WELCOME STUDENTS!

The Dubuque Community School District takes great pride in being able to offer students a wide variety of challenging academic courses at Dubuque Senior High School and Stephen Hempstead High School. The Course Guide provides information about graduation requirements, course offerings, college requirements, academic opportunities, and various grading issues.

As students plan for life during and after high school, it is crucial that they select appropriate and challenging courses. Each student should review and discuss the different course offerings with parents/guardians. In addition to parents/guardians, we encourage students to discuss course offerings with their current teachers, counselor, and representatives from post-secondary institutions they may consider attending. Only after careful consideration of each student’s long range educational plan should courses be selected for the 2021-2022 school year. We believe that careful planning will develop world class leaders and citizens of character.

We encourage all students to give thoughtful consideration to their course selections. The results of the course selection process directly impact the courses that will be offered for the 2021-2022 school year and will determine your schedule.

Dr. Dan Johnson  J. Lee Kolker
Principal  Principal
Dubuque Senior High School  Hempstead High School

NOTICE OF NON-DISCRIMINATION

The Dubuque Community School District will not discriminate in its educational activities on the basis of age, ancestry, color, creed, familial status, gender identity, marital status, national origin, physical attributes, physical or mental ability or disability, political belief, political party preference, race, religion, sex, sexual orientation, or socioeconomic status and provides equal access to the Boy Scouts and other designated youth groups.

The Dubuque Community School District offers Career Technical Education (CTE) programs in the following service areas:

· Applied Sciences, Technology, Engineering, and Manufacturing
· Business, Finance, Marketing, and Management
· Health Sciences
· Human Services
· Information Solutions

To be admitted for CTE courses, students must meet the necessary course prerequisites. The district will not discriminate in determining CTE admission and participation. Lack of English language skills will also not be a barrier to admission and participation in the district’s CTE programs.

For the full policies, see SCHOOL BOARD POLICIES #1001 AND #1005.

GRADUATION REQUIREMENTS

To be eligible to receive a diploma from the Dubuque Community School District, a student must complete the 46 credit requirements shown to the right by graduation class year.

Each credit is equivalent to one semester of 90 days for five day/week courses or ½ Carnegie unit.

Prior to graduation, all students must demonstrate competency in cardio-pulmonary resuscitation as required by the State of Iowa.

Ninth, tenth, and eleventh grade students are required to be enrolled in a minimum of six class periods per semester while attending Dubuque Community High Schools. Students enrolled in grade twelve may take fewer than six class periods if they are on schedule to complete minimum graduation requirements.

Ninth, tenth, and eleventh grade students are required to be enrolled in a minimum of six class periods per semester while attending Dubuque Community High Schools. Students enrolled in grade twelve may take fewer than six class periods if they are on schedule to complete minimum graduation requirements.

Students participating in athletics, music, theatre or speech activities must take a minimum of four classes in the semester prior to and during the activity to be eligible for participation.

Credits earned beyond a graduation requirement are automatically counted as elective credits. An option to meet graduation requirements based on the Essential Elements of the Iowa Common Core is available to students with the most significant disabilities.

COURSE SELECTION INFORMATION

HOW TO USE THE COURSE GUIDE

Review the graduation requirements and your graduation progress screen in Infinite Campus (https://sis.dbqschools.org/campus/dubuque.jsp). Consult the list of courses that are offered for your grade. To find out more about any course, read the course descriptions. Courses in the course guide are arranged numerically by the graduation requirement they fulfill. Refer to the Index to find a complete course list arranged by course name. If you have already fulfilled a graduation requirement, the course credit is automatically awarded for elective credit. The course descriptions are written to give you a general idea about the learning goals of each course. Content and delivery methods can vary.

The course codes are listed below each course name. If the course is a year course, you must select both course codes to enroll in both semesters. If the course is one semester long, selecting one course code will enroll you in the complete course. If you have any questions about which course number to select, please ask your counselor. Included with each course description is information about the length of the course. A year course is two semesters long, meets five days each week, and results in two credits towards graduation. A semester course meets for one semester only and results in one credit. Courses that meet fewer than five days each week are awarded credit based on how many days they meet.

NCAA approval is indicated below the course length information. NCAA approval for courses should be taken into consideration by students anticipating participation in intercollegiate athletics at an NCAA Division I or Division II institution in the future.

Each course description explains which students are eligible to request the course and describes any prerequisites that must be met before a student may enroll. Student course requests will be reviewed by counselors and administration. If a student does not meet the enrollment requirements, course requests will be adjusted.
COURSE REQUESTS
Instructions to request your 2021-2022 courses in Infinite Campus will be distributed through the counseling and registrar offices. If you need assistance completing your course requests online, please make an appointment with your school counselor. You will be able to print out a copy of the courses you have requested once you complete your selections online.

COMPETENT PRIVATE INSTRUCTION
Competent Private Instruction (home schooling) students may dually enroll to participate in high school academic classes and activities.

COURSE OFFERINGS

NINTH GRADE (CLASS OF 2025)
Ninth graders must select at least six courses each semester. Study halls will be scheduled for all open periods for ninth graders. Please see course descriptions for graduation requirements and prerequisites.

ENGLISH 1-2
Must choose one of the following year-long courses:
- ENG121/ENG122  English 1-2
- ENG131/ENG132  Honors English 1-2

MATHEMATICS
Must choose one of the following year-long courses:
- MTH161/MTH162  Algebra I
- MTH171/MTH172  Geometry
- MTH181/MTH182  Honors Geometry
- MTH281/MTH282  Honors Algebra II

PHYSICAL SCIENCE
Must choose one of the following semester-long courses:
- SCI081  PS9 Chemistry
- SCI091  Honors PS9 Chemistry

Must choose one of the following semester-long courses:
- SCI082  PS9 Physics
- SCI092  Honors PS9 Physics

LIFE SCIENCE
May choose the following year-long course:
- SCI141/SCI142  Honors Biology

WELLNESS
Must choose one of the following courses:
- PED153  Health Club Fitness
- PED159  Water Fitness & Games (Hempstead Only)
- PED161  Lifetime Activities & Fitness (Senior Only)
- PED162  Active Games & Fitness Class
- PED163  Performance PE
- PED164  Advanced Performance PE
- PED171  Early Bird Wellness

OTHER COURSE OFFERINGS
These courses fulfill a variety of graduation requirements.
- ART113  Art 2D
- ART114  Art 3D
- BUS111  Introduction to Business
- BUS121  Computer Essentials
- BUS503/BUS504  Iowa Jobs for America’s Graduates 9-10 (IJAG 9-10)
- ELL101/ELL102  Newcomer English Language Learner
- ELL201/ELL202  Beginning English Language Learner
- ELL301/ELL302  Intermediate English Language Learner
- ELL401/ELL402  Advanced English Language Learner
- ENG153  Speech
- ENG154  Advanced Speech
- ENG163  Theatre
- ENG164  Advanced Theatre
- ENG359  Journalism
- FCS113  Parenting
- FCS117  Personal and Family Relationships
- FCS123  Foods I - Introduction to Culinary
- FCS124  Culinary I
- HTH101  Health I
- HTH102  Health II
- INT115  Engineering Drafting and Design I
- INT117  Woodworking
- INT123  Manufacturing
- INT223  Small Engine Repair
- INT323  Electricity/Electronics
- INT332  Metals
- INT385  Construction I
- INT387  Construction II
- INT401  Engineering I
- INT402  Engineering II
- INT413  Engineering Drafting and Design II
- INT433  Architectural Design
- ISS121  Multimedia
- ISS131  Computer Science Principles I
- ISS132  Computer Science Principles II
- ISS221  Video Production
- MUS111/MUS112  Band
- MUS121/MUS122  Jazz Band
- MUS131/MUS132  Orchestra
- MUS151/MUS152  Percussion Ensemble

COURSE FEES
Students will be charged fees for materials used beyond those needed to meet the basic course requirements. Optional projects will require students to pay additional fees for materials used.

STUDENT FEE WAIVERS
Students may apply for fee waivers with their school business office.
TENTH GRADE (CLASS OF 2024)

Tenth graders must select at least six courses each semester. Please see course descriptions for graduation requirements and prerequisites.

ENGLISH 3-4
Must choose one of the following year-long courses:
ENG221/ENG222  English 3-4
ENG231/ENG232  Honors English 3-4

MATHEMATICS
Must choose one of the following year-long courses:
MTH161/MTH162  Algebra I
MTH171/MTH172  Geometry
MTH181/MTH182  Honors Geometry
MTH271/MTH272  Algebra II
MTH281/MTH282  Honors Algebra II
MTH331/MTH332  Pre-Calculus with Trigonometry
MTH391/MTH392  Honors Pre-Calculus
MTH521/MTH522  Advanced Placement Statistics

LIFE SCIENCE
Must choose one of the following year-long courses:
SCI131/SCI132  Biology
SCI141/SCI142  Honors Biology

EARTH/SPACE, LIFE & PHYSICAL SCIENCE
May choose one of the following semester-long courses or year-long courses:
SCI151/SCI152  Honors Next Gen Global Science
SCI183  Physics
SCI184  Chemistry
SCI271/SCI272  Anatomy & Physiology
SCI331/SCI332  Honors Physics

WORLD HISTORY
Must choose one of the following year-long courses:
SOC221/SOC222  World History
SOC511/SOC512  Advanced Placement World History

WELLNESS
Must choose one of the following courses:
PED153  Health Club Fitness
PED159  Water Fitness & Games (Hempstead Only)
PED161  Lifetime Activities & Fitness (Senior Only)
PED162  Active Games & Fitness Class
PED163  Performance PE
PED164  Advanced Performance PE
PED171  Early Bird Wellness

#### ELEVENTH GRADE (CLASS OF 2023)

Eleventh graders must select at least six courses each semester. Please see course descriptions for graduation requirements and prerequisites.

### LITERATURE & WRITING

Must choose at least two literature courses and one writing course for graduation:

- **ENG327**: Young Adult Literature
- **ENG329**: Contemporary Literature
- **ENG333**: U.S. Literature
- **ENG335**: British Literature
- **ENG337**: World Literature
- **ENG341**: African American Literature
- **ENG343**: Women’s Literature
- **ENG351/ENG352**: Advanced Placement English Language and Composition
- **ENG353**: Composition
- **ENG357**: Creative Writing
- **ENG358**: Written Communications
- **ENG359**: Journalism

### MATHEMATICS

Must choose one of the following semester-long courses or year-long courses:

- **MTH161/MTH162**: Algebra I
- **MTH171/MTH172**: Geometry
- **MTH221/MTH222**: Mathematical Models with Applications
- **MTH245**: Statistics Through Application
- **MTH271/MTH272**: Algebra II
- **MTH281/MTH282**: Honors Algebra II
- **MTH311/MTH312**: Transition to College Math & Stats
- **MTH331/MTH332**: Pre-Calculus with Trigonometry
- **MTH391/MTH392**: Honors Pre-Calculus
- **MTH511/MTH512**: Advanced Placement Calculus AB
- **MTH521/MTH522**: Advanced Placement Statistics
- **MTH541/MTH542**: Advanced Placement Calculus BC

### EARTH/SPACE SCIENCE

Must choose one of the following year-long courses:

- **SCI161/SCI162**: Next Generation Global Science
- **SCI151/SCI152**: Honors Next Generation Global Science

### EARTH/SPACE, LIFE & PHYSICAL SCIENCE

May choose one of the following semester-long courses or year-long courses:

- **SCI183**: Physics
- **SCI184**: Chemistry
- **SCI271/SCI272**: Anatomy & Physiology
- **SCI345**: Astronomy
- **SCI365**: Genetics
- **SCI367**: Marine Biology
- **SCI531/SCI532**: Advanced Placement Biology
- **SCI561/SCI562**: Advanced Placement Chemistry

### U.S. HISTORY

Must choose one of the following year-long courses:

- **SOC321/SOC322**: U.S. History
- **SOC521/SOC522**: Advanced Placement U.S. History

### WELLNESS

Must choose one of the following courses:

- **PED153**: Health Club Fitness
- **PED159**: Water Fitness & Games (Hempstead Only)
- **PED161**: Lifetime Activities & Fitness (Senior Only)
- **PED162**: Active Games & Fitness Class
- **PED163**: Performance PE
- **PED164**: Advanced Performance PE
- **PED171**: Early Bird Wellness

### OTHER COURSE OFFERINGS

These courses fulfill a variety of graduation requirements.

- **ART113**: Art 2D
- **ART114**: Art 3D
- **ART211/ART212**: Advanced Art 2D
- **ART217/ART218**: Art 2D: Portfolio
- **ART221/ART222**: Advanced Art 3D
- **ART223**: Photography 1
- **ART227/ART228**: Art 3D: Portfolio
- **ART233**: Photography 2: Advanced
- **ART623**: Photography 3: Portfolio
- **BUS111**: Introduction to Business
- **BUS121**: Computer Essentials
- **BUS245**: Financial Literacy
- **BUS311**: Accounting I
- **BUS312**: Accounting II
- **BUS335**: Entrepreneurship
- **BUS441**: Marketing & Sales/Advertising
- **BUS501/BUS502**: Iowa Jobs for America’s Graduates 11-12 (JAG 11-12)
- **CNA101**: Certified Nursing Assistant
- **CNA110**: Health Occupations
- **CNA130**: Dosage Calculations
- **CNA140**: Introduction to Nutrition
- **CNA150**: Medical Terminology
- **ELL101/ELL102**: Newcomer English Language Learner
- **ELL201/ELL202**: Beginning English Language Learner
- **ELL301/ELL302**: Intermediate English Language Learner

CONTINUED >>
Twelfth graders may select only the courses they need to meet graduation requirements. Please see course descriptions for graduation requirements and prerequisites. Students participating in athletics, music, theatre or speech activities must take a minimum of four classes in the semester prior to and during the activity to be eligible for participation. Prior to graduation, all students must demonstrate competency in cardio-pulmonary resuscitation as required by the State of Iowa. Students who took required courses in grades 9-11 must see counselors to complete course selection.

**GOVERNMENT**

Must choose one of the following semester-long courses:

- SOC415 American Government
- SOC513 Advanced Placement American Government

**BEHAVIORAL SCIENCE**

Must choose one of the following semester-long courses or year-long courses:

- SOC425 Economics
- SOC433 Sociology
- SOC443 Psychology
- SOC531/SOC532 Advanced Placement Economics
- SOC541/SOC542 Advanced Placement Psychology

**WELLNESS**

Must choose one of the following courses:

- PED153 Health Club Fitness
- PED159 Water Fitness & Games (Hempstead Only)
- PED161 Lifetime Activities & Fitness (Senior Only)

SCHEDULE AND COURSE REQUEST CHANGES

COURSE AVAILABILITY
Attempts will be made to offer all courses described in this course guide. However, low enrollment courses may be cancelled or may be scheduled only in alternate semesters or years. In those cases, students will be contacted to select alternative courses.

DROPPING/ADDING COURSES
Students who wish to ADD a class must see their counselor within five days from the beginning of the semester. Course availability is a factor in determining additions to the student’s schedule. Students need counselor and/or administrator approval to add a class.

Students in grades 9-11 who DROP one of their six courses will have a grade of “F” recorded on their official transcript.

Students may DROP a seventh class with no grade recorded on the official transcript if they are passing the course and drop by October 1 (first semester) or March 1 (second semester). If students are failing the course when they drop, a grade of “F” will be recorded on their official transcript.

A student who drops a course may be assigned to a supervised area. All students will be assigned to a supervised area during fifth period.

Academic eligibility for activities and sports participation should be considered when making decisions about dropping a course.

If a student’s ability is not consistent with that required by a course and the teacher or counselor recommends a change of course, a student may be withdrawn from the course and assigned to a course at a more appropriate level, with administrator approval.

COURSE REQUEST CHANGES
Staffing and scheduling decisions are made based on student course requests, therefore schedule changes are limited to approved course level changes or when dropping or adding a class as described above. Schedules are not changed to schedule a class in a different period, change elective choice, or change instructor.

GRADING + RECOGNITION

GRADING SYSTEM

In Dubuque Schools, all teachers are working toward deep understanding and implementation of assessment for and of learning. Grading is part of the way we communicate about learning. For grades to be effective, they must be accurate reflections of student achievement. Grades need to be meaningful and communicate useful information. Grades need to be consistent and based on performance standards. Grades need to support learning.

LETTER GRADES

A = Excellent  
B = Very Good  
C = Average  
D = Below average  
F = No Credit

P = Pass  
I = Incomplete  
W = Withdrawal, no credit  
N = Audit, no credit

GRADING SCALE

A 100 - 93  
A- 92 - 90  
B+ 89 - 87  
B 86 - 83  
B- 82 - 80  
C+ 79 - 77  
C 76 - 73  
C- 72 - 70  
D+ 69 - 67  
D 66 - 63  
D- 62 - 60  
F Below 60%

GRADING WEIGHT

The following weights will be used to calculate grade point average:

A = 4.0  
A- = 3.7  
B+ = 3.3  
B = 3.0  
B- = 2.7  
C+ = 2.3  
C = 2.0  
C- = 1.7  
D+ = 1.3  
D = 1.0  
D- = 0.7  
F = 0

Grades in Special Education classes carry a lower weight when it is determined that the general education standards and expectations are not met in the special education class.

STUDENT RECOGNITION

DUBUQUE SENIOR HIGH SCHOOL RENAISSANCE

Renaissance recognition is awarded four times a year and is determined by grades on progress reports and report cards. Wellness Education is included in Renaissance recognition calculations. Senior High School students are eligible for the following Renaissance Cards:

RED: all A's  
BLUE: all A's and B's  
WHITE: all A's, B's and C's

HEMPSTEAD HIGH SCHOOL PRIDE

PRIDE recognition is awarded throughout the year for students who are Prepared, Responsible, Inclusive, Dignified, and Empowered. Hempstead staff acknowledge students with PRIDE passes and a positive message. These passes can be used to win prizes. Students can also be nominated by staff to attend PRIDE recognition breakfasts and luncheons. Special school-wide events are planned throughout the year by Hempstead’s PRIDE committee, a collaborative group of students and staff.

ACADEMIC LETTER / CERTIFICATE (SEMESTER AWARDS)

A student may earn an academic letter by receiving a 3.5 or higher GPA for two (2) consecutive semesters. After receiving a letter, the student receives a certificate after each succeeding block of two semesters in which a 3.5 or higher GPA is maintained through the first seven semesters of attendance.

Final cumulative GPA, class rank, valedictorian and salutatorian designations are determined through eight semesters of attendance.
SPECIAL PROGRAMS

SENIOR YEAR PLUS

Students interested in earning college credits while in high school should contact the school counselor for information, application forms, and enrollment procedures.

The Senior Year Plus Program provides students a way to concurrently access secondary and postsecondary credit through advanced placement, postsecondary enrollment options, and concurrent enrollment.

Courses may supplement, but not supplant, a course provided by the school district. The content of a course provided to a high school student for postsecondary credit shall not consist of substantially the same concepts and skills as the content of a course provided by the district.

Student eligibility for any Senior Year Plus course:

1. The student must attain approval from the school district prior to enrollment in any Senior Year Plus program.
2. The student must have passed appropriate course prerequisites as determined by the school district or the postsecondary institution.
3. The student must meet enrollment requirements of the postsecondary institution.
4. No student may be enrolled as a full-time student in any one postsecondary institution.

There is no minimum or maximum number of credits that can be earned with Senior Year Plus.

Transfer of Senior Year Plus Credit to Colleges

Senior year plus credits transferability vary by institution. Credits transfer to colleges based on the discretion of each institution. Contact your school counselor to receive more information regarding transfer credits. It is the student’s responsibility to contact the admissions office of the intended institution to see how the credit(s) will transfer.

Advanced Placement credits are awarded based on the Advanced Placement exam score and the postsecondary major of the student. Concurrent enrollment and post-secondary enrollment credits are awarded for a passing grade. The transfer of concurrent enrollment and post-secondary enrollment credits vary by institution and major.

ADVANCED PLACEMENT PROGRAM (for grades 9-12)

1. Advanced placement courses must be listed in high school course guides with prerequisite courses established.
2. Every eighth grade student must receive the full high school course guide prior to development of their core curriculum plan.
3. AP courses are available to dually enrolled high school students (competent private instruction).
4. AP courses are available to accredited nonpublic high school students in the school district.
5. AP exams and reduced fees for exams apply to eligible nonpublic students the same as for district students.

The Dubuque Community School District offers the following advanced placement courses:

- ENG351/ENG352 Advanced Placement English Language and Composition
- ENGS41/ENGS42 Advanced Placement English Literature and Composition
- ISS531/ISS532 Advanced Placement Computer Science A
- MTHS11/MTHS12 Advanced Placement Calculus AB
- MTHS21/MTHS22 Advanced Placement Statistics
- MTHS41/MTHS42 Advanced Placement Calculus BC
- SCI531/SCI532 Advanced Placement Biology
- SCI561/SCI562 Advanced Placement Chemistry
- SOC121/SOC122 Advanced Placement Human Geography
- SOC513 Advanced Placement Government
- SOC511/SOC512 Advanced Placement World History
- SOC521/SOC522 Advanced Placement U.S. History
- SOC531/SOC532 Advanced Placement Economics
- SOC541/SOC542 Advanced Placement Psychology

POSTSECONDARY ENROLLMENT OPTIONS PROGRAM
(for grades 11 and 12, or identified in grades 9-10 by gifted and talented criteria)

1. Student Eligibility: Counselors, GT Facilitators, content leaders, principal and/or designated assistant principal may assist in determining student eligibility.
   a. Parents/guardians of eligible students must furnish transportation to and from the eligible postsecondary institution.
   b. A student enrolled in an accredited nonpublic school who meets all eligibility requirements (including residency in Iowa) may apply to take a course, provided that neither the accredited nonpublic school nor the school district offers a comparable course.
   c. Postsecondary enrollment option courses are available to dually enrolled students (competent private instruction).
   d. No student may audit a postsecondary enrollment option course.
   e. Students must notify the high school of their intent to enroll in a PSEO course by March 15 for the following year (for both semesters).
   f. The student must be proficient in reading, math, and science on the Iowa Assessment most recently administered.
   g. Alternative Measures - If a student is not proficient in one or more of the content areas—reading, math, and science—mastery may be demonstrated by an equivalent qualifying performance measure including but not limited to additional administration of the state assessment, portfolios of student work, student performance rubric, or end-of-course assessments.

