in fiduciary net position.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

Management's Discussion and Analysis

Business-Type Activities

District maintains only one activity within the business-type activities classification, and this is its school nutrition fund. School nutrition fund revenues increased by \$94,631 over the prior year. The school nutrition fund balances declined this year due to continued increases in food costs caused by the change in Federal requirements.

INDIVIDUAL FUND ANALYSIS

As previously noted, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The financial performance of the District as a whole is reflected in its government funds. At June 30, 2014, total government fund balance was \$43,175,338.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

Governmental Fund Highlights

- The District's fund and cash/investment balances and unspent balance all decreased in the 2013-14 fiscal year. At June 30, 2014, the estimated unspent balance was \$13,231,544.
- Salaries and benefits comprise about 80.2% of the general fund expenditures. These expenditures increased \$5,869,427 due primarily to the negotiated settlements with the District's eight different bargaining units.
- The physical plant and equipment levy (PPEL) fund balance decreased slightly in FY 2013-14. The
 District carefully monitors this fund to ensure balances are carried over from year-to-year in order to
 meet possible unexpected emergency costs and also to take advantage of property acquisition
 opportunities.
- Within the statewide sales, services, and use tax fund, revenues are generated by two main sources. They are the issuance of sales tax revenue bonds and sales taxes generated by statewide retail purchases. The statewide sales tax is now called Secure an Advanced Vision for Education (SAVE), formerly the Local Option Sales Tax (LOST). With regards to SAVE, the legislature recently passed legislation which did two things; first created a sunset date that this new provision would be in effect through June 30, 2029; and second, created a provision which required all collections of sales tax funds be put into a statewide pool which is then distributed on a district per pupil basis. Previous to this legislation, all sales tax generated in Dubuque County was distributed to the schools located within Dubuque County on a resident student basis. Because of this legislative change in how the funds are distributed, the District received a substantial decrease in sales tax funds of approximately \$3,200,000 compared to the previous year. The District was aware of this change and planned accordingly for the decrease. For the 2015-16 fiscal year, the District has been notified by the State that per pupil distribution has been projected to increase by \$20 per student or approximately \$212,000.

Proprietary Fund Highlights

As stated previously, the school nutrition fund is the only proprietary fund maintained by the District. The nutrition fund decreased due to an increase in food costs caused by the change in Federal requirements.

BUDGETARY HIGHLIGHTS

The District maintains two types of budgets. The first is the *certified budget* which must meet certain state publication and monitoring requirements and is filed in April for the following year. The second is a management budget (sometimes called *line-item* budget) which is used by District administration to control and monitor expenditures. The *certified budget* needs to be tabulated in the following four functional areas:

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

BUDGETARY HIGHLIGHTS, continued

instruction, total support services, non-instructional programs, and total other expenditures. The District amended its original budget in 2013-14 for an increase in expenditures from \$163,738,333 to \$168,938,333 to reflect increased expenses for student technology purchases, accelerated bus purchases and additional construction costs.

A schedule showing the original and amended budget amounts compared to the District's actual financial activity is provided in this report as required supplementary information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2014, the District had invested \$124.6 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, infrastructure equipment, and transportation equipment. The year-end balance is an 18.3% increase over the prior year. More detailed information about the District's capital assets is presented in its Note 4 to the Financial Statements. Depreciation expense for the year was \$5,502,091.

The largest increase in capital assets during the year resulted from continued construction of facilities funded by sales tax revenues. The District is collecting approximately \$9 million annually from this fund source and it is anticipated its capital assets will continue to increase over the course of sales tax collection.

The District currently has a bus replacement plan whereby it normally purchases six to ten school buses each year. The Board's intent is to retain only school buses that are ten years old or newer.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

Capital Assets, continued

The District started two larger projects in the spring of 2013. They include a \$33,000,000 remodel/renovation at Hempstead High School which involves remodeling two wings, an additional gymnasium, and new auditorium. The other project includes a \$6,600,000 remodel/renovation of Kennedy Elementary School which involves a new gymnasium, additional classrooms, remodel of some classrooms and completion of air conditioning throughout the whole school. The District continued to work on both projects throughout FY 2013-14.

