K-5**

# CAMPS

## REACH FOR THE STARS

**FRIDAY, OCTOBER 7 | 9 A.M. - 4 P.M.**

Journey across the universe with out-of-this-world activities that explore planets, stars, and space travel. We'll create constellations, place the planets in order, and catch a comet by the tail. Don't miss out on this "far out" experience!

## POTION NOTIONS

**THURSDAY, OCTOBER 27 | 9 A.M. - 4 P.M.**

Fun is brewing in this mystical camp as we concoct colorful potions that bubble, fizz, and pop! Come experiment with dry ice, slime, and goo. Lab coats not required.

**MORE TO EXPLORE** →

## NOT-SO-SCARY SKELETONS

---

FRIDAY, OCTOBER 28  
9 A.M.-4 P.M.

Skeletons aren't always on the inside, they can be on the outside too! Campers will discover why some animals have bones and some do not and explore their unique traits. Skeletons and other Halloween costumes are welcome but not required!

## PAJAMA JAM

---

MONDAY, JANUARY 16  
9 A.M.-4 P.M.

Campers are invited to bring their pajamas for a day of nocturnal fun! Together, we'll use our imagination to explore life at night. We will meet a handful of nocturnal creatures and animals and use those observations to create our own nighttime animal models.

## MAKERS CAMP

---

FRIDAY, FEBRUARY 3  
9 A.M.-4 P.M.

Spend the day in one of our newest additions on campus - the MakerSpace! Campers will mix their Science, Engineering, Art and Math skills to create fun activities. Light up your world by making a flashlight, find out how towers can be so tall, and use the MakerSpace to inspire your own creation.

## OPPOSITE DAY

---

THURSDAY, FEBRUARY 23  
9 A.M.-4 P.M.

This camp is all about opposites! We'll participate in activities that span a gamut of extremes from light to dark, hot to cold, big to small, and many more.

## UNDER THE SEA

---

FRIDAY, FEBRUARY 24  
9 A.M.-4 P.M.

Where do fish sleep? On the seabed of course! Come visit some of our favorite fish friends as we dive beneath the surface to investigate life in the river and the sea. Meet the stingrays in our touch pools, watch some finicky feeders at mealtime, and make your own fish prints. You deFINitely won't want to miss it!

## OVER THE RAINBOW

---

FRIDAY, APRIL 7  
9 A.M.-4 P.M.

What's your favorite color? Join us to explore the vibrant world of nature, discover how rainbows are made, and conduct colorful experiments.