2. Course Eligibility
   a. Nonsectarian courses
   b. Courses not comparable to courses offered

CONTINUED >>
by the Dubuque public high schools

c. Credit bearing courses that lead to an educational degree

d. Courses in: math, science, social sciences, humanities (English, art, music, language), vocational-technical education

3. High School Credit

a. Approved and completed college courses will be given high school credit. Each semester-length college course equals one semester high school credit.

b. Completed college courses will count toward high school graduation requirements and subject area requirements. Credit will not be calculated in a student’s grade point average or rank in class. Evidence of successful completion of each course and high school units of credit and postsecondary academic credits will be included in the student’s high school transcript.

4. Payment for College Tuition Cost

a. The school and/or district will pay directly to the postsecondary institution the legally limited costs of approved enrollments by eligible students who complete and receive credit for the approved course(s) in which they are enrolled.

b. Students who fail to complete and receive credit for a postsecondary course are responsible for all costs directly related to the course, and will be billed by the district for those costs. If the student is under 18 years of age, the parent or guardian will assume the costs.

CONCURRENT ENROLLMENT PROGRAM (for grades 9-12)

1. Concurrent enrollment courses must be listed in high school course guides and must indicate that the courses generate college credit as well as high school credit.

2. Every eighth grade student must receive the full high school course guide prior to development of their core curriculum plan.

3. Concurrent enrollment courses are available to dually enrolled high school students (competent private instruction).

4. Concurrent enrollment courses are available to accredited nonpublic high school students in the school district as long as they are residents of the DCSD.

5. The school board must annually approve courses to be made available for high school credit. Comparable courses must not already be offered by the school district.

6. No student may audit a concurrent enrollment course.

7. No student may be charged tuition for a concurrent enrollment course.

8. The student must meet one of the DCSD academic requirements: ISASP or ACT or Alternative Measures. See your school counselor for proficiency requirement scores.

a. Alternative Measures - If a student is not proficient in one or more of the content areas on the ISASP or ACT, mastery may be demonstrated by an equivalent qualifying performance measure including but not limited to additional administration of the state assessment, portfolios of student work, student performance rubric, or end-of-course assessments.

b. Career and Technical Education (CTE) Exemption - Students seeking to enroll in a CTE course via concurrent enrollment are exempt from the DCSD academic requirements for Senior Year Plus eligibility.

c. The ACT is offered free to all 11th grade students in the spring of each school year.

Students receive both high school and NICC credit through the completion of a concurrent enrollment course. The course will go on the student’s permanent DCSD transcript, as well as their NICC college transcript, affecting both the student’s high school and college GPA. The student is advised to receive a C or better in concurrent enrollment courses to make them transferable. There are different times for withdraw dates for the high school and the college. Student must follow the NICC deadline for withdraw. A withdrawal would result in a W on their NICC transcript rather than a failing grade. A W does not affect a student’s college GPA but does count towards their college credit completion rate as an incomplete course. Receiving a “W” or “F” on their college transcript could affect a student’s future financial aid for college. This is based on their college credit completion rate.

The Dubuque Community School District offers the following concurrent enrollment courses in cooperation with Northeast Iowa Community College. (Students may work with the school counselor and registrar to enroll individually in other NICC classes through the Placement in College Credit (PICC) agreement.)

### ALTERNATIVE PROGRAMMING

#### HIGH SCHOOL PROGRAMS

These programs provide specialized learning experiences for a small number of 9th and 10th grade students who need additional supports to increase their success at the high school level. They are designed to serve students who have had difficulty transitioning and adjusting to the high school experience and meeting high school expectations. These programs provide: smaller class sizes, opportunity to make up credits, earn additional credits through a specifically designed program, greater behavioral and academic supports.

#### ALTERNATIVE LEARNING CENTER (ALC)

The ALC is designed to provide at-risk students an alternative to the traditional high school setting. The ALC primarily offers course opportunities in the core content areas. Project based learning design principles are utilized to engage students who have struggled to find success at their home school. There are independent learning opportunities available for students to help them recover credits and get back on track with their graduation plans. The ALC program is located at the Alta Vista Campus. Students must be identified as at-risk of dropping out of school. Students must also be in 11th or 12th grade and be referred by the administrative team at the home school.

### SPECIAL EDUCATION SERVICES

The Dubuque Community School District will provide all students with disabilities a free, appropriate, public education in the least restrictive environment as required by the Individuals with Disabilities Education Act (IDEA).

Students entitled to special education supports and services are required to earn the same number of credit hours as non-disabled peers in order to earn a DCSD diploma. An optional path to meet graduation requirements based on the Essential Elements of the Iowa Core Curriculum is available to students with the most significant disabilities. The Individualized Education Plan (IEP) will determine the course of study for each student and will be updated at the annual review.

The identification and placement of students for special education services is determined by state guidelines and procedures for referral and evaluation. It is the duty of the IEP team to ensure delivery of supports and services in the least restrictive environment.

Students are provided a variety of course options in general and special education settings.

- Resource is available for students who require support in order to progress in the general curriculum.
- Courses designated as Practical are available for special education students who are significantly below grade level and have major difficulty functioning in a general education course. These courses are aligned to the Iowa Core Curriculum.
- Life Skills Services and Personal Learning Program courses are available to students as optional paths using Essential Elements of the Iowa Core to meet graduation requirements.
- Specific vocational and transitional programs include: School-to-Work (STW), Transition Alliance Program (TAP), Housing Education and Rehabilitation Training (HEART) and Summit programs.

### LIFE SKILL SERVICES

The goal of Life Skill Services is to provide opportunities which allow each individual to develop, learn, grow and live as independently as possible. Life Skill Services uses an optional path to meet graduation requirements based on the Essential Elements of the Iowa Core. Life Skill Services also offers curriculum areas which are centered around living (daily living concepts), learning (generalizing and transferring of academic knowledge and skills to real world applications), and working (vocational and employment).

### PERSONAL LEARNING PROGRAM

The goal of the Personal Learning Program is to provide opportunities for individuals to learn and strengthen their skills to live and participate in their community as independently as possible. The Personal Learning Program uses an optional path to meet graduation requirements based on the Essential Elements of the Iowa Core. The Personal Learning Program offers:...
curriculum areas which are centered around living (daily living concepts), learning (generalizing and transferring of academic knowledge and skills to real world applications), and working (vocational and employment).

SCHOOL-TO-WORK

School-to-Work (STW) programming is designed to adequately prepare students for the transition from school to adult life. The program offers a series of high school classes to prepare students for the real world. These courses are: Practical Career Skills I, Practical Career Skills II, Practical Transition Planning, Practical Work Exploratory and Practical Work Experience.

TAP

TAP (Transition Alliance Program) provides a variety of vocational-based, individualized services with the optimal goal of employment. The TAP program is a year-round program that follows a student after graduation until they reach age 25. Students must enroll with Iowa Vocational Rehabilitation Services (IVRS) and will receive enhanced transition assessments, job shadowing and career-pathway training for employment. The program is a partnership with IVRS and the Dubuque Community School District.

Eligibility Criteria:
- Age 16 or older
- Receiving special education services
- Meets job description as specified (see Case Manager for job description)
- Completion of application

HEART Bridge Program: eligible students obtain guidance and financial assistance based on their cooperation, hard work, and attendance to help them work toward career goals.

SUMMIT

This program is designed for adult students who have maximized credit options but have unmet transition areas or unmet IEP goals. Students may participate in graduation ceremonies with their class but will not receive a diploma until IEP goals are fulfilled and/or student chooses to exit.

An IEP is developed to meet the student’s post-secondary expectations (PSE) for adult life in the areas of living, learning and working. The main goal of the program is to assist each student in making a smooth transition to his/her adult life.

Eligibility Criteria:
- Have met all Dubuque Community School District graduation criteria
- Continue to be eligible to receive special education services
- Have unmet IEP goals that relate to the student’s post-secondary expectations

HEART PROGRAM

HEART (Housing Education and Rehabilitation Training) is a public/private partnership that provides vocational construction training and education through the complete rehabilitation of blighted properties in Dubuque. HEART seeks to inspire a lifelong love of learning, while teaching self-reliance and instilling personal growth. Students participate in an academic and workplace experience.
CAREER EXPLORATION

CAREER CLUSTERS

Today’s world is made up of endless career possibilities and each year, jobs are even created that don’t currently exist.

That’s why it’s our goal to help you explore career possibilities, align them with your interests and skills, and start down your individual path to success.

As a district, we align our career exploration program with the Future Ready Iowa initiative. That means we start with a broad view of career options and provide you with the tools and resources to go deeper as your interest grows.

At the highest level, that starts with looking at Career Service Areas – an organizational structure used by the Iowa Department of Education to visualize careers.

So, where do you begin? After you identify a general service area or areas you may have interest in, a good place to start is by checking out the Career Clusters on the following pages.

Career clusters are a great tool for organizing career areas and help give you a guide for the things to consider when exploring the cluster.

In each career cluster that follows, you’ll find:
- A brief description of the cluster
- The career pathways and specific occupations within the cluster
- The type of post-secondary education required for a sampling of career categories
- Recommended coursework to take in high school to be prepared for post-secondary education

The following pages are meant to guide student course selection based on career interest and is not a comprehensive list of courses required for graduation from high school or for all 2-year and 4-year college-bound students.

- For comprehensive 4-year course recommendations, review pages 33-35.
- For comprehensive graduation requirements, review page 4.
SERVICE AREA: Agriculture, Food and Natural Resources

AGRICULTURE, FOOD AND NATURAL RESOURCES

Natural resources – including food, plants, animals and the environment – are a critical component of the world around us. According to the federal Bureau of Labor Statistics, this cluster includes nearly all farming, fishing and forestry occupations, as well as many opportunities in life, physical and social sciences. This is a growing field, with many of the occupations in this cluster typically requiring a high school diploma or equivalent, plus some additional on-the-job or specialized training. There are also some occupations that require two-year, four-year or graduate degrees.

PATHWAYS IN THIS CLUSTER...

- Agribusiness
- Animal and Aquaculture Management
- Crops and Plants
- Environmental Services
- Food Production
- Natural Resources
- Power, Structural, and Technical Systems

...LEAD TO OCCUPATIONS AS:

- Agricultural Chemical Dealer
- Agricultural Educator
- Aquaculturalist
- Bank/Loan Officer
- Botanist
- Ecologist
- Environmental Engineer
- Equine Manager
- Farm Manager
- Fish and Game Officer
- Meat Cutter-Meat Grader
- Park Manager
- Plant Pathologist
- Produce Buyer
- Recycling Technician
- Veterinarian
- Wildlife Manager

(the Dubuque Community School District’s career information system)

This page is meant to guide student course selection based on career interest and is not a comprehensive list of courses required for graduation from high school or for all 2-year and 4-year college-bound students.

- For comprehensive 4-year course recommendations, review pages 33-35.
- For comprehensive graduation requirements, review page 4.

CHART YOUR COURSES

The following high school courses can help prepare you for success in this field after high school. Everyone will have a career – not everyone will go to college. Start charting your courses with CAREER TRAINING and proceed to 2-YEAR-DEGREE and 4-YEAR DEGREE based on your post-secondary plans.

CAREER TRAINING

Recommended Courses:

- BUS111 Introduction to Business
- BUS121 Computer Essentials
- BUS441 Marketing & Sales/Advertising
- WBL300 Employability Skills with Job Shadowing
- WBL401 Internship

Suggested Extension Courses:

- INT401 Engineering I
- INT402 Engineering II
- ISS131 Computer Science Principles I

2-YEAR DEGREE

Recommended Courses:

- BUS311 Accounting I
- BUS335 Entrepreneurship
- ENG353 Composition
- MTH271/272 Algebra II
- SCI131/132 Biology

Suggested Extension Courses:

plus recommended CAREER TRAINING courses

SCI184 Chemistry

plus suggested CAREER TRAINING courses

4-YEAR DEGREE +

Recommended Courses:

- MTH331/332 Pre-Calc w/Trig
- SCI184 Chemistry
- SCI271/272 Anatomy/Physiology
- SCI365 Genetics
- SCI387 Marine Biology

plus recommended CAREER TRAINING and 2-YEAR DEGREE courses

Suggested Extension Courses:

SCI141/142 Honors Biology
SCI531/532 AP Biology
SCI561/562 AP Chem

plus suggested CAREER TRAINING and 2-YEAR DEGREE courses
SERVICE AREA: Applied Sciences, Technology, Engineering, and Manufacturing

ARCHITECTURE AND CONSTRUCTION

Do you love working with your hands and bringing a vision to life? A career designing and building of homes, roads and other structures could be for you. According to the federal Bureau of Labor Statistics, the job outlook in architecture and construction is expected to see above-average growth through 2028, with the largest growth in the construction segment. More than half of the jobs in this cluster require a high school diploma or equivalent, plus some additional on-the-job or specialized training. There are also some occupations that require two-year, four-year or graduate degrees.

PATHWAYS IN THIS CLUSTER...
» Construction
» Maintenance and Operations
» Pre-Construction and Design

...LEAD TO OCCUPATIONS AS:
» Carpenter
» Concrete Finisher
» Construction Engineer
» Construction Foreman/Manager
» Drywall Installer
» Electrician
» Electronic Systems Technician
» Equipment and Material Manager
» General Contractor/Builder
» Mason
» Painter
» Plumber
» Project Estimator/Manager
» Roofer
» Sheet Metal Worker
» Superintendent

Service Area: Applied Sciences, Technology, Engineering, and Manufacturing

Manufacturing

Careers in manufacturing are focused on making the products we use every day – including food, cars and household goods. This cluster also includes many installation, maintenance and repair occupations. This is an area that is seeing a need for a skilled workforce, as there is a shortage of workers with the necessary skills to fill needed positions. Careers in this cluster often require a high school diploma or equivalent, plus some additional on-the-job or specialized training, or a two-year degree. Some occupations also require four-year degrees.

Pathways in this Cluster...
» Maintenance, Installation, and Repair
» Production
» Quality Assurance, Inspection, and Testing

...Lead to Occupations As:
» Assembler
» Design Engineer
» Environmental Engineer
» Foundry Worker
» Freight, Stock and Material Mover
» Health and Safety Representative
» Labor Relations Manager
» Logician
» Manufacturing Technician
» Pattern and Model Maker
» Production Manager
» Quality Control Technician
» Safety Engineer
» Tool and Diemaker
» Traffic Manager
» Welder

This page is meant to guide student course selection based on career interest and is not a comprehensive list of courses required for graduation from high school or for all 2-year and 4-year college-bound students.

- For comprehensive 4-year course recommendations, review pages 33-35.
- For comprehensive graduation requirements, review page 4.
EARLY GRADUATION

Early graduates from high school must have completed necessary credits and all required subjects for graduation. Wellness Education is required for the semesters enrolled.

The following are the requirements for early graduation from the Dubuque Community School District:

1. Students may graduate from high school before they complete the traditional four (4) years of schooling, grades 9 through 12, if they complete all the requirements for their high school entering class prior to the time they would normally graduate, and if they and their parents petition the principal for "Early Graduation":
   a. Written approval from the parents is mandatory.
   b. Students must have completed all of the credits required of their class when entering ninth grade.
   c. Students must complete Wellness Education only for the semesters enrolled.

2. Students and their parents should review all the advantages and disadvantages of early graduation. They should consider options available under the Senior Year Plus Program when considering early graduation.

3. Students must have enrollment verification from the Admissions Office of the postsecondary school if the student must begin classes before the end of the first semester at their high school. Upon administrative review of the student's postsecondary schedule, adjustments to the student's high school schedule may be considered.

4. Diplomas are awarded only at the conclusion of the second semester; however, a letter confirming completion of graduation requirements will be provided upon request.

5. In order for early graduates to participate in graduation ceremonies, students must have their signed application on file by the end of the semester preceding the graduation date.

COLLEGE REQUIREMENT INFO

Your counselor is an excellent resource to help you explore your college and scholarship options. It is important to note that having completed all DCSD graduation requirements does not guarantee admission to a student's college of choice. It is ultimately the responsibility of each student and parent to ensure that a student's course selections meet the requirements of colleges and scholarships of interest.

All four-year colleges and universities have designated course requirements for admission. However, you should expect some variations in entrance requirements among the thousands of colleges and universities across the nation. Students and parents should always consult the college/university admission counselors to determine expectations.

Many colleges expect students to have had four years of English, three years of Math (Algebra I, Geometry and Algebra II), three years of Science (many require two years of laboratory experience), three years of Social Studies, and two years of the same World Language. Some colleges with a two-year World Language entrance requirement will allow students to meet an additional college exit requirement if the student successfully completes all four years of the same World Language in high school. The sample chart on page 35 illustrates requirements for acceptance to Iowa's Regent (State) Universities (Iowa State, University of Iowa and University of Northern Iowa). Iowa's Regent (State) Universities also use the Regent Admission Index (RAI) described on page 17 to guide admission: www.regents.iowa.gov/RAI.

In addition to the number of core courses taken, ACT or SAT scores, class rank, and grade point average (GPA) are also taken into consideration for admission to post-secondary institutions. Unofficial ACT scores may be posted on the DCSD transcript; however, it is the responsibility of the student/parent to provide official ACT, SAT, or other standardized testing scores to post-secondary institutions.

NCAA approval for courses should be taken into consideration by students anticipating participation in intercollegiate athletics at an NCAA Division I or Division II institution in the future. Your school counselor can be a resource for this as well; however, it is the responsibility of the student and parents to ensure all requirements are met for NCAA eligibility. You may find it helpful to consult the NCAA website (www.ncaaeligibilitycenter.org).

The decision about your educational path beyond high school is important. Begin early and use all available resources to make a decision that's right for you.
Students from Iowa high schools must have a Regent Admission Index (RAI) score of at least 245 and take the minimum number of required high school courses to qualify for automatic admission to Iowa State University, the University of Northern Iowa and the College of Liberal Arts and Sciences at the University of Iowa.

Students who achieve a score less than 245 will be considered for admission on an individual basis. The index combines three factors that strongly predict success at regent universities: ACT or SAT test score, high school cumulative GPA and the number of completed high school core courses.

Students who are interested in applying to one or more of Iowa's Regent Universities are encouraged to visit the websites of any of these three schools to use the RAI Calculator. This tool allows the student to insert his/her information into the formula and automatically calculates the RAI score.

Regent Admission Index Formula

\[ \text{Regent Admission Index} = (3 \times \text{ACT composite score}) + (30 \times \text{high school GPA}) + (5 \times \text{number of high school courses completed in the core subject areas}) \]
## BUILDING YOUR FUTURE
PREPARING FOR ACADEMIC SUCCESS AT IOWA'S REGENT UNIVERSITIES

<table>
<thead>
<tr>
<th></th>
<th>Minimum Requirements for Admission</th>

<tbody>
<tr>
<td><strong>Iowa State University</strong></td>
<td>4 years emphasizing writing, speaking and reading as well as an understanding and appreciation of literature.</td>
<td>4 years with an emphasis on the analysis and interpretation of literature, composition and speech.</td>
</tr>
<tr>
<td><strong>The University of Iowa</strong></td>
<td>4 years including one year of composition. Also may include one year of speech, communication and/or journalism.</td>
<td>4 years with an emphasis on the communication skills of writing, reading, listening, and the analysis and interpretation of literature. In addition, courses in journalism and media literacy will be valuable. Extracurricular activities in debate, speech contest, newspaper and yearbook will further develop essential competencies.</td>
</tr>
<tr>
<td><strong>University of Northern Iowa</strong></td>
<td>4 years including two years of algebra and one year of geometry for admission to the College of Liberal Arts and Sciences. 4 years including two years of algebra, one year of geometry and higher math (trigonometry, analysis, or calculus) for admission to the College of Engineering.</td>
<td>4 years, one in each year of high school. While advanced courses like calculus and statistics are good, it's more important that you gain a complete understanding of advanced algebra and trigonometry.</td>
</tr>
<tr>
<td><strong>Math</strong></td>
<td>3 years including one year each of algebra, geometry and advanced algebra.</td>
<td>3 years including the equivalent of algebra, geometry and advanced algebra.</td>
</tr>
<tr>
<td><strong>Natural Sciences</strong></td>
<td>3 years including one year each from any two of the following: biology, chemistry or physics.</td>
<td>3 years including courses in general science, biology, chemistry, earth science and/or physics. Laboratory experience is highly recommended.</td>
</tr>
<tr>
<td><strong>Social Studies</strong></td>
<td>2 years for admission to the Colleges of Agriculture, Business, Design, Engineering, or Human Sciences. 2 years for admission to the College of Liberal Arts and Sciences.</td>
<td>3 years including courses in anthropology, economics, geography, government, history, psychology and/or sociology.</td>
</tr>
<tr>
<td><strong>Foreign Language</strong></td>
<td>2 years of a single foreign language for admission to the College of Liberal Arts and Sciences and the College of Engineering. Foreign language is not required for admission to the Colleges of Agriculture, Business, Design, or Human Sciences.</td>
<td>3 years are essential, but four are better. Take at least one year of U.S. history and one year of world history. Additional courses in anthropology, economics, political science, psychology and sociology provide an important understanding of our political, social and economic institutions.</td>
</tr>
<tr>
<td><strong>Other Courses</strong></td>
<td>Specific elective courses are not required for admission.</td>
<td>4 years of a single foreign language. By taking foreign language during all four years of high school, you’ll go beyond the basic skills and begin to use the language and reinforce your fluency.</td>
</tr>
</tbody>
</table>

**Explore!** Courses in fine arts, performing arts, computers or technology will help round out your high school experience. Your future study or career may focus on one of those areas. Follow your interests, talents, and the strengths of your school. Remember to choose courses with high academic standards.

ENGLISH 1-2

CREDITS REQUIRED FOR GRADUATION
2 credits are required for graduation from the Dubuque Community School District. Credits earned beyond the requirement are automatically counted as Elective credits.

This course emphasizes a continuation of the communication skills and strands which are developed in 7th and 8th grade Language Arts. Thematic units covering a variety of genres include non-fiction, short story, novel, poetry, mythology, and an introduction to Shakespeare through Romeo and Juliet. Additionally, reading, writing, listening, and speaking skills are taught in conjunction with each unit of literature. Students will recognize and define multiple literary terms. Students will work on grammar, vocabulary, sentence construction, and writing through expository, personal, literary analysis, comparison and contrast, and research writing.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-10th grade-band expectations of the Iowa Core Reading, Writing, Listening, and Language Strands.

ENG121 (Sem 1), ENG122 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: freshmen
NCAA: approved
PREREQUISITE: none

HONORS ENGLISH 1-2

This course emphasizes a continuation of the communication skills and strands which are developed in 7th and 8th grade Language Arts. Students are challenged instructionally, move at a faster pace, read additional novels, and have more homework in comparison to English 1-2. Students are provided enrichment activities and assignments in this course. Thematic units covering a variety of genres include non-fiction, short story, novel, poetry, mythology, and an introduction to Shakespeare through Romeo and Juliet. Additionally, reading, writing, listening, and speaking skills are taught in conjunction with each genre of literature. Students will recognize and define multiple literary terms. Students will work on grammar, vocabulary, sentence construction, and writing through expository, personal, literary analysis, comparison and contrast, and research writing.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-10th grade-band expectations of the Iowa Core Reading, Writing, Listening, and Language Strands.