Long-term Debt

At June 30, 2014, the District had \$33,033,000 in revenue bond debt outstanding. This represents an increase of approximately 32.9% from the prior year and results from borrowing for new projects exceeding the amount of bond principal paid during the year. The majority of the outstanding debt is secured by a first lien against sales tax collections. The District implemented GASB Statement No. 45 during the year ended June 30, 2009, resulting in a new liability called Other Post-Employment Benefits or OPEB for short. See Notes 5 and 7 to the Financial Statements for additional information.

|---------------|--------------|--------------|---------------------|--|
| | 2013 | 2014 | 2013-14 | |
| Revenue bonds | \$24,850,000 | \$33,033,000 | \$8,183,000 | |

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its future financial health:

• The level of *unspent balance* has greatly improved in recent years due mainly to the \$5,000,000 budget reduction plan approved by the Board of Education in March of 2010. However, with 2.0% allowable growth for FY 2013-14 and 4.0% allowable growth percentage for FY 2014-15, the District will need to monitor expenditures and how they affect future years' unspent balance. The budget planning for the District becomes much more difficult when the State legislature does not approve the allowable growth rate in a timely manner. This was the case for FY 2013-14, as the legislature approved the allowable growth rate late in the spring of 2013 which is the same time school budgets are due. This timing also makes it very difficult for the District to negotiate contracts for the upcoming year with the eight bargaining units. Additions to *unspent balance* are controlled by the State of Iowa. The District continues to apply to the State School Budget Review Committee

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2014

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE, continued

for *modified allowable growth* (a direct addition to *unspent balance*) whenever possible. District administration will continue to work with the State of Iowa Department of Education to ascertain when requests for *modified allowable growth* are appropriate.

- The Instructional Support Levy (ISL) is used to support a variety of education programs including the following:
 - Full-day, every day kindergarten in every elementary school.
 - ♦ Grades K-3 class-size reduction.
 - Upgrading outdated equipment in classrooms, science and industrial technology labs, print centers, and the transportation department.
 - Restoration of site-based funding that was discontinued in prior years.

For years prior to 2008-09, the District's ISL rate was 5%. On February 3, 2009, the District's voters passed a referendum for a 10% ISL for fiscal years 2009-10 through 2018-19. This increases the District's spending authority by approximately \$2.3 million per year.

- District employees are covered by the Iowa Public Employees Retirement System (IPERS). This system has experienced recent-year increases in its unfunded actuarial liability resulting in a change to both employer and employee contribution rates. Wage levels will likely rise due to inflation and negotiated settlements. The IPERS' rate for the upcoming fiscal years is scheduled to remain unchanged.
- Iowa school district funding faces many challenges in future years. Approximately \$63 million of District revenues (primarily state aid) come from sources that are funded by state income, sales, and use taxes. These state revenues are expected to increase slightly for FY 2014-15 when compared to FY 2013-14 amounts. The state of the economy impacts Iowa general fund revenues. These revenues ultimately support state school aid. The economy of Iowa has slowly been improving which is reflected by the large cash balances at the state level. How that improvement will be reflected in school funding is yet to be determined.
- In December 2014, the District issued \$15,960,000 of School Infrastructure Sales, Services and Use Tax Revenue Bonds for continued renovations at Hempstead High School, the study and architectural drawings on a major remodel/addition project at Dubuque Senior High School, and/or other school infrastructure projects.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Kevin Kelleher, Executive Director of Finance and Business Services, Dubuque Community School District, 2300 Chaney Road, Dubuque, Iowa 52001.

Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Position

Year Ended June 30, 2014

| Total fund | balances of | governmental | tunds | (page 37 |) |
|------------|-------------|--------------|-------|----------|---|
| | | | | | |

\$ 43,175,338

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.

126,589,198

Accrued interest payable on long-term liabilities is not due and payable in the current period and, therefore, is not reported as a liability in the governmental funds.

(190,191)

Long-term liabilities, including bonds payable, compensated absences, and other post-employment benefits payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.

Compensated absences \$ 528,193 Bonds payable \$ 33,033,000 Net OPEB liability \$ 6,635,738

(40,196,931)

Net position of governmental activities (page 35)

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds to the Statement of Activities

Year Ended June 30, 2014

| Net change in fund balances – total governmental funds (page | ental funds (page 39) |
|--|-----------------------|
|--|-----------------------|

\$(13,489,707)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Position and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Capital outlay expenditures exceeded depreciation expense in the current year as follows:

Expenditures for capital assets Depreciation expense

\$ 27,355,727 (5,502,091)

21,853,636

Proceeds from the sale of property and equipment are reported in the governmental funds, however, in the Statement of Activities, it is netted against the book value of the assets being deleted and only the gain portion is recognized.

Book value of assets retired this year.

(314,134)

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year repayments exceeded issues, as

Issued Repaid \$(13,033,000) 4,850,000

(8,183,000)

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

(52,010)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Compensated absences

Notes to Financial Statements

June 30, 2014

Note 1: Summary of Significant Accounting Policies

Dubuque Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Dubuque, Iowa, portions of Dubuque County and Jackson County, Iowa. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Dubuque Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The Dubuque Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

<u>Jointly Governed Organizations</u> – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the City of Dubuque and Dubuque Assessor's Conference Board.

