From the desk of Miss Mac:

The teachers are looking forward to seeing you next week at conferences!

Last week the Building Leadership Team analyzed our fall data. Today I would like to share our MAP (Measures of Academic Progress in Grades 2 –Grade 5 in reading and math. In upcoming weeks I will share more data.

	Norm Mean	Fall 2012	Fall 2013	Fall 2014	Fall 2015	Fall 2016	FALL 2017	Fall 2018	Fall 2019

5th Grade	211	207.2	209	209.2	206.6	207.2	204	207.8	215

	Norm Mean	Fall 2012	Fall 2013	Fall 2014	Fall 2015	Fall 2016	FALL 2017	Fall 2018	Fall 2019
Math									
2nd Grade	176.9	176.2	176.8	181.9	180.4	179	183	182.3	178.9
3rd Grade	190.4	194	193	195.7	191.2	196.3	194	196.4	196.3
4th Grade	201.9	204.5	205.4	205.1	204.3	206.5	207	205.3	207.7
5th Grade	211.4	212.9	212.6	215.3	213.2	217.2	214	217	215

When analyzing data, we look at growth over time and these factors: gender, special education, Gifted and Talented, minorities and free and reduced lunch. One of the biggest discrepancies we noticed was achievement between girls and boys and that our math scores are much higher than reading. Although each grade level scored higher than the norm RIT mean in MAP, some students are not making their RIT target growth year after year. During conferences you'll have an opportunity to discuss these scores with your child's teacher. This is just one data point for your child. We also need to factor in your child's FAST score and what their performance looks like in the classroom. Hopefully this will be a rich discussion next week at conferences.