ENG131 (Sem 1), ENG132 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: freshmen
NCAA: approved
PREREQUISITE: placement based on 8th grade assessment and instructor recommendation

PRACTICAL ENGLISH 1-2

This course is for students who need additional academic assistance as determined by their Individual Education Plan (IEP). The instruction will develop, reinforce and refine specific reading objectives in comprehension and inferential thinking through the use of reading strategies. Units covered include short story, novel, poetry, mythology and drama. Students will also learn to use a variety of sentence types, write organized and concise paragraphs, and be introduced to five-paragraph writing.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-10th grade-band expectations of the Iowa Core Reading, Writing, Listening, Speaking, and Language Strands.

XSM111 (Sem 1), XSM112 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: freshmen
PREREQUISITE: placement based on assessment and instructor recommendation

ESSENTIAL ELEMENTS OF ENGLISH

The instruction will develop, reinforce and refine specific reading objectives in comprehension, inferential thinking, engage in expository, and comparison/contrast. Units covered include: central idea of text, selecting details, determine logical connections, and determine meaning of words. Real world applications: current events through local resources, career information, cleaning supplies, clothing care, 1st aide and safety procedures, recipes, and job site safety information.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12th grade-band expectations of the Iowa Core and the Essential Elements.
ENGLISH 3-4

This course uses various literary genres, including the short story, novel, drama, poetry, and an emphasis of non-fiction to meet the Iowa Core Standards. The introduction and investigation of societal issues helps to drive each unit. Reading, writing, speaking, technology, and listening skills will be incorporated into each unit. Students will read and analyze literature to clarify their own beliefs and values. In addition to literary study, students engage in argumentative, narrative, expository, creative and personal writing, as well as research and literary analysis. Class discussion is an integral part of class. Vocabulary, grammar and usage, and other composition skills will be emphasized as a continuation of English 1-2.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-10th grade-band expectations of the Iowa Core Reading, Writing, Listening, Speaking, and Language Strands.

### YOUNG ADULT LITERATURE

**ENG327**

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** junior and seniors
- **NCAA:** approved
- **PREREQUISITE:** none

Young adult literature is written for young adults, literature relevant to its readers. Students will be introduced to the multiple genres of young adult literature that will allow them to see themselves and others their age reflected in the readings. The class will offer opportunities to foster understanding, empathy and compassion for others who are unlike the reader. The selections will include such themes as Search for Identity, Understanding of Others and Teens Around the World.

Alignment to the Iowa Core Curriculum: *Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Reading, and Speaking and Listening Strands.*

- **NCAA:** approved
- **PREREQUISITE:** none

This course is designed for students interested in exploring mostly American literature based on contemporary issues, themes and artists. Fiction, non-fiction, plays, film and poetry (including contemporary music lyrics) will be studied in depth. Students will analyze, discuss and find understanding of the challenging social issues of our time. Thematic units may include: responsibility, choices and consequences, prejudice, crime, teen-adult relationships, and more. Students will use their skills as a reader to develop empathy for those unlike themselves.

Alignment to the Iowa Core Curriculum: *Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Reading, and Speaking and Listening Strands.*

### U.S. LITERATURE

**ENG333**

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** juniors and seniors
- **NCAA:** approved
- **PREREQUISITE:** none

This course is designed to provide students with a background of many influential American writers. Students will read plays, novels, short stories, and poetry by American authors spanning the birth of our nation to modern day America. Students will study Romanticism, Realism, Modernism, Post-Modernism, as well as contemporary works. Various writing assignments will accompany the works studied. This course is recommended for students intending to pursue a four-year college degree.

Alignment to the Iowa Core Curriculum: *Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Reading, and Speaking and Listening Strands.*

### BRITISH LITERATURE

**ENG335**

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** juniors and seniors
- **NCAA:** approved
- **PREREQUISITE:** none

British Literature incorporates both a thematic and chronological approach as it surveys the literature of Great Britain and its colonies. Readings will span the Anglo-Saxons to the early 20th century to focus on the evolution of British literature. Readings include Beowulf, The Canterbury Tales, a Shakespeare play, Pride and Prejudice, Frankenstein, Brave New World and numerous other pieces including short stories and poetry. This course is recommended for students intending to pursue a four-year college degree.

Alignment to the Iowa Core Curriculum: *Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Reading, and Speaking and Listening Strands.*

### WORLD LITERATURE

**ENG337**

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** juniors and seniors
- **NCAA:** approved
- **PREREQUISITE:** none

This course provides a survey of literature in translation (fiction, non-fiction, poetry, and drama) from Ancient Greece, the Hebrew Old Testament, Europe, Asia, India, Africa, and South America. As students relate this literature to a specific social and historical context, they will become familiar with the works of some of the greatest writers of the world, including Dante, Chaucer, Shakespeare, Wordsworth, Maupassant, Tolstoy, and Achebe. This course is recommended for students intending to pursue a four-year college degree.

Alignment to the Iowa Core Curriculum: *Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Reading, and Speaking and Listening Strands.*
AP ENGLISH LANGUAGE & COMPOSITION
ENG351 (Sem 1), ENG352 (Sem 2)
DURATION: year course
CREDITS: 2 (1 Literature, 1 Writing)
OPEN TO: juniors and seniors
NCAA: approved
PREREQUISITE: Honors English 3-4 or instructor recommendation

Advanced Placement English Language and Composition will engage students in becoming skilled readers of rich prose written in a variety of periods, disciplines, and rhetorical contexts in a year-long class. Through application, students will become skilled writers who compose for a variety of purposes, thus satisfying the composition graduation requirement. Ultimately, this course will help the student prepare to take the AP English Language and Composition Exam and college reading and writing classes. Summer reading and writing will be required of students who enroll in AP English Literature and Composition.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Reading, Writing, Listening and Speaking, and Language Strands.

COMMENT: ENG351 is one Literature graduation credit; ENG352 is one Writing graduation credit.

AP ENGLISH LITERATURE & COMPOSITION
ENG541 (Sem 1), ENG542 (Sem 2)
DURATION: year course
CREDITS: 2
OPEN TO: seniors
NCAA: approved
PREREQUISITE: instructor and / or GT Facilitator recommendation

Advanced Placement English Literature and Composition engages students in the careful reading and critical analysis of imaginative literature. Through the close reading of selected texts, students deepen their understanding of the ways writers use language to provide both meaning and pleasure for the readers. As they read, students consider a work’s structure, style, and themes as well as such smaller-scale elements as the use of figurative language, imagery, symbolism, and tone. The course provides students with the skills in analytical reading and expository writing necessary to prepare them for college-level reading and writing. Summer reading and writing will be required of students who enroll in AP English Literature and Composition.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Reading, Writing, Listening and Speaking, and Language Strands.
ESSENTIAL ELEMENTS OF ENGLISH

XSM721 (Sem 1), XSM722 (Sem 2)

INTRODUCTION TO LITERATURE

ENG642 (Sem 2)

AP ENGLISH LANGUAGE & COMPOSITION

ENG351 (Sem 1), ENG352 (Sem 2)

PRACTICAL READING

XSM811 (Sem 1), XSM812 (Sem 2)

WRITING

CREDITS REQUIRED FOR GRADUATION

1 credit is required for graduation from the Dubuque Community School District. Credits earned beyond the requirement are automatically counted as Elective credits.

INTRODUCTION TO LITERATURE

ENG642 (Sem 2)

DURATION: semester course
CREDITS: 1
OPEN TO: juniors and seniors (preference given to seniors)
PREREQUISITE: placement based on assessment and instructor recommendation
RECOMMEND: successful completion of high school Composition and Literature

INTRODUCTION TO LITERATURE focuses on the art of fiction, drama, and poetry. Students closely examine literature that challenges and enlightens. Engagement with these works stimulate independent, analytical thinking that is shared through writing and discussion.

- Students will effectively analyze literature from various genres.
- Students will demonstrate an understanding of literary genres and their many forms.
- Students will explain literature in its historical and cultural context.
- Students will analyze fiction through the elements of character, setting, plot, point of view, symbols, and theme.
- Students will analyze poetry through the poetic devices of form, sound, imagery, symbolism, tone, and theme.
- Students will compare and contrast literature within and across genres.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 3 college credits at NICC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

The instruction will develop, reinforce and refine specific reading objectives in comprehension, inferential thinking, engage in expository, and comparison/contrast. Units covered include: central idea of text, selecting details, determine logical connections, and determine meaning of words. Real world applications: current events through local resources, career information, cleaning supplies, clothing care, 1st aide and safety procedures, recipes, and job site safety information.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12th grade-band expectations of the Iowa Core and the Essential Elements.

This course is for students who require special education services as indicated by their Individual Education Plan (IEP). This courses addresses strategies used to improve student decoding skills, vocabulary knowledge, and comprehension skills as determined by the individual IEP. Reading skills in content areas are also emphasized.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built primarily on the 9-10th grade-band expectations of the Iowa Core Reading, and Speaking and Listening Strands.

COMMENT: XSM811 is one Literature graduation credit; XSM812 is one Elective graduation credit.

# COMPOSITION

**ENG353**  
**Duration:** semester course  
**Credits:** 1  
**Open To:** juniors and seniors  
**NCAA:** approved  
**Prerequisite:** none  

In this course, students will build on the writing skills developed in English 1-2 and English 3-4, developing strong, scholarly essays over a variety of genres and writing styles for academic purposes. Major emphasis is placed on the writing process of prewriting, drafting, evaluating/workshopping, revising, proofreading, and assessing. The course will cover a variety of structured writing experiences including literary analysis, expository, research and argumentation. Students will practice research techniques including MLA documentation of print and electronic sources culminating in a research project. The class will include review of grammar, usage and mechanics. Independent reading will be required, focusing on analysis and evaluation.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are founded primarily on the 11-12th grade-band expectations of the Iowa Core Writing and Language Strands.

# CREATIVE WRITING

**ENG357**  
**Duration:** semester course  
**Credits:** 1  
**Open To:** juniors and seniors  
**NCAA:** approved  
**Prerequisite:** successful completion of Composition  

This course is for students who have mastered basic composition skills and wish to continue to stretch and challenge themselves as writers through the art of creative writing. Students will be writing original poetry, fiction and creative nonfiction. Students will read the work of professional writers and apply the principles of imaginative writing to their own work. Students will share their work with their peers and give and receive feedback, which is then used to improve writing. Students will also conduct research, which will be used to enhance their writing and create a multi genre research portfolio. Work may be polished and submitted for real-life publications.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Writing and Language Strands.

# WRITTEN COMMUNICATIONS

**ENG358**  
**Duration:** semester course  
**Credits:** 1  
**Open To:** juniors and seniors  
**NCAA:** approved  
**Prerequisite:** none  

In this course, students will sharpen their written, oral, and auditory communication skills with enrichment in grammar, vocabulary and the writing process. They will also develop written communication skills through a personal essay, article reviews, a letter to the editor, a research project, and a creative technology presentation. Students will become more confident writers by applying grammatical and stylistic concepts to effective written communications. Units include: Express and Reflect, Inform and Explain, Evaluate and Judge, Inquire and Explore, Analyze and Interpret, and Take a Stand/Propose a Solution.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Writing and Language Strands.

# JOURNALISM

**ENG359**  
**Duration:** semester course  
**Credits:** 1  
**Open To:** all students  
**NCAA:** approved  
**Prerequisite:** none  

Journalism is designed for strong writers who are interested in writing for publications. Student journalists will be expected to enterprise original story ideas and write news, feature, editorial, and sports stories. The journalistic techniques of editing, interviewing, layout, design, and research will also be covered. Students will learn about press law and ethics and are expected to adhere to these standards. Because of the interviewing requirements, it is necessary that students are outgoing and confident in their interpersonal skills.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Writing and Language Strands.

# AP ENGLISH LITERATURE & COMPOSITION

**ENG541 (Sem 1), ENG542 (Sem 2)**  
**Duration:** year course  
**Credits:** 2  
**Open To:** seniors  
**NCAA:** approved  
**Prerequisite:** instructor and / or GT Facilitator recommendation

Advanced Placement English Literature and Composition engages students in the careful reading and critical analysis of imaginative literature. Through the close reading of selected texts, students deepen their understanding of the ways writers use language to provide both meaning and pleasure for the readers. As they read, students consider a work’s structure, style, and themes as well as such smaller-scale elements as the use of figurative language, imagery, symbolism, and tone. The course provides students with the skills in analytical reading and expository writing necessary to prepare them for college-level reading and writing. Summer reading and writing will be required of students who enroll in AP English Literature and Composition.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations of the Iowa Core Reading, and Speaking and Listening Strands.
**ESSENTIAL ELEMENTS OF ENGLISH**

**XSM721 (Sem 1), XSM722 (Sem 2)**

**DURATION:** year course  
**CREDITS:** 2  
**OPEN TO:** juniors and seniors  
**PREREQUISITE:** placement based on assessment and instructor recommendation  
**RECOMMEND:** successful completion of high school Composition and Literature

The instruction will develop, reinforce and refine specific reading objectives in comprehension, inferential thinking, engage in expository, and comparison/contrast. Units covered include: central idea of text, selecting details, determine logical connections, and determine meaning of words. Real world applications: current events through local resources, career information, cleaning supplies, clothing care, 1st aide and safety procedures, recipes, and job site safety information.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12th grade-band expectations of the Iowa Core and the Essential Elements.

---

**COMPOSITION I NICC CONCURRENT COLLEGE CLASS (ENG:105)**

**ENG641 (Sem 1)**

**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** juniors and seniors  
**PREREQUISITE:** must have one of the following: ACT English score of 18, Accuplacer/Writeplacer score of 5 or SAT score of 430 for Writing  
**RECOMMEND:** successful completion of high school Composition and Literature

This is a writing course that prepares the student for the types of communication and thought essential to academic and working-world success. The course focuses on writing as a process and is intended to help students identify and refine their own personal writing. Students will:

- Write as a means of discovering and clarifying ideas.
- Write in many forms—such as essays, reports, articles, and letters.
- Implement a process approach to writing of generating ideas, drafting, revising, and editing.
- Use appropriate writing strategies for varying purposes and audiences.
- Develop an authentic, personal writing voice and tone appropriate for varying purposes and audiences.
- Organize essays which present logical progression and support through introduction, body, and conclusion.
- Polish individual writing style by using conventions of standard written English.
- Revise writings based on peer, instructor, and sometimes, NICC Writing Center responses.
- Reflect on their own writing in order to make necessary revisions and improvements in content, style, and editing.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 3 college credits at NICC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

---

**ADVANCED SPEECH**

**ENG154**

**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** Speech and instructor recommendation

Students will be given the opportunity to advance their training in communication arts. Students will actively participate in units such as special occasion speaking, debate (traditional and/or Lincoln/Douglas), oral interpretation of literature, contest speaking events, mass media, and persuasive speaking. Students will research, organize, outline, write, and present speeches. Students will learn how to apply technology to communication situations.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built primarily of the 9-10th grade-band expectations of the Iowa Core Reading, Writing, and Listening and Speaking Strands.
**MATHEMATICS**

**CREDITS REQUIRED FOR GRADUATION**

6 credits are required for graduation from the Dubuque Community School District. Credits earned beyond the requirement are automatically counted as Elective credits.

---

**ALGEBRA I**

MTH161 (Sem 1), MTH162 (Sem 2)

- **DURATION:** year course
- **CREDITS:** 2
- **OPEN TO:** all students
- **NCAA:** approved
- **PREREQUISITE:** instructor recommendation

Equations and inequalities will be interpreted by using tables and graphs and will be solved through algebraic transformations. Students will experience extensive work with linear equations, including systems of equations. Exponential and quadratic functions will be introduced. By being asked to apply algebraic methods to solve a variety of real world and mathematical problems, students will grow in their ability to use abstraction and symbolism. Graphing calculators will be used throughout the course and are necessary for homework completion. Successful completion leads to Geometry.

Alignment to the Iowa Core Curriculum: Relationships between quantities and reasoning with equations, linear and exponential relationships, descriptive statistics, expressions and equations, and quadratic functions and modeling.

**GEOMETRY**

MTH171 (Sem 1), MTH172 (Sem 2)

- **DURATION:** year course
- **CREDITS:** 2
- **OPEN TO:** all students
- **NCAA:** approved
- **PREREQUISITE:** Algebra I

Geometry usually follows Algebra I and precedes Algebra II. In Geometry, many of the concepts from Algebra I are employed to present, develop and use concepts involving figures in a plane (such as triangles, squares and other polygons), in space (such as cubes, rectangular solids and prisms), and other solid figures. The entire course is a development of a logical approach to reasoning and recognition of patterns that can be applied to daily life. Successful completion leads to Algebra II.

Alignment to the Iowa Core Curriculum: Congruence, proof, and constructions; similarity, proof, and trigonometry; extending to three dimensions; circles with and without coordinates; and applications of probability.

---

**PUBLIC SPEAKING**

ENG643

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** juniors and seniors (preference given to seniors)
- **PREREQUISITE:** none
- **RECOMMEND:** successful completion of high school Speech

An introductory course designed to help students develop skills as speakers and critical listeners, increase understanding of the concepts and principles of verbal communication, and become more effective communicators in formal and informal speaking situations.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 3 college credits at NICC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits. This course will be offered at Hempstead High School during first hour and open to students at both high schools.

---

**NICC CONCURRENT COLLEGE CLASS (SPC:112)**

ENG643

- **DURATION:** semester course

By being asked to apply algebraic methods to solve a variety of real world and mathematical problems, students will grow in their ability to use abstraction and symbolism. Graphing calculators will be used throughout the course and are necessary for homework completion. Successful completion leads to Geometry.

**Alignment to the Iowa Core Curriculum: Relationships between quantities and reasoning with equations, linear and exponential relationships, descriptive statistics, expressions and equations, and quadratic functions and modeling.**

**MTH171 (Sem 1), MTH172 (Sem 2)**

- **DURATION:** year course
- **CREDITS:** 2
- **OPEN TO:** all students
- **NCAA:** approved
- **PREREQUISITE:** Algebra I

Geometry usually follows Algebra I and precedes Algebra II. In Geometry, many of the concepts from Algebra I are employed to present, develop and use concepts involving figures in a plane (such as triangles, squares and other polygons), in space (such as cubes, rectangular solids and prisms), and other solid figures. The entire course is a development of a logical approach to reasoning and recognition of patterns that can be applied to daily life. Successful completion leads to Algebra II.

**Alignment to the Iowa Core Curriculum: Congruence, proof, and constructions; similarity, proof, and trigonometry; extending to three dimensions; circles with and without coordinates; and applications of probability.**
### HONORS GEOMETRY

**MTH181 (Sem 1), MTH182 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open to:** freshmen and sophomores
- **NCAA:** approved
- **Prerequisite:** minimum grade of B- in 8th grade Algebra or instructor / GT facilitator recommendation

Honors Geometry is intended primarily for students who have done well in Algebra I and enjoy the challenge of mathematics. It is designed to meet the needs of students desiring a strong mathematical background. Students will explore the topics of Geometry (MTH171/MTH172) at a greater depth, with some additional topics addressed. Successful completion leads to Honors Algebra II.

**Alignment to the Iowa Core Curriculum:** Congruence, proof, and constructions; similarity, proof, and trigonometry; extending to three dimensions; circles with and without coordinates; and applications of probability.

### MATHEMATICAL MODELS WITH APPLICATIONS

**MTH221 (Sem 1), MTH222 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open to:** sophomores, juniors, seniors
- **NCAA:** approved
- **Prerequisite:** Geometry

Mathematical Models with Applications has been designed for students who have completed Algebra I and Geometry and would like additional math preparation before Algebra II. This course helps solidify students’ understanding of Algebra and Geometry concepts and introduces some Algebra II topics. Students model real-world applications with functions to gain a deeper grasp of the important concepts necessary for success in Algebra II.

**Alignment to the Iowa Core Curriculum:** Polynomial, rational and radical relationships; Trigonometric functions; Modeling with Functions; and Inferences and conclusions from data.

**Comment:** This course may not fulfill admission requirement for four-year institutions.

### STATISTICS THROUGH APPLICATION

**MTH245**

- **Duration:** semester course
- **Credits:** 1
- **Open to:** sophomores, juniors, seniors
- **NCAA:** approved
- **Prerequisite:** Geometry

This course teaches students how to use the four steps of the statistical process in the context of sports: ask questions, collect data, analyze data, and make conclusions. Students will learn how to collect appropriate data, how to analyze data, and how to make reasonable conclusions. Although the context of the examples and exercises will be sports related, the primary focus of the class will be for students to learn the basic principles of statistical reasoning.

**Alignment to the Iowa Core Curriculum:** Statistics & Probability domain.

### ALGEBRA II

**MTH271 (Sem 1), MTH272 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open to:** sophomores, juniors, seniors
- **NCAA:** approved
- **Prerequisite:** minimum grade of C- in Algebra I and Geometry or instructor recommendation

Algebra II is a two-semester, two-credit course. Topics include graphing of equations and inequalities, systems, polynomials, quadratic systems, logarithms, trigonometry, and the application of these concepts to real-life. This course is needed to meet the entry requirements for many colleges. It is a prerequisite for many advanced math courses. A graphing calculator is necessary. Successful completion leads to Pre-calculus with Trigonometry or Transition to College Mathematics & Statistics.

**Alignment to the Iowa Core Curriculum:** Polynomial, rational and radical relationships; trigonometric functions; modeling with functions; and inferences and conclusions from data.

### HONORS ALGEBRA II

**MTH281 (Sem 1), MTH282 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open to:** all students
- **NCAA:** approved
- **Prerequisite:** Honors Geometry or Geometry with instructor recommendation

Honors Algebra II is a two-semester, two-credit course with topics similar to Algebra II. This course will cover topics in greater depth than Algebra II (MTH271) and with less time spent in review. It meets college entry requirements and successful completion leads to Pre-Calculus with Trigonometry. A graphing calculator is necessary.