B. Basis of Presentation

<u>Government-wide Financial Statements</u> - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for service.

Notes to Financial Statements

June 30, 2014

Note 1: Summary of Significant Accounting Policies: (continued)

B. Basis of Presentation: (continued)

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference reported as net position. Net position is reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources that are imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

Notes to Financial Statements

June 30, 2014

Note 1: Summary of Significant Accounting Policies: (continued)

B. Basis of Presentation: (continued)

The Debt Service Fund is utilized to account for the payment of interest and principal on the District's general long-term debt.

The Special Revenue Funds account for and reports the proceeds to specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

The District reports the following major proprietary fund:

The District's proprietary fund is the Enterprise, School Nutrition Fund. This fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net position and changes in net position. The District's fiduciary funds include the following:

The Private-Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations, and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of results of operations.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty (60) days after year end.

Notes to Financial Statements

June 30, 2014

Note 1: Summary of Significant Accounting Policies: (continued)

C. Measurement Focus and Basis of Accounting: (continued)

Property tax, intergovernmental revenues (shared revenues, grants, and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds, which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity

The following accounting policies are followed in preparing the financial statements:

<u>Cash, Pooled Investments, and Cash Equivalents</u> – The cash balances of most District funds are pooled and invested. Investments are stated at fair value.

Notes to Financial Statements

June 30, 2014

Note 1: Summary of Significant Accounting Policies: (continued)

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity: (continued)

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

<u>Property Tax Receivable</u> – Property tax in the governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2012, assessed property valuations; is for the tax accrual period July 1, 2013, through June 30, 2014, and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2013.

<u>Due from Other Governments</u> – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants, and reimbursements from other governments.

<u>Inventories</u> – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. The costs of governmental fund and proprietary fund inventories are recorded as expenses when consumed rather than when purchased or received.

<u>Capital Assets</u> – Capital assets, which include property, furniture, equipment, and intangibles are reported in the applicable governmental or business-type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. District machinery and equipment with a cost of more than \$5,000 will be capitalized. The Nutrition Fund equipment is capitalized with a cost of more than \$500.

Notes to Financial Statements

June 30, 2014

Note 1: Summary of Significant Accounting Policies: (continued)

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity: (continued)

Property, furniture, equipment, and intangibles are depreciated using the straight-line method of depreciation over the following estimated useful lives:

| Buildings | 50 years |
|-------------------------------------|------------|
| Improvements to buildings and sites | 20 years |
| Furniture and equipment | 5-12 years |
| Intangibles | 3-5 years |

<u>Salaries and Benefits Payable</u> - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

<u>Deferred Inflows of Resources</u> – Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred inflows of resources in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred inflows of resources consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty (60) days after year end.

Deferred inflows of resources in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

<u>Compensated Absences</u> – District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death, or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements for all employees. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2014. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

<u>Long-Term Liabilities</u> – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Notes to Financial Statements

June 30, 2014

Note 1: Summary of Significant Accounting Policies: (continued)

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity: (continued)

<u>Fund Balance</u> – In the governmental fund financial statements, fund balances are classified as follows:

<u>Nonspendable</u> – Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

<u>Restricted</u> – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors, or state or federal laws, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> – Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

<u>Assigned</u> – Amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the executive director of finance and business services.

<u>Unassigned</u> – All amounts not included in other spendable classifications. The General Fund is the only fund that would report a positive amount in unassigned fund balance.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is to pay the expenditure from restricted fund balance and then from less-restrictive classifications – committed, assigned, and then unassigned fund balances.

<u>Net Position</u> – Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by any outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the District first applies restricted resources.

Net position restricted through enabling legislation include \$1,377,816 for state funding, \$5,771,286 for capital projects, \$3,187,807 for debt service, \$3,043,310 for physical plant and equipment levy, \$8,404,147 for management levy purposes, and \$801,157 for student activities.

Note 1: Summary of Significant Accounting Policies: (continued)

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

F. Subsequent Events

Management has evaluated for subsequent events through January 12, 2015, the date the financial statements were available to be issued. Based on that evaluation, there is one material subsequent event – see Note 11.

Note 2: Cash and Pooled Investments

As of June 30, 2014, the book balance of the District's petty cash totaled \$12,725 and the cash deposit balances totaled \$51,940,417.

As of June 30, 2014, the District had investments as follows:

| Investment | Type | Issue <u>Date</u> | Term | Maturity Date | Amount |
|--|------------------------|----------------------|------------------------|----------------------|--|
| Dubuque Bank & Trust Dubuque Bank & Trust | Certificate of Deposit | 06/05/13 | 9 months 134 months | 06/05/16 07/01/23 | \$ 781,655 1,000,000 \$1,781,655 |

<u>Interest Rate Risk</u>: The District's investment policy limits the investments of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in instruments with maturities longer than 397 days, but the maturities shall be consistent with the needs and use of the District.

