

### **Student Teacher/Nurse/Counselor**

The Board accepts its responsibility for the training of replacements for the teaching profession, but also recognizes its first duty to the education of the pupils within its district.

The Dubuque Community School Board agrees, therefore, to place student teachers/nurses with selected staff members from its certified staff. Those colleges and universities with which the Board cooperates in this endeavor are:

1. Loras College
2. Clarke University
3. University of Dubuque
4. University of Wisconsin-Platteville
5. Emmaus College
6. University of Northern Iowa
7. Northeast Iowa Community College
8. University of Iowa
9. Other Institutions Approved by the Board

The Board expects student teachers/nurses/counselors to follow the Dubuque Community School District calendar while they are practice teaching in its schools. The colleges and universities will be expected to provide supervision of student teachers/nurses/counselors and to cooperate with district administrators in implementing the program.

It is expected that the colleges and universities will reimburse the cooperating teacher for services rendered through the student teacher program on the basis of the number of semester hours credit a student teacher earns while in the Dubuque Community School system. The rate will be determined by the university or college.

College student observations of classroom teaching must be arranged in advance with the district administration.