**Alignment to the Iowa Core Curriculum:** Polynomial, rational and radical relationships; trigonometric functions; modeling with functions; and inferences and conclusions from data.
## Transition to College Math & Stats

## Advanced Placement Calculus BC

**MTH541 (Sem 1), MTH542 (Sem 2)**  
**Duration:** year course  
**Credits:** 2  
**Open To:** juniors and seniors  
**NCAA:** approved  
**Prerequisite:** Honors Pre-Calculus or Pre-Calculus instructor recommendation; completion of, or simultaneously enrolled in, Physics or Honors Physics  

AP Calculus BC is the most advanced course in the mathematics curriculum offered in high school. It is a full-year course in the calculus of functions of a single variable and is comparable to calculus courses in colleges and universities. Topics include all Calculus AB topics plus additional topics such as series and parametric, polar, and vector calculus. This course will prepare students to take the Advanced Placement Exam in May. Students may earn college credit depending on the results of the examination. The content is designed to qualify the student for placement and credit in a course that is one course beyond that granted for Calculus AB. A graphing calculator is necessary.  

Alignment to the Iowa Core Curriculum: **Understands and applies concepts of algebra and trigonometric relationships.**

### Practical Math 1

**XSM121 (Sem 1), XSM122 (Sem 2)**  
**Duration:** year course  
**Credits:** 2  
**Open To:** all students  
**Prerequisite:** placement based on assessment and instructor recommendation  

This course is designed to teach the fundamental concepts of mathematics along with algebra skills. Topics covered may include number theory, decimals and fractions, rational numbers, ratios, proportions, exponents, square roots, statistics, and probability. The class will focus on math skills and practical applications as these skills relate to daily living situations.  

Alignment to the Iowa Core Curriculum: **Understands and applies concepts of numbers and quantity, statistics and probability, and geometric properties.**

### Practical Math 2

**XSM221 (Sem 1), XSM222 (Sem 2)**  
**Duration:** year course  
**Credits:** 2  
**Open To:** all students  
**Prerequisite:** placement based on assessment and instructor recommendation  

This course is designed to teach the fundamentals of algebra. Topics covered may be linear equations with one variable, exponents and polynomials, data, statistics, and probability, irrational numbers, and radical expressions. The class will focus on math skills and practical applications as these skills relate to daily living situations.  

Alignment to the Iowa Core Curriculum: **Understands and applies concepts of algebra, geometry, and statistics and probability.**

### Practical Math 3

**XSM321 (Sem 1), XSM322 (Sem 2)**  
**Duration:** year course  
**Credits:** 2  
**Open To:** all students  
**Prerequisite:** placement based on assessment and instructor recommendation  

This course is designed to teach the fundamentals concepts of geometry. Topics covered may be transversal, congruency, transformations, proportion, similarity, geometric figures/measurement, theorems, and proofs. The class will focus on math skills and practical applications as these skills relate to daily living situations.  

Alignment to the Iowa Core Curriculum: **Understands, applies and extends understanding of geometry.**

### Practical Math 4

**XSM421 (Sem 1), XSM422 (Sem 2)**  
**Duration:** year course  
**Credits:** 2  
**Open To:** all students  
**Prerequisite:** placement based on assessment and instructor recommendation  

This course is an integrated mathematics course. Concepts are introduced incrementally and are continually practiced throughout the problem sets. Students continue to build upon concepts learned in Practical Math 2 and 3. The class will focus on math skills and practical applications as these skills relate to daily living situations.  

Alignment to the Iowa Core Curriculum: **Understands, applies and extends understanding of algebra, geometry, statistics and probability.**

### Essential Elements of Math

**XSM621 (Sem 1), XSM622 (Sem 2)**  
**Duration:** year course  
**Credits:** 2  
**Open To:** all students  
**Prerequisite:** placement based on assessment and instructor recommendation  

The instruction will develop fundamental concepts of mathematics and concepts of operations and problem solving. Units covered include: operations with numbers, identify algebraic expressions, solve equations, use of graphs, measurement and solving real world problems. Real world applications: money concepts, comparative shopping, purchasing skills, budgets, measuring (cooking and home repair), reading and using graphs.  

Alignment to the Iowa Core Curriculum: **Instruction, learning, and assessment are built on the 9-12th grade-band expectations of the Iowa Core and the Essential Elements.**
**EARTH / SPACE SCIENCE**

| CREDITS REQUIRED FOR GRADUATION | 2 credits are required for graduation from the Dubuque Community School District. Credits earned beyond the requirement are automatically counted as Elective credits. |

**HONORS NEXT GEN GLOBAL SCIENCE**

Sci151 (Sem 1), Sci152 (Sem 2)

- **Duration:** year course
- **Credits:** 2
- **Open To:** sophomores, juniors, seniors
- **NCAA:** approved
- **Prerequisite:** Honors PS9 Chemistry, Honors PS9 Physics, Honors Biology

Honors Next Gen Global Science is a year-long course that will provide students with the opportunity to discover and expand connections between science, technology, and global societies. This study of natural connections will help students become stewards of the environment, more informed citizens, and better decision-makers. Students will investigate the various aspects of our Earth, the Solar System and the Universe through scientific inquiry, laboratory activities, problem solving, current events, discussions, and projects. Honors Next Gen will have a strong presence of mathematics in regards to some concepts, i.e. Kepler’s Laws of Motion or Climate Modeling.

Alignment to the Iowa Core Science Standards: HS-ESS2- Earth’s Systems, HS-ESS3 Earth and Human Activity, and HS-LS2 Ecosystems: Interactions, Energy, and Dynamics. In addition, it includes concepts in HS-ESS1 Earth’s Place in the Universe and HS-LS4 Biological Evolution: Unity and Diversity.

**NEXT GEN GLOBAL SCIENCE**

Sci161 (Sem 1), Sci162 (Sem 2)

- **Duration:** year course
- **Credits:** 2
- **Open To:** juniors and seniors
- **NCAA:** approved
- **Prerequisite:** PS9 Chemistry, PS9 Physics, Biology

Next Gen Global Science is a year-long course that will provide students with the opportunity to discover and expand connections between science, technology, and global societies. This study of natural connections will help students become stewards of the environment, more informed citizens, and better decision-makers. Students will investigate the various aspects of our Earth, the Solar System and the Universe through scientific inquiry, laboratory activities, problem solving, current events, discussions, and projects.

Alignment to the Iowa Core Science Standards: HS-ESS2- Earth’s Systems, HS-ESS3 Earth and Human Activity, and HS-LS2 Ecosystems: Interactions, Energy, and Dynamics. In addition, it includes concepts in HS-ESS1 Earth’s Place in the Universe and HS-LS4 Biological Evolution: Unity and Diversity.

**ASTRONOMY**

Sci345

- **Duration:** semester course
- **Credits:** 1
- **Open To:** sophomores, juniors, seniors
- **NCAA:** approved
- **Prerequisite:** Algebra I

This course will involve major themes of astronomy. It is intended to provide an elective credit for students going into space studies or having an interest in this topic. Students will engage in labs, models and simulations that enhance the concepts of orbits and celestial bodies. Topics include: the Solar System and its formation, comets/asteroids, space exploration, the Big Bang and the expansion of the universe, the life cycle of stars, nuclear fusion, gravity, black holes, and dark matter.

Alignment to the Iowa Core Science Standards: HS-ESS1 Earth’s Place in the Universe.

**ESSENTIAL ELEMENTS OF SCIENCE**

XSM611 (Sem 1), XSM612 (Sem 2)

- **Duration:** year course
- **Credits:** 2
- **Open To:** all students
- **Prerequisite:** placement based on assessment and instructor recommendation

The instruction will provide students the opportunity to discover and understand the role of physical, earth, and global sciences. Units covered include: apply aspects of chemistry through labs and activities, investigate aspects of science through scientific inquiry, problem solving and discussions. Real world applications: chemical properties, weather, catastrophic occurrences, recycling and making predictions.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12th grade-band expectations of the Iowa Core and the Essential Elements.
**Biology**

SCI131 (Sem 1), SCI132 (Sem 2)

- **Duration:** year course
- **Credits:** 2
- **Open to:** sophomores, juniors, seniors
- **NCAA:** approved
- **Prerequisite:** PS9 Chemistry, PS9 Physics

This course is designed for those students who desire a thorough background in basic biology and a strong basis for further science study. The course of study in Biology includes all the major themes essential to understanding life. This is often achieved through problem solving, laboratory experiences, and group activities. Students will apply the foundational concepts of Biology to real-world scenarios.

Alignment to the Iowa Core Science Standards: HS-LS1 From Molecules to Organisms: Structures and Processes (HS-LS1-1, HS-LS1-2, HS-LS1-3, HS-LS1-4, HS-LS1-5, HS-LS1-6, HS-LS1-7), HS-LS1-8, HS-LS2 Ecosystems: Interactions, Energy, and Dynamics (HS-LS2-3, HS-LS2-4, HS-LS2-5, HS-LS2-6), HS-LS3 Heredity: Inheritance and Variation of Traits (HS-LS3-1, HS-LS3-2, HS-LS3-3, HS-LS3-4, HS-LS3-5, HS-LS3-6), HS-PS4 Biological Evolution: Unity and Diversity (HS-PS4-1, HS-PS4-2, HS-PS4-3, HS-PS4-4, HS-PS4-5, HS-PS4-6) and HS-ETS Engineering Design (HS-ETS1-1, HS-ETS1-2, HS-ETS1-3, HS-ETS1-4). For more information, please visit www.nextgenscience.org for a full description of each standard.

**Honors Biology**

SCI141 (Sem 1), SCI142 (Sem 2)

- **Duration:** year course
- **Credits:** 2
- **Open to:** all students
- **NCAA:** approved
- **Prerequisite:** for incoming freshmen, simultaneous enrollment in Honors PS9 Chemistry and Honors PS9 Physics with instructor approval; for sophomores, completion of PS9 Chemistry and PS9 Physics with instructor approval; for juniors and seniors, instructor approval

This course is designed for the academically advanced student who desires a comprehensive background in biology to assist in future science studies. The course of study in Honors Biology includes an in-depth, accelerated approach to all the major themes essential to understanding life. This is often achieved through problem solving, laboratory experiences, and group activities. The text material provides the factual foundation necessary to understanding the principles of life discussed in the course.

Alignment to the Iowa Core Science Standards: HS-LS1 From Molecules to Organisms: Structures and Processes (HS-LS1-1, HS-LS1-2, HS-LS1-3, HS-LS1-4, HS-LS1-5, HS-LS1-6, HS-LS1-7), HS-LS1-8, HS-LS2 Ecosystems: Interactions, Energy, and Dynamics (HS-LS2-3, HS-LS2-4, HS-LS2-5, HS-LS2-6), HS-LS3 Heredity: Inheritance and Variation of Traits (HS-LS3-1, HS-LS3-2, HS-LS3-3, HS-LS3-4, HS-LS3-5, HS-LS3-6), HS-PS4 Biological Evolution: Unity and Diversity (HS-PS4-1, HS-PS4-2, HS-PS4-3, HS-PS4-4, HS-PS4-5, HS-PS4-6) and HS-ETS Engineering Design (HS-ETS1-1, HS-ETS1-2, HS-ETS1-3, HS-ETS1-4). For more information, please visit www.nextgenscience.org for a full description of each standard.

**Anatomy & Physiology**

SCI271 (Sem 1), SCI272 (Sem 2)

- **Duration:** year course
- **Credits:** 2
- **Open to:** sophomores, juniors, seniors
- **NCAA:** approved
- **Prerequisite:** Biology and instructor recommendation

This course provides students with an in-depth understanding of the structure and function of the human body. It confronts medical issues and promotes a healthy lifestyle. A foundation in anatomical terminology, laboratory techniques and utilization of reference materials are parts of the course of study. Required dissection of the fetal pig is a major part of the course work.

Alignment to NICC Anatomy Lab Standards: Instruction and experimentation in microscopy and dissection, with emphasis on the atomic, cellular, tissue and organ system levels of organization focusing on the human physiology including neurophysiology, respiratory physiology, lymphatic and immune functions, digestive physiology, and cardiovascular physiology.

**Genetics**

SCI365

- **Duration:** semester course
- **Credits:** 1
- **Open to:** sophomores, juniors, seniors
- **NCAA:** approved
- **Prerequisite:** Biology

This course is designed as an advanced biology course. It is intended to provide an elective credit for those students going into biology related areas of study. This course will provide in-depth knowledge of heredity and the process by which it occurs and a background in crime scene investigation. The course will focus on the study of passing traits from one generation to the next, chemical structure of genes, and variation of genes between and within populations. Laboratory work will be a critical component of this course, allowing students to make individual observations and interpretations.

Alignment to the Iowa Core Science Standards: Includes instruction in the following standards: HS-LS3 Heredity: Inheritance and Variation of Traits and HS-LS4 Biological Evolution: Unity and Diversity.
MARINE BIOLOGY

This course is designed as an advanced science course. It is intended to provide an elective credit for those students going into marine biology related areas of study or who have an interest in these areas. The course of study will include the study of the interaction between environmental and biological factors within marine ecosystems. Other concepts include: relationships of animal behavior and their nervous/endocrine systems, the theory of evolution in the context of the marine world, the transfer of matter within marine ecosystems, and ecology as the interrelationship of biotic and abiotic factors. Labs, modeling, research, mathematic modeling, and projects will be used to explore these topics.

ADVANCED PLACEMENT BIOLOGY

This course is designed to be equivalent to a college introductory biology course usually taken by biology majors during their first year. The course of study provides the student with the conceptual framework, knowledge, and analytical skills necessary to deal critically with the rapidly changing science of biology. The primary focus will be on the student’s ability to explain, analyze, and interpret biological procedures and phenomena. Laboratory work will focus on the student’s ability to make detailed observations, accurate reading, and data interpretations. This course will prepare students to successfully take the AP examination in May, which could earn the students college credit based upon their results on the exam.

Alignment to the Iowa Core Science Standards: HS-LS1 From Molecules to Organisms: Structures and Processes and HS-LS3 Heredity: Inheritance and Variation of Traits. In Addition, it includes concepts in HS-LS2 Ecosystems: Interactions, Energy, and Dynamics and HS-LS4 Biological Evolution: Unity and Diversity. In addition the class will cover the four Advanced Placement Biology Big Ideas and the seven Advanced Placement Science Practices.

PHYSICAL SCIENCE

2 credits are required for graduation from the Dubuque Community School District. Credits earned beyond the requirement are automatically counted as Elective credits.

PS9 CHEMISTRY

This physical science course is designed to provide a base understanding of the components of chemistry. The course will focus on the structure and interaction of matter at the molecular level with laboratory experiences that will connect these concepts to a macro level. Connections to students’ lives will be woven throughout course.

Alignment to the Iowa Core Science Standards: HS-PS1 Matter and its Interactions (HS-PS1-1, HS-PS1-2, HS-PS1-3, HS-PS1-4, HS-PS1-5, HS-PS1-6, HS-PS1-7, HS-PS1-8), HS-PS2 Motion and Stability: Forces and Interactions (HS-PS2-6), HS-PS3 Energy (HS-PS3-4), and HS-ETS Engineering Design (HS-ETS1-1, HS-ETS1-2, HS-ETS1-3, HS-ETS1-4). For more information, please visit www.nextgenscience.org for a full description of each standard.
PS9 PHYSICS

SC1082
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** freshmen
- **NCAA:** approved
- **PREREQUISITE:** none

This physical science course is designed to provide a base understanding of the components of physics. The course will focus on how matter moves, how it is made to move, and the energies involved. Key concepts include: motion, forces, momentum, energy, Newton’s Laws, waves, electricity/magnetism, and light. Inquiry-based labs and hands-on engineering are integrated in the course.

Alignment to the Iowa Core Science Standards: HS-PS2 Motion and Stability: Forces and Interactions (HS-PS2-1, HS-PS2-2, HS-PS2-3, HS-PS2-4, HS-PS2-5), HS-PS3 Energy (HS-PS3-1, HS-PS3-2, HS-PS3-3, HS-PS3-5), HS-PS4 Waves and their Applications in Technologies for Information Transfer (HS-PS4-1, HS-PS4-2, HS-PS4-3, HS-PS4-4, HS-PS4-5) and HS-ETS Engineering Design (HS-ETS1-1, HS-ETS1-2, HS-ETS1-3, HS-ETS1-4). For more information, please visit www.nextgenscience.org for a full description of each standard.

HONORS PS9 CHEMISTRY

SC1091
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** freshmen
- **NCAA:** approved
- **PREREQUISITE:** none

This physical science course is for the academically advanced student seeking a rigorous path in chemistry. The course will focus on the structure and interaction of matter at the molecular level with laboratory experiences that will connect these concepts to a macro level. Pacing and breadth of concepts covered will be increased compared to the regular PS9 Chemistry course. This course will serve as a possible lead-in to AP Chemistry.

Alignment to the Iowa Core Science Standards: HS-PS1 Matter and its Interactions (HS-PS1-1, HS-PS1-2, HS-PS1-3, HS-PS1-4, HS-PS1-5, HS-PS1-6, HS-PS1-7, HS-PS1-8), HS-PS2 Motion and Stability: Forces and Interactions (HS-PS2-6), HS-PS3 Energy (HS-PS3-4), and HS-ETS Engineering Design (HS-ETS1-1, HS-ETS1-2, HS-ETS1-3, HS-ETS1-4). For more information, please visit www.nextgenscience.org for a full description of each standard.

HONORS PS9 PHYSICS

SC1092
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** freshmen
- **NCAA:** approved
- **PREREQUISITE:** none

This physical science course is for the academically advanced student seeking a rigorous path in physics. This course is designed to provide a base understanding of the components of physics. The course will focus on how matter moves, how it is made to move, and the energies involved. Key concepts include: motion, forces, momentum, energy, Newton’s Laws, waves, electricity/magnetism, and light. Inquiry-based labs and hands-on engineering are integrated in the course. Pacing and breadth of concepts covered will be increased compared to the regular PS9 Physics course.

Alignment to the Iowa Core Science Standards: HS-PS2 Motion and Stability: Forces and Interactions (HS-PS2-1, HS-PS2-2, HS-PS2-3, HS-PS2-4, HS-PS2-5), HS-PS3 Energy (HS-PS3-1, HS-PS3-2, HS-PS3-3, HS-PS3-5), HS-PS4 Waves and their Applications in Technologies for Information Transfer (HS-PS4-1, HS-PS4-2, HS-PS4-3, HS-PS4-4, HS-PS4-5) and HS-ETS Engineering Design (HS-ETS1-1, HS-ETS1-2, HS-ETS1-3, HS-ETS1-4). For more information, please visit www.nextgenscience.org for a full description of each standard.

PHYSICS

SC1183
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **NCAA:** approved
- **PREREQUISITE:** PS9 Physics (or Honors), completion of Algebra II

This course is designed for students who have completed the PS-9 Physics course and desire further study in physics. This will be a continuation of the material from PS-9 Physics. Students will further develop critical thinking skills and mathematical application in the context of physics. In this course, a conceptual and analytical approach is taken in investigating and explaining the laws of the physical world. Concepts include: kinematics, forces, vectors, waves, and energy. Students will study these laws through laboratory experiments, demonstrations, and problem solving. This course will be recognized by Iowa’s Regent (State) Universities as 1 year of physics.

Alignment to the Iowa Core Science Standards: HS-PS1 Matter and its Interactions, HS-PS2 Motion and Stability: Forces and Interactions, HS-PS3 Energy and HS-PS4 Waves and Their Applications in Technologies for Information Transfer.

CHEMISTRY

SC1184
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **NCAA:** approved
- **PREREQUISITE:** PS9 Chemistry (or Honors), completion or concurrent enrollment in Algebra II

This course is designed for students who have completed the PS-9 Chemistry course and desire further study in chemistry. This will be a continuation of the material from PS-9 Chemistry. The course of study is designed to cover concepts of chemistry on a descriptive and quantitative level. Laboratory activities will be used to illustrate the important concepts. This course is designed to equip students with the background to understand how chemistry fits into everyday living. This course will be recognized by Iowa’s Regent (State) Universities as 1 year of chemistry.

Alignment to the Iowa Core Science Standards: HS-PS1 Matter and its Interactions and HS-PS3 Energy.
HONORS PHYSICS

SCI331 (Sem 1), SCI332 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: sophomores, juniors, seniors
NCAA: approved
PREREQUISITE: B- or higher in Honors Algebra II or instructor / GT facilitator recommendation; simultaneous enrollment in Honors Pre-Calculus

This course is designed for the academically advanced student who desires a comprehensive background in physics to assist in future science studies. In this course, students will investigate and interpret physical phenomenon of everyday life. Scientific investigations, demonstrations, and problem solving are some of the techniques involved in explaining the how and why of the world’s operations. Concepts include: kinematics, forces, vectors, waves, and energy. Conceptual understanding will be important, but quantifying the concepts will be emphasized.

Alignment to the Iowa Core Science Standards: HS-PS1 Matter and Its Interactions, HS-PS2 Motion and Stability: Forces and Interactions, HS-PS3 Energy and HS-PS4 Waves and Their Applications in Technologies for Information Transfer.

ADVANCED PLACEMENT CHEMISTRY

SCI561 (Sem 1), SCI562 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: sophomores, juniors, seniors
NCAA: approved
PREREQUISITE: completion of Algebra II, Biology, Chemistry, and instructor recommendation

This course is designed to be equivalent to a college introductory chemistry course usually taken by science majors in their first year. The course of study expands the students’ understanding of chemical principles and their abilities to analyze and solve problems. Laboratory experiments enhance these objectives through the use of new techniques and equipment, while written lab reports demand critical interpretation of data and use of mathematical and verbal skills. This course will prepare students to successfully take the AP examination in May, which could earn the students college credit based upon their results on the exam.

Alignment to the Iowa Core Science Standards: HS-PS1 Matter and Its Interactions and HS-PS3 Energy. In addition the class will cover the six Advanced Placement Chemistry Big Ideas and the seven Advanced Placement Science Practices.

ESSENTIAL ELEMENTS OF SCIENCE

XSM611 (Sem 1), XSM612 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: all students
PREREQUISITE: placement based on assessment and instructor recommendation

The instruction will provide students the opportunity to discover and understand the role of physical, earth, and global sciences. Units covered include: apply aspects of chemistry through labs and activities, investigate aspects of science through scientific inquiry, problem solving and discussions. Real world applications: chemical properties, weather, catastrophic occurrences, recycling and making predictions.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12th grade-band expectations of the Iowa Core and the Essential Elements.

WORLD HISTORY

CREDITS REQUIRED FOR GRADUATION

2 credits are required for graduation from the Dubuque Community School District.

Credits earned beyond the requirement are automatically counted as Elective credits.

WORLD HISTORY

SOC221 (Sem 1), SOC222 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: sophomores
NCAA: approved
PREREQUISITE: none

World History is a year-long, two-credit course. The student will study in depth the societies, themes and issues that mark the interaction of the world and will focus on the diversity of the human experience. This course covers the ideas and institutions that have shaped our modern world. Students focus in depth on the world’s history in both hemispheres from the Industrial Revolution to the present. Units of study will focus on interactive lessons dealing with Africa, Europe, Asia, the Middle East, and the Americas and their interconnectedness.