<u>Credit Risk</u>: The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high-rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district. The District has no investment policies that would further limit its investment choices.

<u>Concentration of Credit Risk</u>: The District's general investment policy is to apply the prudent-person rule: In making investments, the District will exercise the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use to meet the goals of the investment program.

Notes to Financial Statements

June 30, 2014

Note 2: Cash and Pooled Investments: (continued)

<u>Custodial Credit Risk</u>: For deposits and investments, this is the risk that, in the event of bank failure, the District's deposits may not be returned to it. Chapter 12C of the Code of Iowa requires all District deposits in banks to be entirely covered by federal depository insurance or by the State Sinking Fund. As of June 30, 2014, the District had no deposits or investments subject to custodial credit risk.

The following is a reconciliation of cash and investments as shown on the financial statements:

| Petty cash Cash deposits Investments | \$ 12,785 51,940,417 <u>1,781,655</u> \$53,734,857 |
|---|---|
| Governmental activities Business-type activities Fiduciary funds: | \$52,764,690 792,677 |
| Private Purpose Trust Agency | $ \begin{array}{r} 146,075 \\ \hline 31,415 \\ \hline $53,734,857 \end{array} $ |

Note 3: Inter-fund Transfers

The detail of inter-fund transfers for the year ended June 30, 2014, is as follows:

| Transfer to | Transfer from | Amount |
|---|---|--|
| General Debt Service General Capital Projects | Proprietary Capital Projects Special Revenue: Student Activity Debt Service | \$ 148,336 2,532,078 53,442 1,175,000 |
| Proprietary | Special Revenue: Student Activity | 84 |
| Total | | \$3,908,940 |

Transfers generally move revenue from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

| | | \$13,033,000 | \$3,610,230 | \$16,643,230 |

The District has pledged future statewide sales, services and use tax revenues to repay the \$33,033,000 of bonds issued in May 2012, June 2013, and March 2014.

In May 2012, the District issued \$10,000,000 School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2012 for the purpose of providing funds to construct, remodel, repair and equip athletic facilities at Dalzell Field and Hempstead Field, to improve the sites therefore, and to fund other school infrastructure projects.

In June 2013, the District issued \$10,000,000 School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2013 for the purpose of providing funds for renovations, improvements and additions to Hempstead High School, Kennedy Elementary School, Carver Elementary School, Washington Middle School, renovations to the Jones Campus, and/or other school infrastructure projects as authorized by the electors.

In March 2014, the District issued \$13,033,000 School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2014 for the purpose of providing funds for renovations, improvements, and additions to Hempstead High School and Kennedy Elementary School.

The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2030. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual

Notes to Financial Statements

June 30, 2014

Note 5: Long-term Liabilities: (continued)

principal and interest payments on the bonds are expected to require a large percentage of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the notes is \$39,565,411.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- a) \$2,956,655 of the proceeds from the issuance of the revenue bonds shall be deposited to a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. The balance of the proceeds shall be deposited to the project account.
- b) All proceeds from the statewide sales, services and use tax shall be placed in a revenue account.
- c) Monies in the revenue account shall be disbursed to make deposits into a sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the revenue account after the required transfer to the sinking account may be transferred to the project account to be used for any lawful purpose.

The District complied with all revenue-bond provisions during the year ended June 30, 2014.

During the year ended June 30, 2014, the District made interest payments totaling \$354,007.

Note 6: Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits, which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa 50306-9117.

Plan members are required to contribute 5.95% of their annual covered salary and the District is required to contribute 8.93% of annual covered salary. Contribution requirements are established by state statute. The District's contribution to IPERS for the years ended June 30, 2014, 2013, and 2012 were \$6,225,569, \$5,734,626, and \$5,218,342, respectively, equal to the required contributions for each year.

The District offers voluntary early retirement plans to its certified, administrative, and classified employees. Eligible employees must be at least age fifty-five, must have completed either fifteen or twenty years of service, depending on the employee's classification, and the last five years must be

Notes to Financial Statements

June 30, 2014

Note 6: Pension and Retirement Benefits: (continued)

consecutive or employed for thirty years, of which the last one year shall be consecutive full-time. Employees must complete an application which is required to be approved by the Board of Education.

The early retirement incentive for each eligible employee is up to 50% of the employee's base salary calculated by using different methods depending on the type of employee.

The cost of early retirements expected to be liquidated currently, are recorded as a liability of the special revenue – management levy fund. At June 30, 2014, the District has obligations to nineteen (19) participants with a total accrued liability of \$237,469. These early retirement benefits will be paid July 1, 2014.

