The Board supports the use of innovative methods and the use of technology in the delivery of the education program. The Board encourages employees to investigate economical ways to utilize multi-media, computers, electronic devices and other technologies as a part of the curriculum.

It is the responsibility of the superintendent or designee to develop a plan for the use of technology in the curriculum and to evaluate it annually. The superintendent will report the results of the evaluation and make a recommendation to the Board annually regarding the use of technology in the curriculum.