Emphasis in this course will be placed on content mastery, literacy skills, and inquiry-based thinking. The general format of the class will include use of historical thinking skills and analysis of primary and secondary texts in addition to inquiry-based discussion and writing assessments.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 Social Studies Inquiry Standards, 9-12 World History Standards, and the 9-10 Reading and Writing Standards for History/Social Studies.
Advanced Placement World History is a two credit, year-long course open to tenth grade students. This course will focus on the study of the histories of the world’s civilizations. Through their studies, students will develop an appreciation for the civilizations of the world and the institutions that, over time, became embedded in each culture. In addition, students will be able to see the impact that each civilization had upon one another as contacts were made and relationships were established.

Students will learn strategies that will enhance their abilities to analyze various sources of historical information. Students will demonstrate their historical understanding through written and oral assessments. It will be necessary that all enrolled students exhibit high skill level in written and verbal expression. This two-semester course prepares students for intermediate and advanced college courses with instruction equivalent to a full-year introductory college course as well as preparing students to take the Advanced Placement World History exam in the month of May of each year. Students may earn college credit depending on the results of the examination.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 Social Studies Inquiry Standards, 9-12 World History Standards, and the 9-10 Reading and Writing Standards for History/Social Studies.

United States History is a year-long, two-credit course. This course is intended to develop in students a deep appreciation and awareness of this country’s history. A basic chronological order with thematic infusions will be used to cover the significant events that have shaped the country’s development from the Civil War to present day.

Emphasis in this course will be placed on content mastery, literacy skills, and inquiry-based thinking. The general format of the class will include use of historical thinking skills and analysis of primary and secondary texts in addition to inquiry-based discussion and writing assessments.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 Social Studies Inquiry Standards, 9-12 United States History Standards, and the 11-12 Reading and Writing Standards for History/Social Studies.

Advanced Placement United States History is designed to provide students with the analytic skills and factual knowledge necessary to deal critically with the problems and materials in American history. This two-semester course prepares students for intermediate and advanced college courses with instruction equivalent to a full-year introductory college course, as well as preparing students to take the Advanced Placement United States History exam in the month of May of each year. Students may earn college credit depending on the results of the examination.

A basic chronological approach with an emphasis on dominant themes or strands which permeate the history of the United States will be employed to survey history of the United States from the colonial period to the present time period. Students will assess historical materials and develop interpretations and conclusions for presentation in essay form. The general format of the class will include lecture/discussion, seminar discussion and audio-visual items.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 Social Studies Inquiry Standards, 9-12 United States History Standards, and the 11-12 Reading and Writing Standards for History/Social Studies.
U.S. HISTORY TO 1877
SOC601 (Sem 1)
DURATION: semester course
CREDITS: 1
OPEN TO: juniors and seniors (preference given to seniors)
PREREQUISITE: none
RECOMMEND: successful completion of U.S. History with B- or better

A survey of the emergence of the United States from the colonial era to 1877, including colonization, the Revolutionary period, the early Republic, the Jacksonian era, the Civil War, and Reconstruction. Political, economic, and social themes will be considered.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 3 college credits at NiCC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits. This course will be offered at Hempstead High School during first semester first hour and open to students at both high schools.

U.S. HISTORY SINCE 1877
SOC602 (Sem 2)
DURATION: semester course
CREDITS: 1
OPEN TO: juniors and seniors (preference given to seniors)
PREREQUISITE: none
RECOMMEND: successful completion of U.S. History with B- or better

A survey of life in the United States from 1877 to the present including the Age of Industrialism, the Progressive Era, World War I, developments between the wars, World War II, and postwar foreign and domestic issues.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 3 college credits at NiCC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits. This course will be offered at Hempstead High School during first semester first hour and open to students at both high schools.

ESSENTIAL ELEMENTS OF SOCIAL STUDIES
XSM641 (Sem 1), XSM642 (Sem 2)
DURATION: year course
CREDITS: 2
OPEN TO: all students
PREREQUISITE: placement based on assessment and instructor recommendation

The instruction will allow students to experience and investigate key social studies concepts as it integrates the history, geography, and culture of other countries. Units covered include: study of societies, ideas, and issues. U.S. political system, rights, and current events. Real world applications: current events, tours of library and museums, Age of Majority, guardianship, tour of city hall, and use of city services.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 grade-band expectations of the Iowa Core and the Essential Elements.

GOVERNMENT
CREDITS REQUIRED FOR GRADUATION
1 credit is required for graduation from the Dubuque Community School District.

Credits earned beyond the requirement are automatically counted as Elective credits.

AMERICAN GOVERNMENT
SOC415
DURATION: semester course
CREDITS: 1
OPEN TO: seniors
NCAA: approved
PREREQUISITE: none

American Government is a required, one-semester course designed for seniors. This course is designed to be a capstone for all students in preparation for active participation in local, state, and national civic life. Knowledge of the fundamentals and principles of the U.S. political system as well as the Iowa political system prepares students for their future responsibilities as citizens of this state and country.

In this course, students study politics and the political processes which underlie United States democracy. Following this introduction, students explore each of the major branches of government - Executive, Legislative, and Judicial as they interact both in cooperative and, at times, adversarial ways. Emphasis in this course will be placed on content mastery, literacy skills, and inquiry-based thinking. The general format of the class will include use of critical thinking skills and analysis of primary and secondary sources in addition to inquiry-based discussion and writing assessments. Additionally, this course will explore local civic involvement and analysis of current events through data, maps, and media sources.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 Social Studies Inquiry Standards, 9-12 Civics and Government Standards, and the 11-12 Reading and Writing Standards for History/Social Studies.
ADVANCED PLACEMENT AMERICAN GOVERNMENT
SOC513
DURATION: semester course
CREDITS: 1
OPEN TO: seniors
NCAA: approved
PREREQUISITE: instructor recommendation

This course is designed to be a capstone for all students in preparation for active participation in local, state, and national civic life. In this course, students come to grips with the nature of politics and the political processes, which underlie United States democracy and the Iowa political system.

This semester course prepares students for intermediate and advanced college courses with instruction equivalent to a one-semester college introductory course in U.S. government and politics. This course is also designed to prepare students to take the Advanced Placement U.S. Government and Politics Exam, which is offered in May every year. Students may earn college credit depending on the results of the examination.

Emphasis in this course will be placed on content mastery, literacy skills, and inquiry-based thinking. The general format of the class will include use of critical thinking skills and analysis of primary and secondary sources in addition to inquiry-based discussion and writing assessments. Additionally, this course will explore local civic involvement and analysis of current events through data, maps, and media sources.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 Social Studies Inquiry Standards, 9-12 Civics and Government Standards, and the 11-12 Reading and Writing Standards for History/Social Studies.

ESSENTIAL ELEMENTS OF SOCIAL STUDIES
XSM641
DURATION: semester course
CREDITS: 1
OPEN TO: all students
PREREQUISITE: placement based on assessment and instructor recommendation

The instruction will allow students to experience and investigate key social studies concepts as it integrates the history, geography, and culture of other countries. Units covered include: study of societies, ideas, and issues. U.S. political system, rights, and current events. Real world applications: current events, tours of library and museums, Age of Majority, guardianship, tour of city hall, and use of city services.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12th grade-band expectations of the Iowa Core and the Essential Elements.

BEHAVIORAL SCIENCE

CREDITS REQUIRED FOR GRADUATION

1 credit is required for graduation from the Dubuque Community School District.

Credits earned beyond the requirement are automatically counted as Elective credits.

SOCIOLOGY
SOC433
DURATION: semester course
CREDITS: 1
OPEN TO: seniors
NCAA: approved
PREREQUISITE: none

Sociology is a semester, one credit course available to seniors. Sociology is the study of human behavior and groups in society. The study of sociology helps answer the questions we have about our relationships with others. Sociology will help the student understand the issues and problems we face in our society today. Units of study include research methods, culture, socialization, group formation, social inequality, social institutions, and social change.

Emphasis in this course will be placed on content mastery, literacy skills, and inquiry-based thinking. This course incorporates frequent discussions based on compelling topics to enhance critical thinking skills. In addition, to discussion, the course will include evaluation of media, data-analysis, argumentative writing, and steps to informed action.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 Social Studies Inquiry Standards, 9-12 Behavioral Science Standards from the Sociology Strand, and the 11-12 Reading and Writing Standards for History/Social Studies.
**PSYCHOLOGY**

**SOC443**

- **Duration:** semester course
- **Credits:** 1
- **Open To:** seniors
- **NCAA:** approved
- **Prerequisite:** none

**ADVANCED PLACEMENT PSYCHOLOGY**

**SOC541 (Sem 1), SOC542 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open To:** juniors and seniors
- **NCAA:** approved
- **Prerequisite:** instructor recommendation

The AP Psychology course is designed to introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with the major subfields within psychology. The AP Psychology course stresses critical thinking, reading and writing within the context of scientific methodology and questioning. A wide range of topics includes neuroscience, development, sensation/perception, consciousness, learning, memory, personality, thinking/intelligence, motivation/emotion, and psychological disorders/therapy.

This course prepares students for intermediate and advanced college courses. This course is ideal for anyone wanting to try an Advanced Placement course as well as those interested in possible careers in areas including (but not limited to): education, counseling/therapy, business, management/administration, health, and neuroscience. This course is also designed to prepare students to take the Advanced Placement Psychology exam which is offered in May every year. Students may earn college credit depending on the results of the examination.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12 Social Studies Inquiry Standards, 9-12 Behavioral Science Standards from the Psychology Strand, and the 11-12 Reading and Writing Standards for History/Social Studies.

**ESSENTIAL ELEMENTS OF SOCIAL STUDIES**

**XSM642**

- **Duration:** semester course
- **Credits:** 1
- **Open To:** all students
- **Prerequisite:** placement based on assessment and instructor recommendation

The instruction will allow students to experience and investigate key social studies concepts as it integrates the history, geography, and culture of other countries. Units covered include: study of societies, ideas, and issues. U.S. political system, rights, and current events. Real world applications: current events, tours of library and museums, Age of Majority, guardianship, tour of city hall, and use of city services.

Alignment to the Iowa Core Curriculum: Instruction, learning, and assessment are built on the 9-12th grade-band expectations of the Iowa Core and the Essential Elements.
SOCIAL STUDIES ELECTIVES

ECONOMICS

SOC425

DURATION: semester course
CREDITS: 1
OPEN TO: seniors
NCAA: approved
PREREQUISITE: none

Economics is designed to acquaint students with the economic problems a society must cope with in order to satisfy its economic wants and aspirations beginning with the basic problem of scarcity. Economics demonstrates to the student the complex and dynamic nature of the national and global economy. Special emphasis is placed on the principle of interdependence and comparative advantage in achieving maximum efficiency. Topics include differing economic systems in the world, the market structure, the nature of economic growth and productivity, monetary and fiscal operation of the U.S. economy, as well as international trade.

A topical/thematic approach will be utilized in the teaching of economics. The general format of the class will include lecture/discussion, reading assignments that focus on contemporary economic developments and happenings, audio-visual items, use of primary sources, and simulation activities.

Alignment to the Iowa Core in Economics Grades 11-12: The economics standards promote the concepts and tools necessary for economic decision making in order to help understand the interaction between buyers and sellers in markets, workings of the national economy, and interactions within the global marketplace.

ADVANCED PLACEMENT ECONOMICS

SOC531 (Sem 1), SOC532 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: juniors and seniors
NCAA: approved
PREREQUISITE: instructor recommendation

Advanced Placement Economics is designed to acquaint students with the functions performed by the American economic system (Macroeconomics). An additional emphasis will be to prepare students to deal with the principles of economic decision-making by the individual and businesses (Microeconomic). This course is equivalent to an Introductory Principles of Economics course on the college/university level.

In addition, Advanced Placement Economics is designed to prepare students to take the Advanced Placement exams in Economics (Macroeconomics and Microeconomics) in the month of May of each year. Successful completion of these exams will result in college credits for the students. Students may earn college credit depending on the results of the examination.

A unit/thematic approach will be utilized in the teaching of Advanced Placement Economics. The general activities of the class will include lecture/discussion, reading assignments, the use of programmed instruction, doing research work from a variety of sources and appropriate audio-visual items. A seminar setting will be utilized as much as practical to enhance student understanding.

Alignment to the Iowa Core in Economics Grades 11-12: Understand how universal economic concepts present themselves in various types of economies throughout the world.

WELLNESS

CREDITS REQUIRED FOR GRADUATION

4 credits are required for graduation from the Dubuque Community School District. Credits earned beyond the requirement are automatically counted as Elective credits.

ADAPTED WELLNESS

PED150

DURATION: semester course
CREDITS: 1
OPEN TO: all students
PREREQUISITE: instructor recommendation

This is a physical education program that may be adapted or modified to address the individualized needs of students who have gross motor developmental delays. Units include general health education and fitness-based activities. Students may select this class also to act as peer helpers to work with adaptive fitness students. Classes incorporate a variety of fitness-based activities and will have the opportunity to use the Fitness Room.

Alignment to the Shape of America National Physical Education Standards.

COMMENT: Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the State of Iowa.
**HEALTH CLUB FITNESS**

PED153

| DURATION: | semester course |
| CREDITS: | 1 |
| OPEN TO: | all students |
| PREREQUISITE: | none |

This course is designed to practice and develop skills in fitness-based activities that will help students maintain fitness throughout their life. This class will be an active heart rate driven class. With effort, students can reach their personal target heart rate zones. Classes may explore units in kickboxing, stability ball workout, Pilates, yoga, circuit training, boot camp, walking, fitness games, or any new fitness trend to improve all areas of their personal fitness. Healthy lifestyle topics will also be included such as nutrition, sleep, and goal setting to improve social and emotional health. Assessments are based on SHAPE National Physical Education Standards and may include heart rate data, written work, and fitness testing.

Alignment to the Shape of America National Physical Education Standards.

COMMENT: Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the Iowa Core.

---

**WATER FITNESS & GAMES (HEMPSTEAD ONLY)**

PED159

| DURATION: | semester course |
| CREDITS: | 1 |
| OPEN TO: | all students |
| PREREQUISITE: | must be able to swim comfortably in 6' or deeper water with or without flotation belt |

Students will participate in fitness activities and games in the pool. This class will be an active heart rate driven class. Activities may include lap swimming, deep water jogging, deep-water aerobics, water-polo, water volleyball and active pool games. Class emphasis will be on water safety with students having the option to participate with flotation belts. Students will exhibit socially acceptable safe behavior in pool and locker room setting. Healthy lifestyle topics will also be included such as nutrition, sleep, and healthy habits. Students must provide their own shower products, swimsuit, and towel.

Alignment to the Shape of America National Physical Education Standards.

COMMENT: Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the Iowa Core.

---

**LIFETIME ACTIVITIES & FITNESS (SENIOR ONLY)**

PED161

| DURATION: | semester course |
| CREDITS: | 1 |
| OPEN TO: | all students |
| PREREQUISITE: | none |

This course provides students with knowledge, experience and an opportunity to develop skills in activities that will encourage participation well after high school to help maintain an active lifestyle. These activities may be competitive, non-competitive or fitness related. This class will be an active heart rate driven class. With effort, students can reach their personal target heart rate zones. This class may consist of individual/dual activities (badminton, tennis, pickleball), walking, and team games. Healthy lifestyle topics will also be included such as nutrition, sleep, and goal setting to improve social and emotional health. Assessments are based on SHAPE National Physical Education Standards and may include heart rate data, written work, and fitness testing.

Alignment to the Shape of America National Physical Education Standards.

COMMENT: Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the Iowa Core.

---

**ACTIVE GAMES & FITNESS CLASS**

PED162

| DURATION: | semester course |
| CREDITS: | 1 |
| OPEN TO: | all students |
| PREREQUISITE: | none |

In this course, students will be introduced to activities designed to increase their likelihood of having an active lifestyle in the future. Students will have the opportunity to participate in a variety of fitness activities and games that include teamwork and strategizing. This class will be an active heart rate driven class. With effort, students can reach their personal target heart rate zones. This class will develop basic and intermediate skills of fitness-based workouts, cooperative games of challenge, individual/dual games, and team games and sports. Healthy lifestyle topics will also be included such as nutrition, sleep, and goal setting to improve social and emotional health. Assessments are based on SHAPE National Physical Education Standards and may include heart rate data, written work, and fitness testing.

Alignment to the Shape of America National Physical Education Standards.

COMMENT: Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the Iowa Core.
PERFORMANCE PE  
PED163  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** none  
This course is recommended for the serious fitness student. It will focus on knowledge of proper technique for lifts and safety in the weight room. Students will perform high intensity functional fitness that combines aerobic conditioning, strength training, core conditioning, and flexibility. Workouts will consist of a combination of strength training, plyometrics, speed & agility, flexibility as well as other fitness activities. Classroom work may focus on leadership activities, goal setting, nutrition, and other wellness topics. The emphasis is on creating a core fitness that can easily translate into daily activities and other sports. Assessments are based on SHAPE National Physical Education Standards and may include heart rate data, written work, and fitness testing.

Alignment to the Shape of America National Physical Education Standards.  
**COMMENT:** Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the Iowa Core.

ADVANCED PERFORMANCE PE  
PED164  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** successful completion of Performance PE  
This course will be physically challenging and should be taken by serious athletes and fitness students. Knowledge and performance of proper lifting techniques along with weight room safety is required. Students will perform high intensity functional fitness that combines aerobic conditioning, strength training, core conditioning, speed & agility, and flexibility exercises. Classroom work may include leadership training, video analysis, sports nutrition, workout development, and much more. Course emphasis is on creating core fitness that can easily translate into daily activities and all sports. Assessments are based on SHAPE National Physical Education Standards and may include heart rate data, written work, and fitness testing.

Alignment to the Shape of America National Physical Education Standards.  
**COMMENT:** Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the Iowa Core.

EARLY BIRD WELLNESS  
PED171  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** none, but this is a free option if you have a full schedule  
Students will perform functional fitness lessons that combine heart rate training, strength, and flexibility. This class will be an active heart rate driven class. With effort, students can reach their personal target heart rate zones. This class may consist of a combo of weight training, yoga, boot camp, kickboxing, fitness games or any activity taught in a health club setting. Healthy lifestyle topics will also be included such as nutrition, sleep, and healthy habits. Assessments are based on SHAPE National Physical Education Standards and may include heart rate data, written work, and fitness testing. Early Bird Wellness will be from 6:30-7:22 a.m., Monday through Thursday. Friday wellness will be journaling or lessons on canvas.

Alignment to the Shape of America National Physical Education Standards.  
**COMMENT:** Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the Iowa Core.

CONTRACT WELLNESS  
PES523  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students with a full schedule in both semesters  
**PREREQUISITE:** parent signature and administrative approval  
Students arrange and participate in 150 minutes/week of fitness instruction through community facilities. School activities and school sports, as well as non-school sponsored individual or team activities and sports, do not count toward this 150-minute minimum. This is an online Canvas course with weekly health topics. Students turn in a personal fitness plan, provide documentation that they are receiving instruction, provide weekly summaries of activities documented by their instructor, and participate in pre- and post-fitness testing. Contract Wellness is available to students who have a full schedule both semesters and is offered second semester only (Early Bird Wellness is an option for Fall semester).

Students who do not meet the 150 minute minimum requirement, do not provide required documentation, or reduce their schedule must make up the physical education requirement.

Alignment to the Shape of America National Physical Education Standards.  
**COMMENT:** Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the Iowa Core. Students who enroll in Contract Wellness are NOT exempt from the CPR instruction requirement.
Students in Grade 12 are permitted an academic exemption from the physical education requirement if they have a full schedule of academic classes with no unscheduled periods for both semesters. In addition to a full schedule, a written parent/guardian request is required for an academic exemption for all students. If a student utilizes a physical education exemption and subsequently reduces his/her academic schedule, the student must make up the physical education requirement. Physical education exemptions must be requested by October 1 for the current school year.

COMMENT: Prior to graduation, all students must demonstrate competency in cardiopulmonary resuscitation as required by the State of Iowa. Students who are granted an academic exemption are NOT exempt from the CPR instruction requirement.

World Cultures and Geography is a thematic course that will enable students to develop an understanding of their world through an examination of a variety of regional cultures and geography. This year-long course will study six different regions of the world including: North America, Central and South America, Europe, Asia, North Africa/Southwest Asia and Africa South of the Sahara. By examining the culture and geography in these regions of the world, students gain an appreciation of the vast diversity of the human experience and the richness of human culture. This understanding will be accomplished by examining general aspects of culture that are common to all peoples: language, literature, art, music, economy, religion, food, recreation, and traditions, as well as an in-depth study of the geography of each region of the world.

Alignment to the Iowa Core in Geography Grades 9-12: The geography standards emphasize the human and physical characteristics of geography.

AP Human Geography is an introductory geography course designed to introduce students to the systematic study of patterns and processes that have helped shaped human understanding, use, and alteration of Earth’s surface. Students will use various geographic models to examine human social organization and its environmental consequences. In addition, students will experiment and evaluate the usage of modern day geographic tools, including GPS and GIS. Goals include: Map usage and analyzing spatial data, understanding and interpreting correlative relationships between people, phenomenon, and places, recognizing and interpreting scale differences in global patterns and processes, analyzing areas as “regions” and their significance, identifying the interconnectivity among places.

Alignment to the Iowa Core in Geography Grades 9-12: The geography standards emphasize the human and physical characteristics of geography.
FRENCH 1-2
WFR111 (Sem 1), WFR112 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: all students
NCAA: approved
PREREQUISITE: none

Beginning students study language that can be used in everyday communication. Students study French through a communicative approach. Students begin to communicate in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. Students will expand their understanding of culture by studying various aspects of the Francophone world.

Activities, including a variety of formative and summative assessments, are designed to help students meet district standards and ACTFL Standards of Language Learning.

FRENCH 3-4
WFR211 (Sem 1), WFR212 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: sophomores, juniors, seniors
NCAA: approved
PREREQUISITE: minimum grade of “C-“ in French 1-2 or instructor recommendation

Students will build on the basics learned in French 1-2. Students develop their communication in the target through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. Students will be expected to use the language in class.

A variety of learning activities using formative and summative assessments are designed to help students meet district and ACTFL standards of language learning.

FRENCH 5-6
WFR311 (Sem 1), WFR312 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: juniors and seniors
NCAA: approved
PREREQUISITE: minimum grade of “C-“ in French 3-4 or instructor recommendation

Students deepen their communication in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. The curriculum will emphasize more challenging use of the language.