Early retirement benefits paid during the year ended June 30, 2014, totaled \$203,014.

Note 7: Other Post-employment Benefits

<u>Plan Description:</u> The Dubuque Community School District sponsors a <u>single-employer</u> health care plan that provides medical and prescription drug benefits to all eligible active and retired employees and their eligible dependents. Retiree coverage begins at IPERS retirement age of at least 55 and continues until the retiree is Medicare eligible at age 65. Eligibility requirements under IPERS are summarized as follows: a) Normal Retirement – earliest of the first day of the month of employee's 65th birthday, age 62 with 20 years of service, or Rule of 88 (age plus years of service of at least 88) with a minimum age of 55, b) Early Retirement – age 55, and c) Disability – 4 years of service. The plan does not issue a stand-alone financial report.

<u>Funding Policy:</u> The health insurance plan contributions on behalf of retirees are based on decisions made by the School Board. Retirees pay a portion of the premium amount. The current funding policy of the District is to pay insurance premiums as they become due.

Annual OPEB Cost and Net OPEB Obligation: The District's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance to the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty (30) years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2014, the amount actuarially contributed to the plan and changes in the District's annual OPEB obligation:

Notes to Financial Statements

June 30, 2014

Note 7: Other Post-employment Benefits: (continued)

| Annual required contribution | \$1,362,563 |
|--|--------------------|
| Interest on net OPEB obligation | 177,757 |
| Adjustment to annual required contribution | (197,508) |
| Annual OPEB cost (expenses) | \$1,342,812 |
| Contributions and payments made | (399,663) |
| Increase in net OPEB obligation | \$ 943,149 |
| | |
| Net OPEB obligation – June 30, 2013 | 5,925,236 |
| Net OPEB obligation – June 30, 2014 | <u>\$6,868,385</u> |

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end-of-year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2014.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2014, are summarized as follows:

| | Annual | Percentage of Annual OPEB | Net OPEB | |
|-------------------|-------------|---------------------------|-------------|--|
| Fiscal Year Ended | OPEB Cost | Cost Contributed | Obligation | |
| June 30, 2010 | \$1,722,935 | 37.4% | \$2,203,908 | |
| June 30, 2011 | \$2,067,203 | 30.5% | \$3,640,609 | |
| June 30, 2012 | \$2,076,822 | 28.6% | \$5,123,789 | |
| June 30, 2013 | \$1,345,484 | 40.4% | \$5,925,236 | |
| June 30, 2014 | \$1,342,812 | 29.8% | \$6,868,385 | |
| | | | | |

<u>Funded Status and Funding Progress:</u> As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2013, through June 30, 2014, the actuarial accrued liability was \$14.401 million, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$14.401 million. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$69,715,216 and the ratio of the UAAL to covered payroll was 20.7%. As of June 30, 2014, there were no trust fund assets.

<u>Actuarial Methods and Assumptions:</u> Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress,

Notes to Financial Statements

June 30, 2014

Note 7: Other Post-employment Benefits: (continued)

presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections and benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2012, actuarial valuation the unit credit actuarial cost method was used. The actuarial assumptions included an annual health care cost trend rate of 4.1% initially, grading to 4.4%. The District's unfunded actuarial liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period at July 1, 2012, was 30 years.

Note 8: Risk Management

Dubuque Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have not been any significant changes in insurance coverage from coverage in the prior year.

Note 9: Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$4,723,656 for the year ended June 30, 2014, and is recorded in the general fund by making a memorandum adjusting entry to the financial statements.

Note 10: Construction Contracts and Other Commitments

On May 13, 2013, the District signed a \$30,343,000 contract for renovations to Hempstead High School. As of June 30, 2014, \$(547,938) of change orders had been subtracted from the project. Funding will come from the sales tax fund. As of June 30, 2014, \$15,448,641 had been paid on the contract.

On April 8, 2013, the District signed a \$5,741,800 contract for the addition and remodel to Kennedy Elementary School. As of June 30, 2014, \$103,231 of change orders had been added to the project.

Notes to Financial Statements

June 30, 2014

Note 10: Construction Contracts and Other Commitments: (continued)

Funding will come from the sales tax fund. As of June 30, 3014, \$5,225,102 had been paid on the contract.

At June 30, 2014, the District had approximately \$1,049,003 in commitments related to unfilled purchase orders for goods and services.

Note 11: Subsequent Events

In November 2014, the Board approved issuing \$15,960,000 of School Infrastructure Sales, Services and Use Tax Revenue Bonds for the purpose of providing funds for renovations to Hempstead High School, the study and architectural drawings on a major remodel/addition project at Dubuque Senior High School, and/or other school infrastructure projects. The issuance occurred in December 2014.

