HIGH SCHOOL SUMMER CAMPS

High School Computer Hardware Camp

June 16-20
10 am - Noon

Cost: $119

Uncover the mysteries within! This camp offers a deep dive into the inner workings of computers. You'll explore the heart of the machine – the CPU, memory, and other key components. We'll investigate how these parts interact, learn to identify and troubleshoot common computer problems, and gain hands-on experience working with a variety of computer systems.

High School Computer Coding Camp

June 23-27
10 am - Noon

Cost: $119

Unleash your creativity and problem-solving skills in this exciting C++ programming camp! You'll embark on an immersive journey into the world of coding, learning the fundamentals of C++ and applying them to create your very own basic game. Under the guidance of experienced instructors, you'll gain an understanding of programming concepts, develop logical thinking, and experience the thrill of bringing your ideas to life. This camp is the perfect launchpad for anyone eager to explore the power of coding.