A variety of learning activities using formative and summative assessments are designed to help students meet district and ACTFL standards of language learning. This class starts preparing students for college entrance exams, i.e. college placement tests, or the CLEP test.

FRENCH 7-8
WFR411 (Sem 1), WFR412 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: seniors
NCAA: approved
PREREQUISITE: minimum grade of “C-“ in French 5-6 or instructor recommendation

Students communicate in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening to explore cultural themes. News articles, short stories, poems etc. will provide resources for students to develop a more extensive vocabulary and to expand their knowledge of Francophone culture and history. Students will delve deeper into the target language and culture as they continue to make comparisons and connections between English and the American culture and French and the culture of the Francophone world.

A variety of learning activities using formative and summative assessments are designed to help students meet district and ACTFL standards of language learning. This class prepares students for college entrance exams, i.e. college placement tests, or the CLEP test.

### Computer Essentials

Computer Essentials provides students with essential technology literacy skills for current and future academic and career success. The course begins with an introduction to Microsoft Office 365—the most commonly used software in the business world—and its various applications.

The course then takes students into an in-depth exploration of Microsoft Office 365. Students will learn about various Office 365 tools such as Word, PowerPoint, Excel, OneNote, Mail, Calendar, Onedrive, Forms, and To Do. Throughout the course, students will learn what it means to be effective digital citizens, including digital footprint & reputation, privacy & security, information literacy, and Internet safety.

Comment: Students who participate in this course will have the opportunity to become Microsoft Word and/or Microsoft Excel certified by passing a supervised exam through Certiport. Passing the exam will certify the student as a Microsoft Office Specialist and better prepare students for college and careers.

Alignment to the Iowa Core 21st Century Skills: Demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology. (21.9-12.TL.1)

### INTRODUCTION TO BUSINESS

This course will introduce students to the world of business. Well over half of all careers are in the field of business and this course will give students the background needed to enroll in other business courses. The major units covered in the course include: careers in business, owning and operating a business, marketing, advertising, economics, banking services and credit, accounting, the role of the consumer in the marketplace, technology in the marketplace, and international business.

Alignment to the Iowa Core 21st Century Skills: Communicate and work productively with others, incorporating different perspectives and cross cultural understanding, to increase innovation and the quality of work. (21.9-12.ES.1)

### Accounting I

Accounting is the language of business. Accounting helps people understand business in their careers and in their personal lives. Managers and owners use accounting information as the basis for making business decisions. Accurate accounting records and ethical practices contribute to the success of a business and help to avoid failure and bankruptcy. Accounting I is designed to give students a comprehensive understanding of business operations and provides the financial foundation necessary for employees in a variety of business occupations. Students will learn terminology, how to analyze, journalize and post entries to a general ledger, and how to prepare financial reports for three different forms of business ownership. A special feature of the course includes computerized simulations that are used to give students practical application of accounting concepts.

Alignment to the Iowa Core 21st Century Skills: Adapt to various roles and responsibilities and work flexibly in climates of ambiguity and changing priorities. (21.9-12.ES.2)
ENTREPRENEURSHIP

BUS335

DURATION: semester course
CREDITS: 1
OPEN TO: sophomores, juniors, seniors
PREREQUISITE: none

This course is a continuation of Accounting I. In Accounting II, students will learn a variety of methods used in adjustments, budgeting procedures, departmental accounting, cost accounting, and corporate and partnership financing. Financial decision-making will be incorporated throughout this course.

Alignment to the Iowa Core 21st Century Skills: Demonstrate initiative and self-direction through high achievement and lifelong learning while exploring the ways individual talents and skills can be used for productive outcomes in personal and professional life. (21.9-12.ES.4)

BUS312

DURATION: semester course
CREDITS: 1
OPEN TO: sophomores, juniors, seniors
PREREQUISITE: Accounting I

BUS441

DURATION: semester course

MARKETING & SALES/ADVERTISING

BUS441

DURATION: semester course
CREDITS: 1
OPEN TO: juniors and seniors
PREREQUISITE: none

Marketing touches the lives of people on a daily basis as family members, consumers, and employees. Nike, Google, John Deere, and Apple are examples of companies that flourish in part because of their extremely successful marketing campaigns. This course will cover the following topics: careers in marketing, sales, and advertising, managing a marketing business, marketing research, economic systems, the sales process, psychology of the customer, building an advertising plan and budget, and developing commercials.

Alignment to the Iowa Core 21st Century Skills: Communicate and work productively with others, incorporating different perspectives and cross cultural understanding, to increase innovation and the quality of work. (21.9-12.ES.1)

IJAG 11-12

BUS501 (Sem 1), BUS502 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: juniors and seniors
PREREQUISITE: successful completion of informative intake interview by the IJAG Specialist

IJAG 11-12 (Iowa Jobs for America’s Graduates) is a career exploration and preparation course that provides a hands-on approach to exploring personal strengths and challenges as well as job attainment skills (cover letter, resume, job application, interviewing, etc.) and work place “survival” skills (interpersonal relations, team work, etc.). Students will work to build strengths in academic areas, time management, and communication.

Individual and team project work will help students come to an understanding of their personality and temperament and the relationship between personal actions and the consequences that follow. Students will make connections to their career interests, abilities, and aptitudes by determining their education and career goals through development of an Individual Career Development Plan.

This full-year, credited course involves individual assignments, team activities/projects, academic remediation support, service learning opportunities, guest speakers, field trips (including some state IJAG events such as the Leadership Development and Career Development conferences in Des Moines), and career exploration through job shadowing. Students will also participate in the IJAG Career Association in various activities focused on Career and Leadership Development, Service Learning, and Civic/Social Awareness.

COMMENT: IJAG is a multiyear commitment of support including one year of follow-up beyond high school.
IJA9-10 (Iowa Jobs for America’s Graduates) is an introductory level course in career exploration and preparation that provides a hands-on approach to exploring personal strengths and challenges as well as job attainment skills (cover letter, resume, job application, interviewing, etc.) and work place “survival” skills (interpersonal relations, team work, etc.). Students will work to build strengths in academic areas, time management, and communication.

Individual and team project work will help students come to an understanding of personality and temperament and the relationship between personal actions and the consequences that follow. Students will make connections to their career interests, abilities, and aptitudes by determining their education and career goals through development of an Individual Career Development Plan.

This full-year, credited course involves individual assignments, team activities/projects, academic remediation support, service learning opportunities, guest speakers, field trips (including some state IJA9 events such as the Leadership Development and IJA9 national conferences in Des Moines), and career exploration through job shadowing. Students will also participate in the IJA9 Career Association in various activities focused on Career and Leadership Development, Service Learning, and Civic/Social Awareness.

COMMENT: IJA9 is a multiyear commitment of support including one year of follow-up beyond high school.
INTRODUCTION TO NUTRITION

CNA140

DURATION: semester course
CREDITS: 1
OPEN TO: juniors and seniors
PREREQUISITE: none

This course emphasizes a practical knowledge of good nutrition and some knowledge of diet therapy. It includes a background of adequate and accurate information on basic nutritional needs of the body.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 2 college credits at NICC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

MEDICAL TERMINOLOGY

CNA150

DURATION: semester course
CREDITS: 1
OPEN TO: juniors and seniors
PREREQUISITE: none

This course is the study of medical terminology as the language of medicine with emphasis on word analysis, construction of definitions, pronunciation and spelling of medical terms.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 4.0 college credits at NICC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

EMERGENCY MEDICAL TECHNICIAN

EMT600

DURATION: semester course
CREDITS: 2
OPEN TO: seniors
PREREQUISITE: see program admission requirements listed in course description

This 132-hour course prepares the Emergency Medical Technician (EMT) student to provide pre-hospital assessment and care for patients of all ages with a variety of medical conditions and traumatic injuries. Areas of study include an introduction to emergency medical services, roles and responsibilities of an EMT, anatomy and physiology, medical emergencies, trauma, special considerations for working in the prehospital setting, and providing patient transportation. Students who successfully complete this class will be eligible to take the National Registry of Emergency Medical Technicians for their EMT certification examination. Prior to the first class, a MANDATORY orientation will be scheduled.

This course is designed for students interested in exploring a career in the Emergency and Fire Management Services career pathway, in the Law, Public Safety, Corrections & Security career cluster, or in the Health Science career cluster. This includes but is not limited to the following occupations: Certified Nurse Aide (CNA), Emergency Medical Technicians, Emergency Medicine Physicians, Fire Inspectors and Investigators, Firefighters, Paramedics, Police and Sheriff’s Patrol Officers, and Nurse Practitioners.

Learn more about career options at: www.dbqschools.org/career-exploration

Program Admission Requirements:

- Must be at least 17 years of age by the first day of class to enroll.
- CPR Certificate from either the American Heart Association Basic Life Support (BLS) or the American Red Cross CPR for Healthcare Providers. The card must be provided to the instructor prior to the first class. This certification must be valid for the duration of the course.
- Other admissions requirements apply, including but not limited to background checks, health records, and drug testing.

Students are responsible for required background check fee and TB skin test fees, uniform and supplies and the optional state licensure exam fee. Students are responsible for their own transportation to labs and clinicals.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 8 college credits at NICC. Due to college registration deadlines, late registrations will be scheduled into second semester if space is available. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.
PERSONAL AND FAMILY RELATIONSHIPS

Personal and Family Relations will promote choices that contribute to a healthy lifestyle and improve family and personal relationships. Students will explore health issues in an informed and non-threatening way – issues like tobacco, alcohol, drugs, AIDS and STIs, pregnancy, suicide, sexual assault, stress, mental health, personality and self-esteem awareness, violence, and diversity. There is an emphasis on responsible behavior to oneself and to others.

Alignment to the Iowa Core 21st Century Skills: Communicate and work productively with others, incorporating different perspectives and cross cultural understanding, to increase innovation and the quality of work. (21.9-12.ES.1)

FOODS I - INTRODUCTION TO CULINARY

Foods I will develop skills in food preparation. Students will explore food selection, purchasing, preparation, safety and sanitation, and careers. Lab work will promote nutrient retention, culinary techniques, quality food product, and maximize the use of time and financial resources. Lab experience will develop teamwork, cooperation, communication, and negotiation by preparing recipes with fruits and vegetables, dairy products, eggs, and other foods.

Alignment to the Iowa Core 21st Century Skills: Adapt to various roles and responsibilities and work flexibly in climates of ambiguity and changing priorities. (21.9-12.ES.2)
### CULINARY I
**FCS124**
- **Duration:** semester course
- **CREDITS:** 1
- **OPEN TO:** all students
- **PREREQUISITE:** Foods I - Introduction to Culinary

Culinary I will build upon the skills of Foods I - Introduction to Culinary and develop advanced skills in food preparation and nutrition. Lab participation will promote baking skills, protein cooking techniques, dietary needs, and careers. Lab experience will also develop teamwork, cooperation, communication, and negotiation.

Alignment to the Iowa Core 21st Century Skills: Demonstrate productivity and accountability by meeting high expectations. (21.9-12.ES.5)

### CULINARY II
**FCS223**
- **Duration:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** Culinary I

Culinary II will build upon the skills of Culinary I and will promote advanced culinary techniques. Students will explore foods, diet, etiquette and customs of different cultures and will relate the history, geography, and climate of a region to the foods they eat. Labs will provide opportunities to prepare and taste foods from around the world.

Alignment to the Iowa Core 21st Century Skills: Demonstrate leadership skills, integrity, ethical behavior, and social responsibility while collaborating to achieve common goals. (21.9-12.ES.3)

### CHILD HEALTH, SAFETY & NUTRITION
**FCS235**
- **Duration:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** none

This course addresses the interrelationship of health, safety, and nutrition to the growth and development of young children (age 2-5) and their importance in developing early childhood educational experiences. Learning activities center around the conditions affecting children’s health, management of acute and chronic illness, general safety principles in planning the young child’s environment, nutrient composition of foods, and the relationship of nutrients to growth, motor cognitive and emotional development of the young child.

COMMENT: This course is credited towards a degree in early childhood education at NICC and their affiliated schools. This is a concurrent enrollment course in which the student will receive 3 college credits in addition to high school credit. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

### INFANT / TODDLER CARE & EDUCATION
**FCS245**
- **Duration:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** none

This course emphasizes the growth and development of infants and toddlers and issues critical to their care. Concentration is focused on their social, emotional, physical, and mental development. Age appropriate practices, curriculum, and environments will be studied and developed to enhance the preparation of the early childhood educator.

COMMENT: This course is credited towards a degree in early childhood education at NICC and their affiliated schools. This is a concurrent enrollment course in which the student will receive 3 college credits in addition to high school credit. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

### EARLY CHILDHOOD CURRICULUM I
**FCS255**
- **Duration:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** none

This course focuses on the development, implementation, and assessment of age appropriate environments and curricula for young children ages 3-8 years. Learning activities will focus on developing appropriate learning opportunities, interactions and environments within the areas of dramatic play, art, music, and small and large muscle motor play. Students will be expected to demonstrate their understanding of children’s developmental stages through the creation of age appropriate practices and/or curriculum.

COMMENT: This course is credited towards a degree in early childhood education at NICC and their affiliated schools. This is a concurrent enrollment course in which the student will receive 3 college credits in addition to high school credit. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

### CHILD GROWTH & DEVELOPMENT
**FCS275**
- **Duration:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** none

This course reviews typical and atypical development of children from conception to adolescence in all developmental domains. Interactions between child, family, and society with a variety of community and cultural contexts will be examined, as well as theories and evidence based practices associated with understanding and supporting young children.

COMMENT: This course is credited towards a degree in early childhood education at NICC and their affiliated schools. This is a concurrent enrollment course in which the student will receive 3 college credits in addition to high school credit. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.
**ENGINEERING DRAFTING & DESIGN I**

<table>
<thead>
<tr>
<th>INT115</th>
<th>Duration: semester course</th>
<th>CREDITS:</th>
<th>1</th>
<th>OPEN TO:</th>
<th>all students</th>
<th>PREREQUISITE:</th>
<th>none</th>
</tr>
</thead>
</table>

Engineering Drafting and Design I is a semester-long class with two areas of emphasis. The first portion of the semester will be focused on engineering technical drafting done with a 3-D modeling engineering design program. Students will design 3-dimensional models on the computer using industry standard engineering design software. Students will design on the computer and print those designs on a 3-D printer. The second portion of the course will be focused on architectural drafting. Students design homes on the computer using industry standard residential architectural software. The students will conclude the course with the design of a home blueprint. This class serves as the prerequisite for Engineering Drafting and Design II.

Alignment to the Iowa Core 21st Century Skills: *Demonstrate a sound understanding of technology concepts, systems, and operations. (21.9-12.TL.6)*

**WOODWORKING**

<table>
<thead>
<tr>
<th>INT117</th>
<th>Duration: semester course</th>
<th>CREDITS:</th>
<th>1</th>
<th>OPEN TO:</th>
<th>all students</th>
<th>PREREQUISITE:</th>
<th>none</th>
</tr>
</thead>
</table>

This is an introductory course in which students will be taught the basic skills of woodworking. Topics include: joinery, identifying the different types and species of woods, and the processes used to produce a project. Students will be instructed in the proper and safe operation of equipment and tools used in the laboratory. A large portion of the class is hands-on, where students will independently work on projects as directed by the instructor. This course is a prerequisite for Advanced Woodworking.

Alignment to the Iowa Core 21st Century Skills: *Adapt to various roles and responsibilities and work flexibly in climates of ambiguity and changing priorities. (21.9-12.ES.2)*

**MANUFACTURING**

<table>

<th>INT123</th>
<th>Duration: semester course</th>
<th>CREDITS:</th>
<th>1</th>
<th>OPEN TO:</th>
<th>all students</th>
<th>PREREQUISITE:</th>
<th>Metals</th>
</tr>
</thead>
</table>

This course builds on skills learned in Metals class. Students will expand their understanding in the areas of the machining processes, math, measurement and problem solving skills that will be used throughout the course. CNC machining, Plasma Cam, design, and the introduction of welding processes will also be used to manufacture a variety of projects. This course gives students a solid background in the processes used in Metalworking and Manufacturing Industries.

Alignment to the Iowa Core 21st Century Skills: *Demonstrate initiative and self-direction through high achievement and lifelong learning while exploring the ways individual talents and skills can be used for productive outcomes in personal and professional life. (21.9-12.ES.4)*

**AUTO CARE & MAINTENANCE**

<table>
<thead>
<tr>
<th>INT213</th>
<th>Duration: semester course</th>
<th>CREDITS:</th>
<th>1</th>
<th>OPEN TO:</th>
<th>sophomores, juniors, seniors</th>
<th>PREREQUISITE:</th>
<th>none</th>
</tr>
</thead>
</table>

Auto Care is a class designed for everyone who plans to drive and own a vehicle. The class explores all facets of the automobile. Diagnostic and repair techniques are lab activities associated with this class. Dealing with emergencies and making educated decisions concerning automotive problems are benefits derived from successful completion of this class.

Alignment to the Iowa Core 21st Century Skills: *Demonstrate a sound understanding of technology concepts, systems, and operations. (21.9-12.TL.6)*

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.
### AUTO DIAGNOSTICS

**INT215**
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** Auto Care & Maintenance

Auto Diagnostics is a course designed for students who are serious about understanding modern automobiles. Hands-on experiences with tools and equipment are incorporated into lab activities exploring various automobile systems, including fuel and emission systems, ignition and electrical. Students use diagnostic equipment and learn recommended repair replacement and adjustment techniques. Students will be able to understand and appreciate the complexity of modern automobiles. Students will be familiar with systems components and be experiencing doing basic trouble shooting techniques.

Alignment to the Iowa Core 21st Century Skills: Demonstrate a sound understanding of technology concepts, systems, and operations. (21.9-12.TL.6)

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.

### AUTO CHASSIS & DRIVE TRAINS

**INT217**
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** Auto Care & Maintenance

The chassis course is designed for all students who find a need to further their knowledge about the automobile and want to learn how the drive train components work together to help the car perform safely and as designed. The course is designed to help students diagnose repairs needed, and service a car’s brake, steering, suspension and drive train systems. Lab activities will include: tire mounting and balancing, flat tire repair, disc and drum brakes service, shock absorber, spring, strut, and suspension parts replacement, and wheel alignment.

Alignment to the Iowa Core 21st Century Skills: Demonstrate a sound understanding of technology concepts, systems, and operations. (21.9-12.TL.6)

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.

### SMALL ENGINE REPAIR

**INT223**
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** all students
- **PREREQUISITE:** none

Small Engine Repair class deals with all facets of small engine application including lawn mowers, cycles, snowmobiles, outboards, and power saws. Hand and power tool use, as well as personal safety are skills associated with completion of this class. Small engine theory (two and four cycle), maintenance, tune-up, diagnostics and overhaul are all concepts associated with class activities. Students enrolled in this course will also learn about careers as a diesel technician through a partnership with Truck Country.

Alignment to the Iowa Core 21st Century Skills: Demonstrate a sound understanding of technology concepts, systems, and operations. (21.9-12.TL.6)

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.

### ELECTRICITY / ELECTRONICS

**INT323**
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** all students
- **PREREQUISITE:** none

Knowledge of electricity is the foundation of understanding all modern personal electronic devices. The electricity units of this course will focus on both alternating and direct current. Students will learn the design process of developing ciruity. They will develop teamwork and communication methods and produce technical documentation.

Students will contrast analog electronics, where information is represented by continuously varying voltage and digital electronics where signals are represented by two discreet voltages or logic levels. This distinction allows for greater understanding of signal speed and storage capabilities and has revolutionized the world of electronics. Students will analyze, design and build digital electronic circuits.

During the course of the semester, students will learn through research as well as activities the basics of solid state electronics.

Alignment to the Iowa Core 21st Century Skills: Demonstrate a sound understanding of technology concepts, systems and operations. (21.9-12.TL.6)

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.

### METALS

**INT332**
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** all students
- **PREREQUISITE:** none

This course will cover basic processes in welding, sheet metal, bench metal, machining, foundry, and CNC. Students will do a variety of activities in the preceding areas with some leading to take-home projects and others offering opportunities to do maintenance and repair demonstrating their newly learned skills and knowledge. Students will learn processes for working with metals from raw materials to end, usable products.

Alignment to the Iowa Core 21st Century Skills: Demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology. (21.9-12.TL.1)

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.
This is an introductory machining course presenting basic machining operations. Students will perform basic operations on lathes, horizontal and vertical axis milling machines, drilling machines, saws, various types of grinders, and precision measuring equipment.

Alignment to the Iowa Core 21st Century Skills: Demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology. (21.9-12.TL.1)

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 3 college credits at NICC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

**ADVANCED WOODWORKING**

INT383  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** sophomores, juniors, seniors  
**PREREQUISITE:** Woodworking or instructor approval

Advanced Woodworking is a one-semester course that is project based and activity oriented. The course focuses on advanced joinery and processes utilized in the woodworking industry. It is designed for all students interested in developing quality design, machining, construction, and finishing techniques. Excellence is the key factor stressed in project development and is evident as your project moves from an idea to the finished product. This class is intended to prepare the student for a variety of future life situations from consumerism to entering the workforce directly. Students will develop an appreciation for craftsmanship through the creation of their projects. Instruction, demonstrations and guidance as to the safe operation of all woodworking tools and equipment will be used during this course will be provided.

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.

**CONSTRUCTION I**

INT385  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** none

Construction I provides students with the opportunity to explore a wide variety of construction techniques related to residential construction and related career opportunities. This course will teach proper safety and application of tools. Students will learn starting from the ground up: footers/foundations, walls, floor plans, wall framing, wall coverings, and related components. Mathematical components and equations will be applied to the construction process.

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.

**CONSTRUCTION II**

INT387  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** Construction I

In this course, students will be learning the completion of the house which may include: exterior finishing, electrical, plumbing, heating, room layout, insulation, wall covering, floor covering and trim work. Mathematical components and equations will be applied to the construction process.

COMMENT: One pair of safety glasses will be provided. A fee may be assessed for material consumed.
### CONSTRUCTION II LAB

**INT395 (Sem 1), INT396 (Sem 2)**  
**DURATION:** year course  
**CREDITS:** 4  
**OPEN TO:** juniors and seniors  
**PREREQUISITE:** Construction I and II; First Aid/CPR certification

This course covers aspects of residential construction and/or small commercial type structures in both the laboratory and classroom. Students will gain knowledge of the construction trade, materials used, hand and power tools, floor systems, wall and ceiling framing, roof framing, windows and exterior doors. The course provides practical instruction and hands-on learning in safe/proper tool usage. Involvement in realistic practical construction projects will influence the scheduling of these activities as well as necessitate inclusion of experiences related to the occupation. This course meets for two periods daily.