Note 12: New Governmental Accounting Standards Board (GASB) Statements

The District implemented the following statements:

- The GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* in March 2012. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in the determination of the major fund calculations and limiting the use of the term *deferred* in financial statement presentations. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. Further clarification is indicated in Note 1: Summary of Significant Accounting Policies: Assets, Liabilities, Deferred Inflows of Resources and Fund Equity: Deferred Inflows of Resources.
- The GASB issued Statement No. 66, *Technical Corrections* 2012 in March 2012. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. This Statement had no effect on the District in the current year.
- The GASB issued Statement No. 67, Financial Reporting for Pension Plans in June 2012. The objective of this Statement is to improve financial reporting by state and local governmental pension plans. This Statement replaces the requirements of Statements No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution

Notes to Financial Statements

June 30, 2014

Note 12: New Governmental Accounting Standards Board (GASB) Statements: (continued)

Plans, and No. 50, *Pension Disclosures*. This Statement is effective for financial statements for fiscal years beginning after June 15, 2013. This Statement had no effect on the District in the current year.

As of June 30, 2014, the GASB had issued statements not yet implemented by the District. The statements which might impact the District are as follows:

- The GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions in June 2012. This Statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures. Statement No. 67, Financial Reporting for Pension Plans revised existing standards of financial reporting for most pension plans. This Statement and Statement No. 67 establish a definition of a pension plan that reflects the primary activities associated with the pension arrangement determining pensions, accumulating and managing assets dedicated for pensions, and paying benefits to plan members as they come due. This Statement is effective for fiscal years beginning after June 15, 2014. Earlier application is encouraged.
- The GASB issued Statement No. 69, Government Combinations and Disposals of Government Operations. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. This Statement also requires measurements of assets acquired and liabilities assumed generally to be based upon their acquisition values. This Statement also provides guidance for transfers of operations that do not constitute entire legally separate entities and in which no significant consideration is exchanged. This Statement defines the term operations for purposes of determining the applicability of this Statement and requires the use of carrying values to measure the assets and liabilities in a transfer of operations. This Statement provides accounting and financial reporting guidance for disposals of government operations that have been transferred or sold. This Statement requires disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and financial effects of those transactions. This Statement is effective for fiscal years ended December 31, 2014. Earlier application is encouraged.
- The GASB issued Statement No. 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees. The objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees. This Statement requires a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. This liability should be reported until legally released as an obligor. This Statement also requires a government that is required to repay a guarantor for making a payment on a guaranteed obligation or legally assuming the guaranteed obligation to continue to recognize a liability until legally released as an obligor. When released as an obligor, the government should

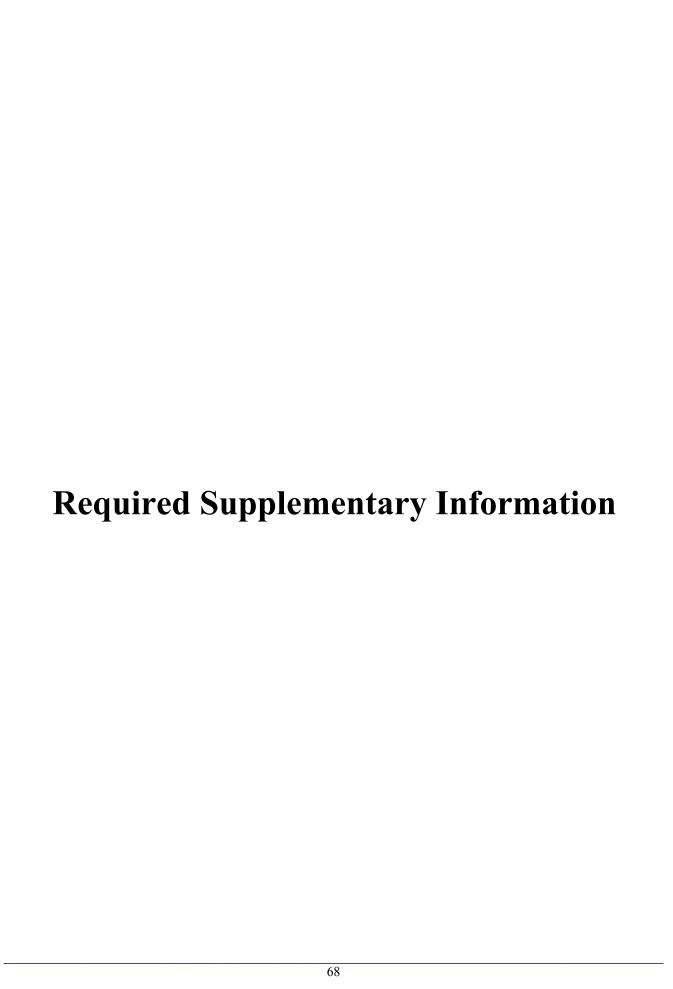

Notes to Financial Statements

June 30, 2014

Note 12: New Governmental Accounting Standards Board (GASB) Statements: (continued)