**COMMENT:** One pair of safety glasses will be provided. Students are responsible for their own transportation to NICC and the construction site. A fee may be assessed for material consumed. This is a concurrent enrollment course. In addition to high school credit, students will earn 11.5 credits at NICC.

### ENGINEERING I

**INT401**  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** none

In Engineering I, students will gain an understanding of engineering and scientific concepts through units based on various engineering fields such as aerospace engineering, mechanical engineering, civil engineering, and finding solutions of engineering design problems. The course exposes students to design process, research and analysis, teamwork, communication methods, global and human impacts, engineering standards, and technical documentation. Engineering I gives students the opportunity to develop skills and understanding of course concepts through activity, project, and problem-based learning.

In addition, students utilize 3D solid modeling design software and various tools to help them design solutions to solve proposed problems. Students will develop problem solving skills and apply their knowledge of research and design to create solutions to various challenges that increase in difficulty throughout the course. Students will also learn how to document their work and communicate their solutions to their peers and members of the professional community.

**Alignment to the Iowa Core 21st Century Skills:**  
Demonstrate critical thinking skills using appropriate tools and resources to plan and conduct research, manage projects, solve problems and make informed decisions. (21.9-12.TL.4)

### ENGINEERING II

**INT402**  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** Engineering I or instructor approval

Engineering II builds on principles learned in Engineering I to gain a deeper understanding of the design process, research and analysis, engineering concepts, and technical documentation. Students will encounter major themes and concepts brought up in post-secondary engineering and technical course studies.

Engineering II employs automation and robotics to allow students to apply skills gained in class to build physical prototypes and complete automated tasks using programmable technology. Students will develop a deeper understanding of engineering processes by building on modern manufacturing practices and theories such as Six Sigma, Just in Time, and Continuous Improvement. While producing projects, students will be able to use manufacturing practices and concepts to design for efficiency and manufacturability. Students will continue to grow in communication and documentation skills that will allow them to discuss technical solutions to problems with peers and professionals.

**Alignment to the Iowa Core 21st Century Skills:**  
Demonstrate critical thinking skills using appropriate tools and resources to plan and conduct research, manage projects, solve problems and make informed decisions. (21.9-12.TL.4)

### ENGINEERING DRAFTING & DESIGN II

**INT413**  
**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** Engineering Drafting & Design I

This course will teach students computer 2D, 3D, and solid modeling techniques used in mechanical drafting. It is also designed to take a closer look at the Engineering Design software. The design software is used by thousands of engineers who work in the industry today, and students in this class will have the opportunity to learn the same techniques as those engineers. Students in this class will be solving engineering problems through design, creating their own 3-D computer models, reverse engineering problem solving, and 3-D printer experiences.

**Alignment to the Iowa Core 21st Century Skills:**  
Demonstrate a sound understanding of technology concepts, systems, and operations. Demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology.

**COMMENT:** A fee may be assessed for materials consumed.
ARCHITECTURAL DESIGN

INT433
DURATION: semester course
CREDITS: 1
OPEN TO: all students
PREREQUISITE: none

This course is intended for students who want to be an architect, designer/builder, carpenter/contractor or an interior designer. It is designed to help students learn about the design of buildings, building layouts, structural and visual components, design processes, CAD software packages, career opportunities in architecture and construction, and more. During the course the student will design and draw his/her own single-family residence. This set of plans will include a floor plan, elevations, plot plans, presentation drawings, plus special details. Students will also be working on 3-D rendering of the inside and the outside of the house so students would be able to virtually walk through their house design.

Alignment to the Iowa Core 21st Century Skills: Demonstrate productivity and accountability by meeting high expectations. (21.9-12.E.S.5)

Students who are enrolled in this class are eligible for an apprenticeship with John Deere, Unison Solutions, Universal Tank and Fabrication, or a new partner business with the newly created Welding Registered Apprenticeship Program. Contact your instructor for further details.

INTRODUCTION TO PROFESSIONAL WELDING

INT501 (Sem 1), INT502 (Sem 2)
DURATION: year course
CREDITS: 4
OPEN TO: sophomores, juniors, seniors
PREREQUISITE: Welding or instructor approval

This portion of the Introduction to Professional Welding course provides students with an orientation to the welding profession and will cover the basics of safety and health within the welding profession. Students who participate in this course will have the opportunity to become OSHA 10 certified by enrolling in an online 10-hour training program and passing the OSHA 10 exam.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 1 college credit at NICC. One pair of safety glasses and other required safety apparel will be provided. A fee may be assessed for material consumed. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

WELDING SAFETY
NICC Concurrent College Class (WEL:228)

This portion of the Introduction to Professional Welding course provides students with an orientation to the welding profession and will cover the basics of safety and health within the welding profession. Students who participate in this course will have the opportunity to become OSHA 10 certified by enrolling in an online 10-hour training program and passing the OSHA 10 exam.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 1 college credit at NICC. One pair of safety glasses and other required safety apparel will be provided. A fee may be assessed for material consumed. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

WELDING BLUEPRINT READING
NICC Concurrent College Class (WEL:110)

This portion of the Introduction to Professional Welding course introduces students to the concept and practice of blueprint interpretation as needed by welders in an industrial setting. Emphasis is on the basics of interpretation and application in specific situations.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 2.0 college credits at NICC. One pair of safety glasses and other required safety apparel will be provided. A fee may be assessed for material consumed. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

BASIC GAS METAL ARC WELDING
NICC Concurrent College Class (WEL:433)

This portion of the Introduction to Professional Welding course provides students with an introductory study of short-circuit gas metal arc welding (GMAW) and other related processes. Students study process variation, welding in various positions, principles of operation, shielding gases, and wires. The course stresses safety and practical application of these welding processes.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 3.5 college credits at NICC. One pair of safety glasses and other required safety apparel will be provided. A fee may be assessed for material consumed. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

FLAME/PLASMA CUTTING FUNDAMENTALS
NICC Concurrent College Class (WEL:434)

This portion of the Introduction to Professional Welding course is a study of the history and principles of material cutting, as well as the nomenclature of the equipment. Procedures such as positional welding, cutting, beveling plates, and scarfing plates are practiced.

COMMENT: This is a concurrent enrollment course. In addition to high school credit, students will earn 1.5 college credits at NICC. One pair of safety glasses and other required safety apparel will be provided. A fee may be assessed for material consumed. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

Alignment to the Iowa Core 21st Century Skills: Demonstrate productivity and accountability by meeting high expectations. (21.9-12.E.S.5)

Students who are enrolled in this class are eligible for an apprenticeship with John Deere, Unison Solutions, Universal Tank and Fabrication, or a new partner business with the newly created Welding Registered Apprenticeship Program. Contact your instructor for further details.
DIESEL TECHNICIAN I

INT701 (Sem 1)
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** juniors and seniors
- **PREREQUISITE:** completion of at least two of the following: Auto Care and Maintenance, Auto Diagnostics, Auto Chassis and Drive Trains and/or Small Engine Repair
- **RECOMMEND:** Welding, Electricity/Electronics

This course is intended for students who want to explore a career as a **Truck Mechanic and Diesel Engine Technician**. It is designed to help students learn how to diagnose, adjust, repair, or overhaul heavy duty trucks or maintain and repair any type of diesel engines. It includes in introduction to careers as mechanics and technicians primarily working with diesel engines, diesel exhaust systems, diesel transmissions, HVAC, and electronic systems.

Learn more about career options at: [www.dbqschools.org/career-exploration](http://www.dbqschools.org/career-exploration)

DIESEL TECHNICIAN II

INT702 (Sem 2)
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** juniors and seniors
- **PREREQUISITE:** INT701

MULTIMEDIA

ISS121
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** all students
- **PREREQUISITE:** none

In Multimedia, students will explore photo editing, web design, audio/video editing and video game design. Multimedia introduces media platforms used throughout many 21st century careers. Students gain technology literacy skills necessary for current and future academic and career success. Using industry relevant software students will learn what it means to be effective digital citizens, including digital footprint & reputation, privacy & security, information literacy, and Internet safety. All photo editing, web design, audio/video editing and video game design units are to help students choose and explore the 21st century technology that most aligns with future goals and current interests.

Alignment to the Iowa Core 21st Century Skills: Iowa Core Career and Technology Literacy Skills

COMPUTER SCIENCE PRINCIPLES I

ISS131
- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** all students
- **PREREQUISITE:** none

Computer Science Principles I introduces students to the foundational concepts of computer science and challenges them to explore how computing and technology can impact the world. This course was designed with the goal of creating leaders in computer science fields and attracting and engaging those who are traditionally underrepresented with essential computing tools and multidisciplinary opportunities. Topics include: the internet, digital information, java script programming, and big data and privacy.
FUNDAMENTALS OF WEB DESIGN
ISS701
- Duration: semester course
- Credits: 1
- Open to: sophomores, juniors, seniors
- Prerequisite: none

Introduces the student to the basics of the creation and maintenance of Web pages. The hypertext markup language is used in the creation of Web pages. Good screen layout and design principles are stressed. The use of application software to create web pages is discussed. Enhancements and extensions of HTML as well as the incorporation of scripting in creating web pages will be explored.

Alignment to the Iowa Core 21st Century Skills: Demonstrate a sound understanding of technology concepts, systems, and operations.

COMPUTER ETHICS
ISS702
- Duration: semester course
- Credits: 1
- Open to: sophomores, juniors, seniors
- Prerequisite: none

This course provides a study of ethics and moral philosophy as a means for providing a framework for ethically grounded decision making in the information age. Students will study current regulation and practices pertaining to professional conduct and responsibility.

Alignment to the Iowa Core 21st Century Skills: Understand human, cultural, and societal issues related to technology and practice legal and ethical behavior. (21.9-12.TL.5)
EMPLOYABILITY SKILLS WITH JOB SHADOWING

WBL300

- **Duration:** semester course
- **Credits:** 1
- **Open to:** sophomores, juniors, seniors
- **Prerequisite:** none

This course is designed to assist students in illustrating the skills necessary to obtain employment by aligning career goals with education plans and practice the skills and attitudes required for job success. Students will complete an inventory, practice resume writing, interviewing techniques, and work-place problem solving strategies. Networking with local employers and learning about local employment opportunities will be a key course component.

Students in this course will explore a field of interest while developing research skills, professionalism, and building occupational knowledge. Students will visit workplaces of interest to learn about specific jobs and professional requirements, and to develop a basic knowledge of the organization’s structure and values.

**COMMENT:** This is a concurrent enrollment course. In addition to high school credit, students will earn 4 college credits at NICC. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits. This course will be offered in the Fall semester.

INTERNSHIP

WBL401

- **Duration:** semester course
- **Credits:** 1
- **Open to:** juniors and seniors
- **Prerequisite:** none

**Recommend:** successful completion of Employability Skills with Job Shadowing

Internship provides students the opportunity to learn and apply valuable skills related to their future education and career goals.

Students will learn about business careers of their interest, receive support in attaining employment, apply career skills, and reflect weekly in a classroom setting. Internship positions are either paid or non-paid, providing students the opportunity to $earn$ while they learn! Students will work with employers, parents, and the instructor to develop a training agreement that goes beyond the typical entry-based worker experience to provide students with an overview of all aspects of industry within the organization for which they are employed.

**COMMENT:** Internship will meet daily during for the first two weeks. Thereafter, students who have gained employment with a training agreement will only meet once per week until the final two weeks of class. Must provide own transportation to work-site. This course will be offered in the Spring semester.

PRACTICAL WORK EXPLORATORY

XSM153

- **Duration:** semester course
- **Credits:** 1
- **Open to:** all students
- **Prerequisite:** placement based on assessment and instructor recommendation

Practical Work Exploratory is a semester long course designed for students that are placed on a non-paid part-time job in school or out in the community for a minimum of 4 hours per week. This course will assist students with exploring their potential career interest areas while at the same time, helping to develop the required soft skills necessary for any type of employment. The Work Experience Coordinator will visit the job sites monthly for evaluation of student performance in accordance with the training agreement. During the evaluation meeting, they will develop the competencies necessary for the student to survive and prosper in the work environment. The goal will be to identify and describe ways to develop the student’s personal/social/occupational competencies and to allow the student to explore interest areas. Units of study will include employment skills, customer service skills, decision-making skills, labor laws for minors under 18, occupational safety training, how to properly leave a job, and career exploration. This course may be repeated for additional credit(s).

PRACTICAL WORK EXPERIENCE

XSM154

- **Duration:** semester course
- **Credits:** 1
- **Open to:** all students
- **Prerequisite:** placement based on assessment and instructor recommendation

Practical Work Experience is a semester long course designed for students that are placed on a paid part-time job in school or out in the community for a minimum of 10 hours per week. This course will assist students in gaining access to competitive employment by offering training in job skills and providing a flexible learning environment suited to student needs. The Work Experience Coordinator will visit the job sites monthly for evaluation of student performance in accordance with the training agreement. During the evaluation meeting, they will develop the competencies necessary for the student with special needs to survive and prosper in the work environment. The goal will be to identify and describe ways to develop the student’s personal/social/occupational competencies. Units of study will include employment skills, customer service skills, decision-making skills, payroll deductions/stubs, labor laws for minors under 18, occupational safety training, income taxes training, how to properly leave a job, and career exploration. This course may be repeated for additional credit(s).
PRACTICAL CAREER SKILLS I

**XSM551**

**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** freshmen and sophomores  
**PREREQUISITE:** placement based on assessment and instructor recommendation

Career Skills I is a semester long course designed to develop the competencies necessary for the student with special needs to survive and prosper in the work environment. The goal will be to identify and describe ways to develop the student’s personal/social/occupational competencies. Units of study will include communication skills, decision making skills, setting & achieving goals, conflict resolution, problem solving, organization and time management.

PRACTICAL CAREER SKILLS II

**XSM552**

**DURATION:** semester course  
**CREDITS:** 2  
**OPEN TO:** juniors and seniors  
**PREREQUISITE:** placement based on assessment and instructor recommendation

Career Skills II is a semester long course designed to develop the competencies necessary for the student with special needs to survive and prosper in the work environment. In Career Skills II, students identify and develop individual short term and long term career planning goals. Units of study will include planning for higher education, job research, networking, job applications, interviewing, communicating on the job, work ethic, job advancement and managing your finances. The course will end with a student planned service learning project.

PRACTICAL TRANSITION PLANNING

**XSM558 (Sem 1), XSM559 (Sem 2)**

**DURATION:** year course  
**CREDITS:** 2  
**OPEN TO:** juniors and seniors  
**PREREQUISITE:** placement based on assessment and instructor recommendation

Practical Transition Planning is a year-long course designed to develop the competencies necessary for the student to develop the skills necessary to live as independently as possible. Instruction will be driven by the transition areas of living, learning, working as written in student’s IEP’s. Topics may include: housing options, financial planning, career readiness, basic money skills, insurance, investing, and self-determination skills. Skills will be generalized through community experiences to facilities such as: department of housing, utility offices, hospitals and banking.

FINE ARTS

**CREDITS REQUIRED FOR GRADUATION**  
**2 credits** are required for graduation from the Dubuque Community School District.  
Credits earned beyond the requirement are automatically counted as Elective credits.

ART 2D (2 DIMENSIONAL)

**ART 113**

**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** none

In this introductory course students will become familiar with and learn how to use the elements of visual design, a variety of materials, processes and techniques. Drawing, painting, and printmaking are explored. Students should anticipate a studio-based art class which may include creative problem solving, sketchbook studies, production of artwork, critiques, self-evaluation, readings, note taking, tests, and quizzes. Also introduced in the class are historical and contemporary trends in art, which are explored through visual examples. It is highly recommended to enroll in Art 2D in addition to Art 3D to gain a more complete understanding of art concepts and skills needed to be successful in the advanced art courses.

**ART 114**

**DURATION:** semester course  
**CREDITS:** 1  
**OPEN TO:** all students  
**PREREQUISITE:** none

In this introductory course students will become familiar with and learn how to use the elements of visual design, a variety of materials, processes and techniques. Ceramics and other sculpture materials are explored. Students should anticipate a studio-based art class which may include creative problem solving, production of artwork, critiques, self-evaluation, readings, note taking, tests, and quizzes. Also introduced in the class are historical and contemporary trends in art, which are explored through visual examples. It is highly recommended to enroll in Art 2D in addition to Art 3D to gain a more complete understanding of art concepts and skills needed to be successful in the advanced art courses.

ADVANCED ART 2D (2 DIMENSIONAL)

ART211 (Sem 1), ART212 (Sem 2)

- **DURATION:** year course
- **CREDITS:** 2
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** Art 2D

Advanced Art 2D is a continuation and expansion of Art 2D. Emphasis is placed on in-depth studies in: visual design, observational studies, drawing, painting and printmaking. Units will continue to focus on concept development, and the elements and principles of design to generate original compositions and designs. Subject matter may include, but is not limited to, the human figure, organic forms, landscape, and everyday objects. Historical and contemporary trends in art will continue to be explored. Students should anticipate a studio-based art class, which may include creative problem solving, sketchbook studies, production of artwork, critiques, self-evaluation, research, readings, note taking, tests, and quizzes.

COMMENT: This course is designed as a full year course. Students may opt to complete only one semester, however, first semester is a prerequisite for the second semester of the course.

ART 2D: PORTFOLIO

ART217 (Sem 1), ART218 (Sem 2)

- **DURATION:** year course
- **CREDITS:** 2
- **OPEN TO:** juniors and seniors
- **PREREQUISITE:** Art 2D, Advanced Art 2D

This course allows interested students to do in-depth exploration and study of two-dimensional concepts. Students will reflect and build upon previous concepts, techniques, and art history gained in Advanced Art 2D and propose innovative ideas to generate original/creative artwork. Focus will be on portfolio development. Students selecting this class should have a strong interest and understanding of two-dimensional concepts. Students will develop a diverse body of work for their two-dimensional art portfolio.

Alignment to the 2014 National Core Art Standards for Visual Arts: Creating, Presenting, Responding, and Connecting.

COMMENT: This course may be repeated with advanced learning goals in techniques, concepts and art history.

ADVANCED ART 3D (3 DIMENSIONAL)

ART221 (Sem 1), ART222 (Sem 2)

- **DURATION:** year course
- **CREDITS:** 2
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** Art 3D (Art 2D recommended)

Advanced Art 3D is a continuation and expansion of Art 3D. Emphasis is placed on in-depth studies in: three-dimensional visual design, ceramics, and sculpture materials and processes. Units will continue to focus on the elements and principles of design to generate original compositions. Historical and contemporary trends in art will continue to be explored. Students should anticipate a studio-based art class which may include creative problem solving, production of artwork, readings, critiques, self-evaluation, research, note taking, tests and quizzes.

Alignment to the 2014 National Core Art Standards for Visual Arts: Creating, Presenting, Responding, and Connecting.

COMMENT: This course is designed as a full year course. Students may opt to complete one semester only. It is highly recommended to enroll in Art 2D prior to taking Advanced Art 3D to gain a more complete understanding of art concepts and skills needed to be successful in the Advanced Art 3D course.

PHOTOGRAPHY 1

ART223

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** none

Students will experience photography in a studio-based setting through a series of activities and projects including construction and operation of a pinhole camera, discussion of features common to both film and digital techniques, hands-on experience with processing black and white negatives and prints, working with photo chemicals, camera operations, and darkroom processes. Activities may include an introduction to the history of photography, photographic careers and post-secondary educational possibilities.

Students should anticipate an introduction to photographic design elements/composition, and creative assignments resulting in the presentation of photographs. Assessments will include self and teacher evaluations, critiques, quizzes, and tests. Class requires a high level of student self-direction regarding studio work time, readings, note taking and refinement of creative ideas.

Alignment to the 2014 National Core Art Standards for Visual Arts: Creating, Presenting, Responding, and Connecting.

COMMENT: Camera work is required to be completed outside of school.
### ART 3D: PORTFOLIO

**ART227 (Sem 1), ART228 (Sem 2)**

- **DURATION:** year course
- **CREDITS:** 2
- **OPEN TO:** juniors and seniors
- **PREREQUISITE:** Art 3D, Advanced Art 3D

This course allows interested students to do in-depth exploration and study of three-dimensional concepts. Students will reflect and build upon previous concepts, techniques, and art history gained in Advanced Art 3D and propose innovative ideas to generate original/creative artwork. Focus will be on portfolio development. Students selecting this class should have a strong interest and understanding of three-dimensional concepts. Students will develop a diverse body of work for their three-dimensional art portfolio.

Alignment to the 2014 National Core Art Standards for Visual Arts: Creating, Presenting, Responding, and Connecting.

**COMMENT:** This course may be repeated with advanced learning goals in techniques, concepts and art history.

### PHOTOGRAPHY 2: ADVANCED

**ART233**

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** sophomores, juniors, seniors
- **PREREQUISITE:** Photography 1: Basic

Photography 2: Advanced builds on the skills and creative abilities learned in Photo 1. Students will experience more complex approaches to photographic image creation, advanced printing and presentation techniques. Students should anticipate creative problem solving, multiple image assignments, a deeper look into photo history and photographers and use of a variety of photo equipment and formats. Assessments will include: self and teacher evaluation, critiques, and quizzes. Students will engage in continued discussions, comparisons and contrasts between 35mm and digital photographic mediums.

Alignment to the 2014 National Core Art Standards for Visual Arts: Creating, Presenting, Responding, and Connecting.

**COMMENT:** Camera work is required to be completed outside of school.

### PHOTOGRAPHY 3: PORTFOLIO

**ART623**

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** juniors and seniors
- **PREREQUISITE:** Photography 1: Basic, Photography 2: Advanced and instructor recommendation

Photography 3: Portfolio is an elective, advanced semester of photography. This course allows interested students to do in-depth exploration and study in the area of photography. The class is based on traditional black and white photographic techniques, most of which readily transfer to digital photography. Emphasis is placed on extended projects, concept development as well as advanced photographic techniques. Students should anticipate hands-on projects, demonstrations, readings, writing, quizzes, portfolio development and class exhibitions. Students selecting this course should have a strong interest and abilities in photography and the ability to work independently.

Alignment to the 2014 National Core Art Standards for Visual Arts: Creating, Presenting, Responding, and Connecting.

**COMMENT:** Camera work is required to be completed out of school. This course may be repeated with advanced learning goals in camera and darkroom techniques and art history and a focus on portfolio development and presentation.

### COMPUTER ESSENTIALS

**BUS121**

- **DURATION:** semester course
- **CREDITS:** 1
- **OPEN TO:** all students
- **PREREQUISITE:** none

Computer Essentials provides students with essential technology literacy skills for current and future academic and career success. The course begins with an introduction to Microsoft Office 365--the most commonly used software in the business world--and its various applications.

The course then takes students into an in-depth exploration of Microsoft Office 365. Students will learn about various Office 365 tools such as Word, PowerPoint, Excel, OneNote, Mail, Calendar, Onedrive, Forms, and To Do. Throughout the course, students will learn what it means to be effective digital citizens, including digital footprint & reputation, privacy & security, information literacy, and Internet safety.

Comment: Students who participate in this course will have the opportunity to become Microsoft Word and/or Microsoft Excel certified by passing a supervised exam through Certiport. Passing the exam will certify the student as a Microsoft Office Specialist and better prepare students for college and careers.

Alignment to the Iowa Core Curriculum: Iowa Core Career and Technology Literacy Skills
### Advanced Speech
**ENG154**
- **Duration:** semester course
- **Credits:** 1
- **Open To:** all students
- **NCAA:** approved
- **Prerequisite:** Speech and instructor recommendation

Students will be given the opportunity to advance training in communication arts. Students will actively participate in units such as special occasion speaking, debate (traditional and/or Lincoln/Douglas), oral interpretation of literature, contest speaking events, mass media, persuasive speaking, researching, writing, outlining, organizing and presenting speeches. Students will learn how to apply technology to communication situations.

Alignment to the Iowa Core Curriculum: *Iowa Core Career and Technology Literacy Skills*

### Theatre
**ENG163**
- **Duration:** semester course
- **Credits:** 1
- **Open To:** all students
- **NCAA:** approved
- **Prerequisite:** none

Students will have the opportunity to explore the world of theatre onstage and backstage. The course is designed to introduce students to all aspects of the theatre through the study of acting, improvisation, technical theatre, design and theatrical conventions. By the end of the semester, students will be able to create and perform theatrical works, both scripted and unscripted.

Instruction, learning targets and assessments are based on alignment to the 2014 National Core Arts Standards in Theatre: Creating, Performing, and Responding.

### Advanced Theatre
**ENG164**
- **Duration:** semester course
- **Credits:** 1
- **Open To:** all students
- **NCAA:** approved
- **Prerequisite:** Theatre and instructor recommendation

Students will expand their understanding of the world of theatre, onstage and backstage. The course is designed to apply all aspects of theatre through the study of acting, technical theatre, design and theatrical conventions. By the end of the semester, students will write, direct and produce an original scripted performance for an audience.

Instruction, learning targets and assessments are based on alignment to the 2014 National Core Arts Standards in Theatre: Creating, Performing, Responding, and Connecting.

### Creative Writing
**ENG357**
- **Duration:** semester course
- **Credits:** 1
- **Open To:** juniors and seniors
- **NCAA:** approved
- **Prerequisite:** none

This course is for students who have mastered basic composition skills and wish to continue to stretch and challenge themselves as writers. Writing forms that may be explored include memoir, literary nonfiction, essay, poetry, and drama. All students will create a multi-genre research project.

Alignment to the Iowa Core Curriculum: *Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations from the Iowa Core Reading, Writing, Listening and Speaking Strands.*

### Film Appreciation I
**ENG365**
- **Duration:** semester course
- **Credits:** 1
- **Open To:** juniors and seniors
- **Prerequisite:** none

Film Appreciation I is a combination of viewing, written analysis and oral discussion of a variety of films spanning all decades and genres. Students are given an appreciation of the language of film and how films function as communication, entertainment and art. Discussion and writing activities will stress analysis, evaluation and comparison/contrast. In addition, students will be expected to use film concepts and vocabulary as they explore their understanding of this art form.

Alignment to the Iowa Core Curriculum: *Instruction, learning, and assessment are built primarily on the 11-12th grade-band expectations from the Iowa Core Writing and Language Strands.*

Students in this course will publish a yearbook that reflects the school community, acts as a public relations tool for the school district, and serves as an education vehicle for students. Students are responsible for planning, organizing, designing and publishing the school yearbook. Students are also responsible for journalistic writing, editing, and photography. Desktop publishing and photo editing programs will be used to produce a professional-looking publication. Students are also expected to approach the business community for advertising opportunities.

Students must apply for staff positions including completing an application, teacher recommendation, and portfolio. Students and parents must agree to a staff contract. Because interviews must be conducted and photos taken outside of class time, yearbook staff members must be willing to devote time after school to these responsibilities.

Alignment to the Iowa Core Curriculum: *Instruction, learning, and assessment are built on a selection of the 11-12th grade band expectations from the Iowa Core Writing Strand.*

COMMENT: This course may be repeated.

The focus of this course lies in the three central areas of video production: planning, production, and editing. Students will develop a comprehensive plan, shoot video, and edit both audio and video to produce a finished project. Students will be creating various films with provided video equipment and software. Projects may include music videos, green screen videos, documentaries, studio work, and short films.

Alignment to the Iowa Core Curriculum: *Demonstrate a sound understanding of technology concepts, systems, and operations.*

COMMENT: Course may be repeated as an independent study with instructor approval.
BAND

MUS111 (Sem 1), MUS112 (Sem 2)

DURATION: year course
CREDITS: 2
OPEN TO: all students
PREREQUISITE: none

Band is a two-semester, two-credit course that meets every day and provides students opportunities to study and perform within large and small instrumental ensembles and become lifelong learners of the arts. Students will participate in a variety of musical and aesthetic experiences through performance of music from a wide variety of styles, genres, cultures, and historical periods. Sectional and Chamber rehearsals take place as needed and guest artists are brought in to help teach in their area of expertise for large projects or advanced music. During the year, all students not currently taking private lessons outside of school will receive a private or small group twenty-minute lesson every two weeks. The following large ensembles make up the band program throughout the year:

· Marching Band
  This ensemble performs at all home football games (pre-game, pep-band, and halftime shows), as well as one parade and marching band competition throughout the fall. There will be additional marching band rehearsals during the pre-season summer camp and evenings throughout the fall.

· Symphonic Band
  This ensemble gives students the opportunity to expand the fundamentals of ensemble playing as well as developing an individual's responsibility within the ensemble. The Symphonic Band will perform several times during the year, including the Winter Concert, Spring Concert, Tri-II, Large Group Festival, and our Spring Concert as well as other opportunities throughout the year.

· Pep Band
  This group will perform at sports events and pep assemblies throughout the year as called by the director.

Alignment to the 2014 National Core Arts Standards for Music: Performing and Responding.

JAZZ BAND

MUS121 (Sem 1), MUS122 (Sem 2)

DURATION: year course
CREDITS: .8 (meets 2 days per week)
OPEN TO: all students
PREREQUISITE: enrollment in MUS111/MUS112 and audition or instructor recommendation

The Jazz Studies Program provides students with a comprehensive jazz education. Particular emphasis is given to jazz styles, genres, listening, improvisation, expression, and interaction. Emphasis is also placed on comprehension, analysis, synthesis, and application so students can become lifelong learners and consumers of jazz. Traditionally the instrumentation of a jazz band includes saxophones, trumpets, trombones, and rhythm section (piano, bass, guitar, and drums).

If there are enough students interested in this course of study we will provide two big band ensembles. The Jazz Band will perform several times throughout the year, including performances at school, community, district and state events. The jazz combo will provide opportunities for those students interested in learning more about the jazz idiom and improvisational skills. The following ensembles make up the jazz program:

· Jazz Band I
  Jazz Band I is an auditioned group of students who have demonstrated proficiency at sight-reading, aural, rhythmic, and improvisation skills. Emphasis will be on listening, interaction, expression, and the further development of rhythmic, aural, improvisation, and ensemble skills as well as comprehension of jazz theory.

· Jazz Band II
  Jazz Band II is open to anyone who plays (or is willing to learn) a jazz instrument interested in playing in a jazz band. Emphasis will be on participation, listening, interaction, improvisation, and expression, as well as developing sight-reading, rhythmic, and aural skills.

· Combo
  Combo is an ensemble for students interested in learning to develop their aural, improvisation, and expressive skills. Traditionally, a jazz combo is made of a rhythm section (piano, bass, drums, possibly guitar or vibes), and one - four horn players. Any wind instruments can be involved in combo playing and in any combination.

Alignment to the 2014 National Core Arts Standards for Music: Performing and Responding.
**ORCHESTRA**

**MUS131 (Sem 1), MUS132 (Sem 2)**

**DURATION:** year course  
**CREDITS:** 2  
**OPEN TO:** all students  
**PREREQUISITE:** previous experience on violin, viola, cello, or double bass; woodwinds, brass, and percussion students selected from Band

Orchestra is a two-semester, two-credit course that meets every day and provides students opportunities to study and perform within large and small instrumental ensembles and become lifelong learners of the arts. Orchestra is offered all four years of high school. Students will participate in a variety of musical and aesthetic experiences through performance of music from a wide variety of styles, genres, cultures, and historical periods. Sectional and Chamber rehearsals take place as needed. Guest artists lend their expertise for large projects or advanced music. During the year, all students will receive a regular individual lesson.

Orchestra students will perform in a variety of settings for hundreds of people, learn teamwork, develop valuable work habits, exhibit pride in their accomplishments, and make new and lasting friends with other students who have similar interests and talents.

This ensemble gives students of all levels the opportunity to expand the fundamentals of ensemble playing as well as developing an individual’s responsibility within the ensemble. The Concert Orchestra will perform several times during the year including major concerts and festivals. All ninth grade orchestra students begin in this ensemble. New or transferring students will start in this ensemble.

Alignment to the 2014 National Core Arts Standards for Music: Creating, Performing and Responding.

---

**PERCUSSION ENSEMBLE**

**MUS151 (Sem 1), MUS152 (Sem 2)**

**DURATION:** year course  
**CREDITS:** 2  
**OPEN TO:** all students  
**PREREQUISITE:** percussion students selected from Band

All Band students who play percussion instruments register for Percussion Ensemble, a graded course that will meet daily. Content for the course will closely parallel that of the Marching and Symphonic Bands. In addition, Percussion Ensemble will explore, through careful study, preparation, and performance, music written exclusively for percussion as well as traditional and ethnic styles of music including Taiko, West African, and Latin. Particular emphasis will be given to performing the highest quality literature available, enabling students to become lifelong learners in music through conceptual teaching. The Percussion ensemble will perform several times during each academic year.

Particular emphasis is also given to the individual’s responsibility in developing an excellent ensemble. Students are expected to practice parts individually in order to achieve a greater ensemble experience.

Alignment to the 2014 National Core Arts Standards for Music: Performing and Responding.

---

**COLOR GUARD**

**MUS162**

**DURATION:** semester course  
**CREDITS:** .5  
**OPEN TO:** all students  
**PREREQUISITE:** audition, instructor recommendation

During the fall, the color guard is an auxiliary unit of the marching band. The color guard will learn to use flags, dance and other props to enhance the visual pageantry of the marching program. Daily rehearsal will occur during marching band rehearsals. There will be additional color guard /marching band rehearsals during the pre-season summer camp and evenings throughout the fall. The whole marching band and color guard will perform at all home football games, local parades, and a couple of weekend competitions in late September and early October.

---

**CHORALE**

**MUS191 (Sem 1), MUS192 (Sem 2)**

**DURATION:** year course  
**CREDITS:** 2 (meets 5 days per week)  
**OPEN TO:** all students new to high school choir  
**PREREQUISITE:** placement audition

This entry-level auditioned choir is designed to introduce novice and intermediate students to proper body alignment, breathing technique, rehearsal technique, rehearsal etiquette, audience etiquette, basic notation and rhythm reading skills, vocal health and maintenance. Students will learn to sing unison, 2-, 3- and 4- part harmony through a variety of musical styles. They will explore cultural and historical context and sing in a foreign language. In the second semester, students will have the opportunity to participate in the Iowa State Solo and Ensemble Festival. This course will teach students how to set up a performance resume and e-portfolio. Students are required to perform with the Chorale in public performances throughout the year and the school’s graduation ceremony.

Alignment to the 2014 National Core Arts Standards for Music: Creating, Performing, Responding, and Connecting.
CONCERT CHOIR
MUS341 (Sem 1), MUS342 (Sem 2)
DURATION: year course
CREDITS: 2
OPEN TO: sophomores, juniors, seniors
PREREQUISITE: previous experience on violin, viola, cello, or double bass and instructor approval; woodwinds, brass, and percussion students selected from Band

Concert Choir is an auditioned 2-part, 3-part, or mixed chorus for intermediate, proficient and accomplished students. Repertoire is advanced choral literature encompassing styles from Renaissance to 21st Century. Students will refine rehearsal techniques, rehearsal etiquette, audience etiquette, intermediate music notation and rhythm reading skills. Students will continue exploring cultural and historical context and sing in foreign languages. They will have the opportunity to participate in the Iowa State Solo and Ensemble Festival and community performances.

This course will teach students how to update and maintain their performance resume and e-portfolio. They will learn teamwork, responsibility, and leadership. Seniors are encouraged to participate in college honor choirs and prepare for college choir auditions. Students are required to perform with the Concert Choir in public performances throughout the year and the school’s graduation ceremony.

Alignment to the 2014 National Core Arts Standards for Music: Creating, Performing and Responding.

MUSIC THEORY AND HARMONY
MUS361 (Sem 1), MUS362 (Sem 2)
DURATION: year course
CREDITS: 2
OPEN TO: sophomores, juniors, seniors
PREREQUISITE: minimum of one year in band, choir, or orchestra; minimum of one year piano instruction; instructor recommendation

In Music Theory, students will gain a deeper understanding of the fundamentals of the music they hear, play, and sing. Topics of study include but are not limited to history, scales, modes, intervals, transposition, chords, harmonic analysis, formal analysis, and composition.

This is a course designed for the most serious music students who plan to continue their study of music at the collegiate level or wish to pursue it as a major life activity.

Alignment to the 2014 National Core Arts Standards for Music: Creating, Performing, Responding, and Connecting.

AMBASSADOR SINGERS
MUS571 (Sem 1), MUS572 (Sem 2)
DURATION: year course
CREDITS: 2
OPEN TO: all students
PREREQUISITE: audition and interview; concurrently enrolled in Chorale or Concert Choir

The primary objective for this ensemble is to provide opportunities for leadership, responsibility, service, teamwork, community performances, and public relations. Ambassador Singers is an auditioned mixed choir. This class teaches a variety of chamber music from madrigal to jazz and popular, and may include choreography. Ambassador singer presentations may include: Madrigal, Singing Valentines, and various community performances including elementary and middle school audiences. Auditions are held in May.

Alignment to the 2014 National Core Arts Standards for Music: Creating, Performing, Responding, and Connecting.
**Advanced Choral Music: Portfolio**

**MUS601 (Sem 1), MUS602 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open To:** seniors
- **Prerequisite:** recommendation of the director of vocal music

The primary purpose of this advanced level course is to prepare senior music students for college auditions, applications, scholarships, and careers in music. Students are recommended based on their interest, participation and leadership in school music programs, and career aspirations. Students will prepare and maintain a performance portfolio and resume for college auditions and career planning. Students will have weekly voice lessons and meetings with their faculty advisor to monitor progress and meet college application deadlines. Students will prepare and audition for the Iowa All State Chorus. Students will perform at State Solo and Ensemble Festival. Students will participate in at least one college or university honor choir experience. Students will have opportunities to meet with and perform for various college music faculty. Students will present their final portfolio to music department faculty, their school counselor, an administrator, and invited guests.

**Jazz Choir**

**MUS682**

- **Duration:** semester course
- **Credits:** 1
- **Open To:** all students
- **Prerequisite:** audition and recommendation of the director of vocal music

This advanced level ensemble will explore the world of vocal jazz. During auditions, students must demonstrate their ability to sing accurately and in tune major, natural minor, and chromatic scales. Selections performed will focus on jazz techniques, jazz harmony, jazz theory and characteristics. Singers will study and perform literature representative of various jazz styles including blues, swing, be-bop, scat, ballad and unique jazz settings of classical works and folk songs. Students will perform in the community and in department concerts. Students will research and prepare a vocal jazz solo that may be used for Iowa All State Jazz Choir auditions, Catfish Jazz Society Scholarship auditions, college music scholarship auditions, and Great American Songbook auditions.

**Electives**

**Newcomer English Language Learner**

**ELL101 (Sem 1), ELL102 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open To:** all students
- **Prerequisite:** English proficiency screening

This is an English class for students who are new to the United States and for whom English is a new language. The focus of this class is on beginning development of listening, speaking, reading, and writing. Vocabulary and grammar development, as well as basic reading and writing skills, are emphasized. Students in the Newcomer course also learn about American school, American culture, and social skills for the American classroom and culture.

**Beginning English Language Learner**

**ELL201 (Sem 1), ELL202 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open To:** all students
- **Prerequisite:** English proficiency screening

This is an English course for students who have completed Newcomer ELL or who have a comparable level of English language proficiency. It focuses on further development of vocabulary and grammar along with reading and writing skills. COMMENT: ELL courses may count toward a variety of graduation requirements.

**Intermediate English Language Learner**

**ELL301 (Sem 1), ELL302 (Sem 2)**

- **Duration:** year course
- **Credits:** 2
- **Open To:** all students
- **Prerequisite:** English proficiency screening

The English Language Learner course is for students who have been identified as non-English language proficient because English is not their home or native language. In this course, instruction is for the purpose of developing conversational and academic English proficiency. To attain this goal, reading, writing, speaking, and listening are the major instructional elements. Vocabulary development, conversation and academic English are intensive, required elements of instruction. Students in an ELL course also learn about American schooling, American culture, and social skills for the American classroom and culture.

COMMENT: ELL courses may count toward a variety of graduation requirements. This course may be repeated if the student has not demonstrated necessary growth in English proficiency based on ELPA21 scores.
ADVANCED ENGLISH LANGUAGE LEARNER

ELL401 (Sem 1), ELL402 (Sem 2)
PREREQUISITE: all students
OPEN TO: all students
CREDITS: 2
DURATION: year course
PREREQUISITE: English proficiency screening

The English Language Learner course is for students who have been identified as non-English language proficient because English is not their home or native language. In this course, instruction continues from Intermediate ELL for the purpose of increasing conversational and academic English proficiency. Reading, writing, speaking, and listening are the major instructional elements. Vocabulary development of survival, conversation and academic English are intensive, required elements of instruction. Students in an ELL course also learn about American schooling, American culture, and social skills for the American classroom and culture.

COMMENT: ELL courses may count toward a variety of graduation requirements. This course may be repeated if the student has not demonstrated necessary growth in English proficiency based on ELPA21 scores.

BEHAVIOR AWARENESS

XSM401 (Sem 1), XSM402 (Sem 2)
PREREQUISITE: placement based on assessment and instructor recommendation

This course is for students that need a specific behavior support. Best practices in classroom and behavior management will be presented, included organizing time, materials, transitions, strategies for managing individual and large group student behaviors. Students will be taught the social skills needed for independent functioning within the community. Topics may include self-regulation, self-control, problem-solving, crime and punishment, anger control, decision-making, interacting with others, and maintaining relationships. This course may be repeated for additional credit(s).

RESOURCE 9

XSR101 (Sem 1), XSR102 (Sem 2)
PREREQUISITE: placement based on assessment and instructor recommendation

This year-long, two-credit course is intended for students entitled to special education services who need additional instruction designed to support them in the general education curriculum. Students learn reading strategies they can use with text typically encountered in ninth grade courses such as English 1-2 and Science. Students learn strategies to support their success in writing tasks required in ninth grade as well as strategies for tackling math concepts encountered in ninth grade. Students are instructed in notetaking, organization, and test-taking strategies. Students receive instruction in orientation to high school, time management, accessing resources, using learning management systems, social skills for high school, self-advocacy, and mapping out a plan for graduation. Also included is instruction specifically designed to meet their Individual Educational Plan goals.

RESOURCE 10

XSR201 (Sem 1), XSR202 (Sem 2)
PREREQUISITE: placement based on assessment and instructor recommendation

This year-long, two-credit course is intended for students entitled to special education services who need additional instruction designed to support them in the general education curriculum. Students learn reading strategies they can use with text typically encountered in tenth grade courses such as English 3-4, World History and Biology. Students learn strategies to support their success in writing tasks required in tenth grade as well as strategies for tackling math concepts encountered in tenth grade. Students are instructed in notetaking, organization, and test-taking strategies. Students receive instruction in responsible use of technology, working collaboratively, developing leadership skills, ethical behavior, time management, stress management, accessing resources, social responsibility, self-advocacy, and individual plans for graduation.

RESOURCE 11

XSR301 (Sem 1), XSR302 (Sem 2)
PREREQUISITE: placement based on assessment and instructor recommendation

This year-long, two-credit course is intended for students entitled to special education services who need additional instruction designed to support them in the general education curriculum. Students learn reading strategies they can use with text typically encountered in eleventh grade courses such as literature, U.S. History, and 11th grade Science. Students learn strategies to support their success in writing tasks required in eleventh grade as well as strategies for tackling math concepts encountered in eleventh grade. Students are instructed in test-taking strategies designed to support them as they prepare for post-secondary education. Students continue instruction in responsible use of technology, working collaboratively, leadership development, ethical behavior, time management, stress management, accessing school and community resources, social responsibility, self-advocacy, and individual plans for graduation and transition to life after high school. Also included is instruction specifically designed to meet their Individual Educational Plan goals.

This year-long, two-credit course is intended for students entitled to special education services who need additional instruction designed to support them in the general education curriculum. Students learn reading strategies they can use with text typically encountered in twelfth grade courses such as literature, American Government, and human/society study courses. Students learn strategies to support their success in writing tasks required in twelfth grade as well as strategies for tackling math concepts encountered in twelfth grade. Students are instructed in test-taking strategies designed to support them as they prepare for post-secondary education. Students continue instruction in responsible use of technology, working collaboratively, leadership, ethical behavior, time management, stress management, accessing school and community resources, civic and social responsibility, self-advocacy, and individual plans for transition to life after high school. Also included is instruction specifically designed to meet their Individual Educational Plan goals.

**DRIVER EDUCATION**

| Credits | 1 |

Driver Education is offered and made available for students residing in the Dubuque Community School District. Dubuque Community School District contracts with Northeast Iowa Community College (NiCC) to offer an approved driver education course before school, after school, on weekends, and during the summer at either Hempstead or Senior.

Students may register for the NiCC course in the high school business office. Students must complete a registration form, attach a photocopy of a current Iowa Driver's Permit, and enclose a non-refundable fee payment as determined by the Board of Education annually. Students who qualify for a fee waiver may have this fee adjusted. Registration is accepted on a first come-first served basis.

If you complete driver education from NiCC or another private instructor and have a valid Iowa driver’s license, you are eligible to receive credit toward graduation. Please see your counselor.