recognize revenue as a result of being relieved of the obligation. This Statement also provides additional guidance for intra-entity nonexchange financial guarantees involving blended component units by specifying the information required to be disclosed by governments that extend nonexchange financial guarantee as well as new information to be disclosed by governments that receive nonexchange financial guarantees. This Statement is effective for fiscal years ended December 31, 2014. Earlier application is encouraged.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Budgetary Comparison Schedule of Revenues, Expenditures/Expenses, and Changes in Balances – Budget and Actual

See accompanying independent auditor's report.

Notes to Required Supplementary Information – Budgetary Reporting

Year Ended June 30, 2014

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the general fund and each major special revenue fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except private purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs, and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the general fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment, increasing budgeted expenditures by \$5,200,000.

Schedule of Funding Progress for the Retiree Health Benefit Plan

Governmental Funds

Special Revenue Funds

June 30, 2014

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Student Activity Fund Accounts for funds raised by student groups. Under state law the Board retains

responsibility for the Student Activity Fund's ultimate disposition.

Management Fund Accounts for resources accumulated and payments made for property insurance,

fidelity bonds, worker compensation, liability premiums, unemployment

insurance claims and early retirement incentives.

Capital Project Accounts

Capital Projects Fund

Year Ended June 30, 2014

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

Statewide Sales, Services, and Use Tax

Statewide sales and services tax moneys received for school infrastructure purposes shall be utilized solely for school infrastructure needs or school district property tax relief. These activities include the construction, reconstruction, repair, demolition work, purchasing, or remodeling of schoolhouses, stadiums, gyms, field houses, and bus garages and the procurement of schoolhouse construction sites and making of site improvements and those activities for which revenues under Iowa Code Section 298.3 or Section 300.2 may be spent. Additionally, "school infrastructure" includes the payment or retirement of outstanding bonds previously issued for school infrastructure purposes, and the payment or retirement of bonds issued under Iowa Code Section 423E.5.

Physical Plant and Equipment Levy Fund Accounts for resources accumulated and payments made for the purchase and improvement of grounds; purchase of buildings; major repairs, remodeling, reconstructing, improving or expanding the schools or buildings; expenditures for energy conservation; and for equipment purchases. The purchase of transportation vehicles qualifies under the law.

STATISTICAL SECTION

Statistical Section (unaudited)

Narrative Explanations

The statistical section of the District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

| Contents | Tables |
|---|---------------|
| Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time. | 1-9 |
| Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax. | 10-13 |
| Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future. | 14-17 |
| Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place. | 18-19 |
| Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs. | 20-22 |

Notes: The provisions of the Governmental Accounting Standards Board (GASB) Statement No. 54 were adopted in fiscal year 2011. The standard replaces the previous reserved and unreserved fund balance categories with the following five fund balance classifications: nonspendable, restricted, committed, assigned, and unassigned fund balance.

Details of the District's outstanding debt can be found in Note 7 in the Notes to the Financial Statements.

(a) See Table 18 for personal income and population data. These ratios are calculated using that data.

Dubuque Community School District Direct and Overlapping Governmental Activities Debt As of June 30, 2014

(Unaudited)

| Governmental Unit | Debt Outstanding | Estimated Percentage Applicable (a) | Estimated Share of Direct and Overlapping Debt |
|-----------------------------------|---------------------|---|--|
| | | | |
| City of Asbury | \$ 10,462,662 | 100.00% | \$ 10,462,662 |
| City of Dubuque | 210,622,035 | 100.00% | 210,622,035 |
| Dubuque County | 1,237,475 | 77.49% | 958,919 |
| | | | |
| Northeast Iowa Community College | 56,885,000 | 77.57% | 44,125,695 |
| Subtotal, overlapping debt | | | \$266,169,311 |
| District direct debt | | | 33,033,000 |
| | | | *** |
| Total direct and overlapping debt | | | <u>\$299,202,311</u> |

Sources: City of Asbury, City of Dubuque, County Auditor, and Northeast Iowa Community College

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

(a): The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2014

Note 1: Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of Dubuque Community School District for the year ended June 30, 2014. All federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other governmental agencies is included in the schedule. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2: Significant Accounting Policies

Revenue from federal awards is recognized when the District has done everything necessary to establish its right to revenue. For governmental funds, revenue from federal grants is recognized when they become both measurable and available. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education of Dubuque Community School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Dubuque Community School District as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Dubuque Community School District's basic financial statements, and have issued our report thereon dated January 12, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dubuque Community School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dubuque Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Dubuque Community School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dubuque Community School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2014 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To The Board of Education of Dubuque Community School District:

Report on Compliance for Each Major Federal Program

We have audited Dubuque Community School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Dubuque Community School District's major federal programs for the year ended June 30, 2014. Dubuque Community School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Dubuque Community School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Dubuque Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Dubuque Community School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Dubuque Community School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control over Compliance

Management of Dubuque Community School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Dubuque Community School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Dubuque Community School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Schedule of Findings and Questioned Costs

Year Ended June 30, 2014

Part I: Summary of the Independent Auditor's Results

- (a) Unmodified opinions were issued on the financial statements.
- (b) No significant deficiencies and material weaknesses in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any noncompliance which is material to the financial statements.
- (d) No material weaknesses in internal control over the major programs were disclosed by the audit of the financial statements.
- (e) An unmodified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit did not disclose any audit findings which were required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major programs were as follows:
 - 1) CFDA Number 84.010 Title I Grants to Local Educational Agencies
 - 2) CFDA Number 84.027 Special Education Grants to States (IDEA, Part B)
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) Dubuque Community School District did qualify as a low-risk auditee.

Part II: Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCIES:

We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

INSTANCES OF NONCOMPLIANCE:

No matters were noted.

Part III: Findings and Questioned Costs for Federal Awards:

INTERNAL CONTROL DEFICIENCIES:

We did not identify any deficiencies in internal control over major programs that we consider to be material weaknesses.

Schedule of Findings and Questioned Costs

Year Ended June 30, 2014

Part III: Findings and Questioned Costs for Federal Awards: (continued)

INSTANCES OF NONCOMPLIANCE:

No matters were noted.

Part IV: Other Findings Related to Statutory Reporting:

policy were noted.

| IV-A-14 | <u>Certified Budget</u> - Expenditures for the year ended June 30, 2014, did not exceed the amounts budgeted. |
|---------|--|
| IV-B-14 | <u>Questionable Expenditures</u> - No expenditures we believe that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979, were noted. |
| IV-C-14 | <u>Travel Expense</u> - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted. |
| IV-D-14 | <u>Business Transactions</u> - No business transactions between the District and District officials or employees were noted. |
| IV-E-14 | <u>Bond Coverage</u> - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that the coverage is adequate for current operations. |
| IV-F-14 | <u>Board Minutes</u> - We noted no transaction requiring Board approval which had not been approved by the Board. |
| IV-G-14 | <u>Certified Enrollment</u> - 6.50 variances in the basic enrollment data certified by the Iowa Department of Education were noted. |
| | <u>Recommendation</u> - A system should be developed to reconcile the enrollment data collected by the District before submission to the Iowa Department of Education. |
| | Response - We will attempt to develop such a system. |
| IV-H-14 | <u>Supplementary Weighting</u> - No variances regarding supplementary weighting certified to the Iowa Department of Education were noted. |
| IV-I-14 | <u>Deposits and Investments</u> - No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment |

Schedule of Findings and Questioned Costs

Year Ended June 30, 2014

Part IV: Other Findings Related to Statutory Reporting: (continued)

Ending balance

- IV-J-14 <u>Certified Annual Report</u> The Certified Annual Report was certified timely to the Iowa Department of Education.
- IV-K-14 <u>Categorical Funding</u> No instances were noted of categorical funding being used to supplant rather than supplement other funds.
- IV-L-14 <u>Statewide Sales, Services and Use Tax</u> No instances of noncompliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2014, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

| Beginning balance | | \$12,971,708 |
|---|--------------|---------------------|
| Revenues/transfers in: | | |
| Statewide sales, services and use tax | \$ 8,974,360 | |
| Other local revenue | 38,169 | |
| Investment income | 15,736 | |
| Revenue bonds issued | 13,033,000 | |
| Transfers from other funds | 1,175,000 | |
| Refunds of prior year expenditures | <u>7,116</u> | \$23,243,381 |
| Expenditures/transfers out: | | |
| School infrastructure: | | |
| Construction | \$24,227,373 | |
| Equipment | 3,398,210 | |
| Other | 286,142 | |
| Debt service for school infrastructure: | | |
| Transfers to other funds | 2,532,078 | <u>\$30,443,803</u> |

For the year ended June 30, 2014, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

\$ 5,771,286

Schedule of Findings and Questioned Costs

Year Ended June 30, 2014

Part IV: Other Findings Related to Statutory Reporting: (continued)

IV-M-14 Revenue Bonds - The District has established the reserve account required by the revenue bond resolution. In addition, the required monthly transfers from the revenue account to the sinking account were made by the District.
